War Threatens:

Israel Launches Egyptian Attack

Israeli military forces launched an attack across the border into Egyptian territory Monday night and established positions near the Egyptian town of Kuntilla.

Located on the Sinai peninsula, Kuntilla is approximately 40 miles north of Arabia, according to Israeli authorities.

Egyptian warships including two destroyers are reported head-David Ben-Gurion ed toward Israel by security officials of the Israeli government.

The authorities said the vessels, five or six in number, left their base at Alexandria Monday morning and, so far as it is possible to determine, are moving toward Israel.

In what officials label the biggest Arab-Israeli war threat since 1948, Israel has mobilized its reserves and the United States has begun the evacuation of some of its citizens from four Middle East states.

President Eisenhower has sent two messages to Israel Premier David Ben-Gurion, cautioning him to avoid acts "which would endanger the peace." According to reports from Washington, Israel had mobilized from 150,000 to 200,000 men along her frontiers.

Jordan, who has a defense alliance with Britain, may become involved in the present action. Britain recently sent a few more new Hawker Hunter jet planes to her base in Jordan.

Jordan also has separate treaties with Iraq and with Syria and Egypt but has made it plain recently that she places her chief reliance in the latter pact.

Since the dismissal of Glubb last March by King Hussein, Jordan's relations with the west have fallen off considerably.

Traffic and business in the Israeli side of Jerusalem have been hampered considerably by the movement of troops and materials.

The state department has notified some 8000 Americans in Egypt, Israel, Jordan, and Syria to leave for points of safety.

Over 1700 missionaries, teachers, newsmen, and businessmen are located in Egypt.

Israel, bordered from all sides by Arabian countries, secured her present territory by virtue of a peace treaty in 1948 after she had

Minister Attacks Faculty Situation

Rev. Peter Raible Delivers Open Letter Opinion Of Administration

By DICK SHUGRUE Copy Editor

Charges that the University faculty is "discouraged, sick at heart and fearful" were made by the Rev. Peter Raible, pastor of the Lincoln Unitarian Church in an open letter to Chancellor Clifford Hardin delivered Sunday morning.

The Rev. Mr. Raible said that during recent months he had spoken with many professors in many departments and that they generally reflected these views.

The Lincoln minister stated that there are always those who would constrict the free search after truth. He said, "They say you may go so far and no further."

Raible added that such people would besmirch a whole university if it does not give way to their desires.

"But what cannot be accomplished through public attack can often be achieved through the back

door—through insidious infiltration of a type similar to Communist subversion. It is precisely the danger the university now faces," he stated.

"Through a scrupulous regard for honesty, through your public statements, through your private acts, you can easily chase the goblin of fear from the campus," Raible was directing the advice to Dr. Hardin.

The chancellor was called the "most important man in the state" in the sermon. The Rev. Mr. Raible said that since the policies followed by the University will no doubt be the "single, most influential factor in the future of the State of Nebraska" the place the chancellor plays is foremost.

Commenting on the State of the University address made by Chancellor Hardin Oct. 4, Raible noted that the chief problem of the school today is not the parking situation or the building program but the maintenance of the highest of qualities of faculties.

He quoted Hardin as saying, "I have said that I consider the maintenance of a quality teaching staff the biggest and toughest problem which the University faces."

Raible then stated, "Like many citizens I am saddened by the blithe way we talk about super-highways at a million dollars a mile; but look on such a figure for faculty salary increases as an outrageous sum."

Ultimately, though, salary is not the most important factor in attracting fine teachers. The single most important thing for any faculty is a very simple thing—the atmosphere a university provides. This atmosphere of a university involves the morale, the significance, and the freedom which each instructor and professor feels here."

Raible concluded that the professor is so precious that we should allow no orthodoxy, no pressure, no temporary goal to silence or debase him in the free quest of truth. As a precious person, obedient to the dictates of his own conscience, he must follow the conclusions blazed by his own study, he added.

He ended his Sunday sermon stating that the faculty only wishes to do that to which they have committed their lives—to seek and teach the truth, wherever they may find it, according to their highest inspirations and with their greatest ability, answering only to

Talent Show Auditions Set This Week

Tuesday is the last opportunity to sign up to audition for the Student Union Talent Show to be held Nov. 11 at 8 p.m. in the Union Ballroom, according to Bob Handy, Union activities director.

the honest questioning of their own consciences.

The Rev. Mr. Raible said Monday that his letter was not to be construed as an attack on the administration. "It is the view of a citizen and a minister, whose task it is to seek continually after truth."

He said that the solution to the

problem will not come by bickering back and forth. "The citizens of the state should take more interest in the University; the Board of Regents elections; and the administration of the school."

He noted that students, because they "are here today and gone too soon" cannot get a sustained interest in the problem.

"They can be a chief influence through their parents who must in turn stand foursquare for freedom. Students, in the long run, can see that a similar lethargy on the part of the faculty never reoccurs in the future."

The minister said that he had been at the University of California when the loyalty oath was introduced on that campus. "That institution is still feeling the repercussions of that oath. A poorer quality instructor will result at any school where the freedom to think as one chooses is squelched."

The Rev. Mr. Raible said he is seeking a public statement by the Chancellor on the rights and privileges of the University staff.

Chancellor Hardin, out of town Monday, could not be reached for comment. Dean of Faculties, Adam C. Breckenridge, declined to comment Monday.
