Hardin Says Expression Of Opinion 'Welcome'

Chancellor Defends Academic Freedom

Chancellor Clifford Hardin has | mittees to learn if any complaints issued a statement on the academic had been received. recent changes in University per-

this campus our aim is not merely tee in joint meeting concerning to tolerate the expression of divergent opinions. Our aim is, and should ure and privilege which could come be, to welcome them."

lationships, and states that he has them.

freedom controversy arising from According to Julius Cohen, chairman of the committee on academic privilege and professor of law, Hardin consulted members of his Hardin's statement says, "On committee and the liason commitmatters of academic freedom, tenbefore each committee for review

He also outlines the procedure, Cohen said both he and the memunder Faculty Senate rules, for bers of the liasion committee rehearing complaints on academic ported that no complaints of any freedom and intra-institutional re- such nature had been referred to

contacted members of the two com- Hardin's statements is as follows:

"I have been increasingly concerned by the series of reports printed in The Nebraskan which either state or imply that academic freedom is being violated by the administration.

"To faculty, administrative officers and stu-

"To question the judgment of administrative officers as they act to fulfill their responsibilities is one thing. To present charges that the administration either permits an infringement on academic freedom or, worse, promotes such infringement, is quite another thing. Articles appearing in The Nebraskan's series during the past ten days, in my opinion at least, reflect a marked drift from the first area into the second.

"I have been especially disturbed by the reports, such as that appearing in the issue of Friday, May 4, which at least imply that many members of the faculty believe the administration guilty of choking off a free expression of views on this campus.

"Under University rules, two standing committees elected by the University Senate are provided for the express purpose of receiving complaints which bear upon academic freedom and intra-insitutional relationships. My grave concern over the repeated assertions regarding the administration's attitudes and actions prompted me to consult with the members of both of these committees: the Committee on Academic Privilege and the Liaison Com-

"The purpose of my inquiry was to learn whether either of these faculty agencies, or any of their members, had received complaints of a nature Nebraskan. Neither committee, nor any member thereof, had received any such complaint.

"By virtue of their quasi-judicial complexion neither of these committees is in a position to act until charges are placed before it. It is the clear and solemn duty of any faculty member who has reason to feel that his academic freedom has been impinged upon to place his complaint and such evidence as he believes supports it, before one of these committees. Without such action the University's remedial machinery stands idle while the institution, as well as its administration, is flayed with rumors and in-

"I wish to emphasize here the depth of my feeling on what appears to be the current point at issue in the recent efforts of The Nebraskan, namely, the protection of academic freedom.

While the administration has the right and the obligation to delegate and remove administrative assignments as its best judgment dictates will promote the best interests of the University, I believe that this right and obligation can and must be served without interference with academic tenure or freedom.

"On this campus our aim is not merely to tolerate the expression of divergent opinions. Our aim is, and should be, to welcome them. The free exchange of ideas is essential to the good health of this or any other university. Never, in my opinion, are the best interests of a university served by the vio-lation of academic freedom. If there is anyplace within our society where conflicting ideas and opinions must be expressed, it is on our university campuses. The only limitations—if limitations they be—are those already expressed in our University policy: the "responsibilities of citizenship" and "the precepts of scholarship and faithful performance of other academic responsibilities."

Appropriation Passed

A record Agriculture Department appropriation was passed by the House, Monday. After less than two hours debate the measure passed a voice vote and was sent to the Senate.

Appropriations totaled \$1,983,512,568 in cash and authority to loan \$359,300,000. It was almost 4 million less than President Eiser had requested.
