

Basketball: High School Tournament Underway

By WALT BLORE Staff Sports Writer
Color, bedlam, elation, and disappointment make strange bedfellows most of the year, but for one week they go hand-in-hand.

This is the week that the Nebraska High School Basketball championships are played at the coliseum.

Teams represent all sections of the state, but the east-central part has the heaviest representation, something that is unusual for the tournament that has usually been spiced by many teams from the panhandle.

For the second year, six classes will have four teams each vying for titles. Classes range from AA to E. Omaha North has the biggest male enrollment with 910 while little Tobias has only 17 on the books.

As usual the tourney has its darkhorses, the cinderella teams, and the teams that have yet to suffer a defeat. Omaha North won only five games all season, but two of those wins came during the district in Omaha.

In Class B, Chadron High lost by large margins to two of the teams it had to face in the district, but spring three consecutive upsets to earn a ticket to in-coliseum. Teams like Boys Town, Falls City, Loup City, Hildreth, Brady, and Tobias are potential champs though other teams have been picked by the experts to capture the titles. Clarkson, Brady, Tobias, Farwell have unblemished records.

He said there are three attitudes toward the relationship of science and religion. According to one, a person must make a choice between science or religion. Or a man may accept both science and religion, keeping them in "separate compartments." Or a man may believe that science is a religious activity.

Perhaps the highlight of the week was the talk given by Dr. Louis Evans, minister-at-large of the Presbyterian Church, at an all-university convocation Wednesday night.

In his speech, Evans said that America began with a spiritual thesis and "now perhaps the cycle is beginning again."

Every home, he said, now must have a fixed point above it and that is God, or authority goes out the window.

"A message and purpose are said. Negation is yielding to affirmation."

The Outside World: Farm Price Supports

By ARLENE HRBEK Nebraska Staff Writer
Sen. Case (R-SD) suggested rigid farm price supports be limited to this election year in a proposal which he termed a "compromise" to the hot Senate argument over rigid vs. flexible farm price supports.

Attached to the pending administration soil bank farm plan is a provision for restoring 90 per cent price supports, the World War II level. The amendment Case offered would limit the restoration of wartime 99 per cent supports to the election year instead of the two year period that has been proposed.

Case voiced uncertainty of white house approval of his proposal.

Britain Stands Firm

Britain's government stood firm Thursday on a Middle East policy pinned to the Western Big Three pledge to block any change in the Israeli-Arab boundaries by force.

Prime Minister Eden declared the British government and the United States are working closely together to keep peace in Palestine. Eden warned that Britain, the United States and France had undertaken an obligation in their 1950 pledge that is "more serious than perhaps many British people realize."

The 1950 pact promises that the Big Three will act against any aggression by either the Arabs or Israel.

Soviet Women Celebrate

Soviet women, from kitchen maids to tractor drivers, stopped work two hours early Thursday to celebrate International Women's Day.

The holiday was observed in the Soviet Union with speeches, lectures, concerts, parties and exchanges of gifts.

Women comprise a third of all Soviet engineers and technicians, 40 per cent of the agricultural workers, 76 per cent of the physicians and 70 per cent of the teachers.

Agronomist Keim Dies At Age 69

Dr. F. D. Keim, 69, nationally known educator, scientist, and member of the University staff since 1914, died in Washington, D. C., late Wednesday night.

He was attending a meeting of the secretaries of the American Association for the Advancement of Science. Dr. Keim was secretary of the agricultural section. Dr. Keim joined the staff of the University as an assistant in agronomy in 1914, after receiving his Bachelor of science degree. Later he received his Master of Science degree at the University in 1918 and his Doctor of Philosophy degree from Cornell University in 1927.

He served as chairman of the Department of Agronomy from 1932-52 and since that time had been professor of agronomy.

Dr. Keim has traveled widely in the interest of agriculture. He attended the grassland conference in Wales in 1937, and during the war years was on the staff of the Biarritz American University in France, where he instructed Army personnel in agriculture.

Prominently identified with national agricultural organizations, Dr. Keim served as president of the American Society of Agronomy in 1943. He was a Fellow in the American Society of Agronomy and a member of American Association for the Advancement of Science.

He also held membership in the Nebraska Academy of Science, National Genetics Society of America, Scottish Rite Masons and the Shrine, Sigma Xi, Gamma Sigma Delta, Alpha Zeta, Agronomy Club, Farm House Fraternity and Innocents.

Rules Adopted: Edmondson Announced As Democratic Keynote

Representative Ed Edmondson (D-Okl.) will be the Democratic keynote speaker at the Mock Political Convention next week, Bev Deepe, publicity chairman, announced Thursday.

Edmondson, who will address the convention delegates Thursday night, telegraphed his acceptance of the executive committee's invitation from Washington Thursday.

A member of the House Committee on Interior and Insular Affairs, Edmondson has opposed about half the measures of President Eisenhower's interior programs. He has supported presidential foreign policy more ardently according to box scores printed in the Congressional Record.

Edmondson is a graduate of the University of Oklahoma and has a law degree from Georgetown University.

He is expected to give a partisan speech, highlighting Democratic policies, according to Miss Deepe.

In committee meetings Thursday night, the rules committee adopted the proposed slate of rules prepared by an appointed subcommittee with only minor changes.

According to Dick Fellman, platform committee chairman, debate was so spirited that the committee couldn't finish the agenda and is going to reconvene Tuesday.

Five planks out of seven slated to be discussed were passed, most in amended forms, he said.

The defense plank was passed and an amendment calling for a ready reserve armed force was also approved. Federal domestic aid to education, roads, social security and housing was voted support but health insurance was rejected.

The economic plank was much debated and amended, Fellman said. The committee favored further reciprocal trade agreements and trade cooperation, further investigation of business lobbies and a stepped up conservation program.

The committee agreed that further tax cuts were not advisable and defeated any mention of presidential succession.

Only plank adopted in toto, the farm plank favors flexible price

Tribunal Discussed: Council Votes Aid For Spring Event

A resolution giving financial packing to Spring Day and one favoring the creation of a student tribunal were passed in Wednesday's Student Council meeting.

Marv Breslow, member of the committee investigating the possibility of a student tribunal, reported that he had had several replies to letters of inquiry sent to schools in this area. The possibility of having a tribunal to handle all or part of student government was inaugurated by Breslow, John Fagan and Sam Van Pelt, Council members who attended the Big Seven student government convention in December.

The theory behind the tribunal is that students should as much authority as possible to govern themselves and to mete out their own punishment, according to Breslow.

Bernie Wisnow, holdover member, proposed the resolution granting financial aid to the Spring Day committee upon submission of a reasonable budget.

"This is a bad precedent to set; it is not right that any organization can come to the Council for money and get it."

Maria Wright, AWS, said she felt that since the Council had set up the committee, The Council

owed the committee whatever support it could give.

"The Council has helped two new things on the campus in Spring Convention and should expect to spend the money," Breslow said.

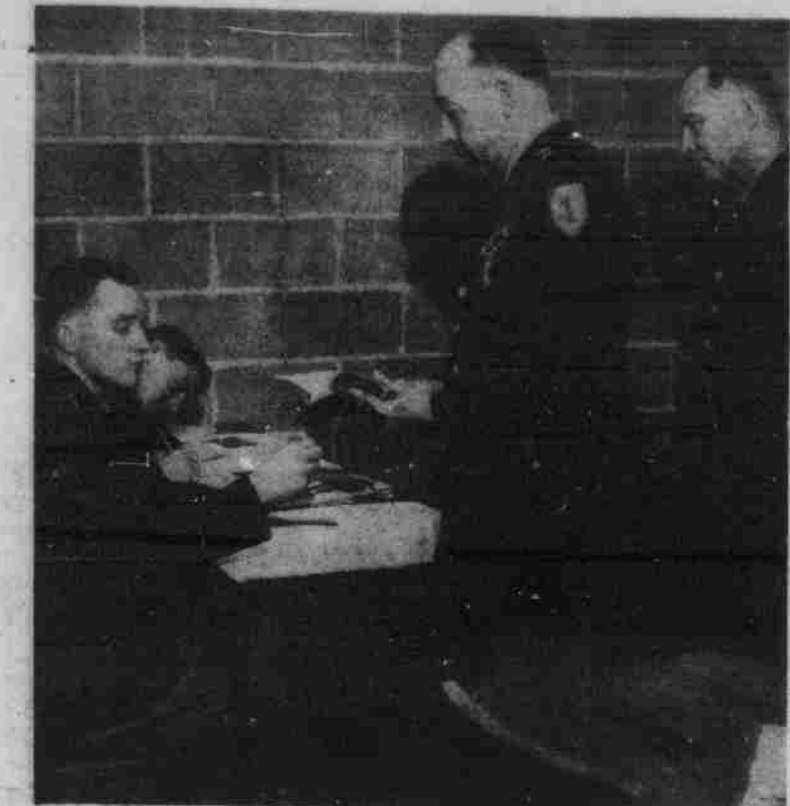

A six-person steering committee to plan next year's Spring Day was also approved. Don Beck, Corn Cobs, and chairman of this year's Spring Day committee, recommended that the members of the committee be selected by interviews before the Council in the manner of student members on the Board of Student Publications.

Bev Deepe, Arts and Sciences, suggested that members of the committee be selected from various organizations, one of which should be the Council.

The motion was passed without Miss Deepe's suggestion.

Other Council business included accepting the revised Builders constitution and discussion on Ivy Day. It was suggested by Sharon Mangold, chairman of the committee on the revision of Ivy Day, that the event be made more of an all-university function and include a dramatic or musical chronicle of University history.

Dick Reische, IPC, asked for Council members to assist with the all-women's elections Tuesday.

General Reviews

Maj. Gen. Willis Mathews, commander of the First Infantry Division at Fort Riley, Kans., is shown, second from right, during his visit to the University to review Army ROTC units.

Col. Chester Deistel, commander of Army ROTC, is at the far right. Gen Mathews is reading map exercises of Jim Vanderslice, senior in Arts and Sciences, and Darrel McGraw, senior.

Graham Addresses: RE Week Ends Thursday Night

Religious Emphasis Week came to an end Thursday evening with a talk given by Father Graham, director of Vocations for the Dominican Fathers and Brothers.

Summing up the success of R-E Week, Dr. Rex Knowles, pastor of the Presbyterian-Congregational student house here said, "Of course I was very pleased with Religious Emphasis Week, but the thing that impressed me most was the enthusiasm and hard work of the student committee. No matter how effective the message of the speakers may have been, without the planning and work of the students very little would have been accomplished."

John Nelson, co-chairman of R-E Week, said, "I think the week was a success. According to past disinterest we couldn't expect complete enthusiasm, but we did get sufficient enthusiasm to warrant continuing it."

Religious Emphasis Week brought to the University Campus seven speakers of various faiths. They divided their time between convocations, seminars and classroom and student discussions.

Father Graham, in a speech given Wednesday night, said that mass is the center of Catholic Worship and Catholic life.

"The Eucharist is a sacrament

instituted by Christ at the Last Supper to be the food of the soul," he said. "This food which is the body and blood of Christ is as vital a need of the soul as ordinary food is vital need of the body."

"The main significance, I believe, is a chance on a scale large enough to make an impact on the campus, to remind students of the role that religion ought to play in their lives," he said.

Dr. L. H. Cragg, professor of chemistry at McMaster University, Hamilton, Ontario, stated that the relation between science and religion has not yet been settled in people's minds.

He said there are three attitudes toward the relationship of science and religion. According to one, a person must make a choice between science or religion. Or a man may accept both science and religion, keeping them in "separate compartments." Or a man may believe that science is a religious activity.

Perhaps the highlight of the week was the talk given by Dr. Louis Evans, minister-at-large of the Presbyterian Church, at an all-university convocation Wednesday night.

In his speech, Evans said that America began with a spiritual thesis and "now perhaps the cycle is beginning again."

Every home, he said, now must have a fixed point above it and that is God, or authority goes out the window.

"A message and purpose are said. Negation is yielding to affirmation."

Sig Alph's Plan Centennial Observance

Sigma Alpha Epsilon, social fraternity, is celebrating its 100th anniversary today at its founding site, Tuscaloosa, Ala.

The University chapter, Lambda Pi, is celebrating with a banquet at the Cornhusker Hotel. Featured highlights will be a nation-wide closed telephone hook-up from Hollywood describing the founding and growth of SAE, initiations and talks by several alumni.

Presentations will be made to men who have been members for 50 years. Marvin Clapp is one of those who graduated in 1896, only three years after SAE was established at Nebraska.

"This is a year to long be remembered by every SAE, and we must strive to perpetuate our fraternity as well as the entire fraternity system," Joe Mesmer, SAE's Nebraska chapter president, said.

At the centennial banquet, special tribute will be paid to the late Dr. John Moseley, past president, who had prepared the original script for the broadcast. Moseley created the SAE Leadership School in Evanston, Ill. in 1935 held for chapter delegates each summer. He spoke at a Greek week banquet at the University two years ago.

Other juniors running for AWS board positions are Kay Christenson, Alpha Omicron Pi, Tassels, Union committee chairman; Linda Buthman, Kappa Kappa Gamma, Cornhusker, Carolyn Galley, Alpha Omicron Pi, Coed Counselors, AWS house representative; Betty Branch, Pi Beta Phi, AWS house representative; Shirley Bazant, Kappa Delta, WAA Red Cross, Newnan Club; Rita Jelinek, Pi Beta Phi, Student Council, Red Cross Secretary and Pi Lambda Theta.

Marian Sokol, Home Ec Club vice-president, AWS secretary BABW; Courtney Campbell, Alpha Phi president, Tassels; Kay Skinner, Home Ec Club, Phi Upsilon Omicron, Gamma Alpha Chi president and Alpha Chi Omega social chairman, and Pat Alvord, Mu Phi Epsilon treasurer, Phi Sigma Iota, Alpha Lambda Delta and Phi Lambda Theta.

Sophomores running for board positions are Betty Joy, YWCA, Coed Counselors and Chi Omega; Ardith Hughes, Coed Counselors,

Barb Activities Board for Women has nominated Hanna Rosenberg, junior in Arts and Sciences, and Marian Sokol, junior in Ag College.

Coed Counselor nominees are Carol Anderson and Jody Chalupa, both juniors in Teachers College. Miss Link's activities include Tassels, Lincoln Project, Pi Lambda Theta and Delta Gamma vice-president. Miss Hemphill is a member of Tassels, NUCWA, Pi Lambda Theta and Chi Omega pledge trainer.

Women's Organizations Announce Slates

Nominations for officers of all women's organizations included in the All Women's Spring Elections have been announced.

Running for Associated Women's Students Board president are Carol Link and Emily Hemphill, both juniors in Teachers College. The runner up for president will automatically become vice-president.

The Women's Athletic Association presidential nominees are Margaret Edwards, junior in Ag College, and Jane Jeffrey, junior in Teachers College.

Barb Activities Board for Women has nominated Hanna Rosenberg, junior in Arts and Sciences, and Marian Sokol, junior in Ag College.

Coed Counselor nominees are Carol Anderson and Jody Chalupa, both juniors in Teachers College.
