## Council Parking Board: Appeals Group Seeks End Of Letter Requests

The Student Council Parking Ticket Appeals Board is requesting that students who wish to appeal tickets do so in person rather than in writing, according to Dave Keene, chairman of the committee.

Keene said that at present a student may appeal a ticket he has received from the University Police to the board. "But this causes a certain amount of doubt in the minds of committee members," he continued. "A student who can make the appeal in person has a better chance of giving all the facts to the board and can subsequently gain a better understanding of the procedures of the board and the passage or denial of appeals," he said.

The three-man board operates not like a court, he explained, but rather like a Senate facts finding committee. "Nine out of ten times, a student knows he has parked illegally," Keene said. "Yet this method of operations gives him a chance to 'get out' of the ticket if he feels there is the slightest chance."

A student is in a better position to get a repeal of a ticket if he appears in person. "This is natural. If he has a chance to talk with us and tell everything—which most don't do in the letters—then we can better judge the case," he said.

The Board is not taking away the right of the student to appeal by letter. "They will still get as much consideration as possible from us. Yet the student who appears in person gets a better understanding of the entire parking setup at the University."

Keene said that in the time he has been working on the committee he has found the co-operation between the Council, the University Police and the Administration to be excellent.

The student who wishes to appeal may tell the University Police who will establish the necessary contacts for him. He appears at the Board meeting at 3 p.m. on a Thursday and explains his side of the story. The Police have, in the meantime, prepared a brief explaining the nature, time and place of the violation.

Sargent Furrow, chief of the University Police, attends the meeting to offer technical advice. "He has no vote, however," Keene stated.

After the committee makes a

recommendation it is sent to the Dean of Student Affairs J. P. Colbert who makes the final judgment on the case. "I have never found a case in which Dean Colbert reversed a decision of us," Keene said.

He added that with the present set up, students have a good chance to find out more about the way the University Police work. "Often, a student who knows he has committed a violation comes to us with a recommendation for new rules for parking." We listen to him and attempt to get the facts and figures for further consideration by the administration.

"Sometimes a student comes in who has consciously violated the rules. His excuse for coming before us is that he wants to get his dollar's worth of talking."
