## Committee Statement:

# Mitchell Case Investigation Set 'As Soon As Possible'

Investigation will begin "as soon as possible" into the charge of Dr. C. Clyde Mitchell, that his academic freedom has been violated. David Dow, professor of law and chairman of the investigating group announced Tuesday.

Whether the meeting will necessitate Mitchell's appearance before the group is not yet known, according to Dow. Mitchell was relieved of duties as chairman of the department of agricultural economics last spring.

"He may or may now want to

be here, or we may call him up, but I doubt if he'll be present at the opening of the investigation," Dow said Tuesday.

Dow heads the University committee on academic privilege and tenure elected by the Faculty Senate to investigate the case.

A faculty committee was asked by Dr. Mitchell to conduct the hearings on his removal as department chairman. He resigned from the University last month to join the Food and Agricultural Association of the United Nations. He

is now working with the FAO in Mexico City.

In his statement Tuesday, Dow said, "The newly constituted Senate Committee on Academic Privilege and Tenure has met and determined to proceed immediately with an investigation of charges made by Mr. C. Clyde Mitchell that his academic freedom was violated by various administrative officers of the University."

Dates for hearings will be set as soon as all of the people involved can be advised of the Committee's determination and convenient times agreed upon.

"The Committee is acutely aware of the importance of the University of a speedy decision of the problems raised by Mr. Mitchell's charges and intends to proceed as quickly as possible."

Other committee members are Herbert Bates, associate professor of chemical engineering; Clifford Hicks, professor of business organization and management; Ralph L. Ireland, professor of pediatrics; William F. Pfeifer, professor of Germanic languages and C. Bertrand Schultz, director of the University museum.

## Traffic Plan: HC Display Car Route Announced

The traffic route for the homecoming display Friday, November 2, has been announced by Doyle Huime, parade chairman.

The traffic will follow a route west on R Street to 14th Street, north on 14th to S Street, east on S to 16th Street and north on 16th to Vine Street.

At approximately 6:30 p.m. the plan, consisting of road blocks and police directing traffic, will go into effect and will continue until traffic flow ceases.

There will be no parking on 14th, 16th and S Streets and on the south side of R Street between 16th and 14th and the north side between 16th and 17th after Friday noon.

Any car without a driver in the no parking zones after 1 p.m. will be towed away.

This new plan should permit much faster traffic flow and less congestion throughout the entire route since it is a continuous flow without any cross traffic as there was last year, Huime said. He urged that all organized houses cooperate with this plan.

## Y To Sponsor UN Seminar In New York

The national YW-YMCA is sponsoring a United Nations Seminar in New York City Nov. 23 to 25, according to Bev Deeps, City Campus YMCA president.

About two thousand students from all over the United States are expected to attend, she said.

The theme of the conference will be "The Role of the East in the Family of Nations".

Highlights of the trip will include a general Assembly session in the United Nations Building, special speakers at conference banquets and sponsored tours of the city.

In addition to the specially arranged tours, there will be plenty of spare time for students to explore the city on their own time, according to Bette Wilson, YMCA director.

The estimated cost of the trip is \$100.

## Temperatures To Continue Warm Today

The weather bureau predicts highs for today to range around 65-75. Today's weather will continue fair and warmer through to night.

Yesterday's high was 59, while the low temperature recorded was 48. The airport reported a high of 59 also, with a low of 48.

Scottsbluff and Omaha registered the state high with temperatures of 61. Chadron recorded the state low with a reading of 27.

Lincoln had received .64 of an inch in rainfall yesterday. The airport received .96 inches.
