Sig Eps Lead All-University Selections

Sigma Phi Epsilon leads all other intramural football teams by placing 4 men on three All University teams.

The Dental College, runner up to the Sig Eps for the All University title, also placed two men on the first team. Rounding out the first unit are two Deltas, one Phi Psi and one man from Selleck Quadrangle.

Don Appleby and John Beideck are the end selections. Appleby performed well for the Sig Eps each game he played. His timely pass catches were invaluable. Beideck was a consistent performer both on offense and defense for the Deltas.

Two of the finest performers in intramural football hold down the middle of the line. They are Ken Billings and Tito Mladovich. Billings was a demon on defense for the Phi Psis. He also played blocking back at times on offense. Mladovich was the defensive stand out for the Deltas. He was also dangerous on offense.

In the backfield are three fine tailbacks, Gene Souponchick, Phil Eyn, and Chuck Jensen. Each was on a winning team. Souponchick played for the All University champion, Sigma Phi Epsilon. Eyn passed the Dents to the All Independent title, Jensen was the spark of the team that won the Selleck Quadrangle League.

Named to the second team end positions are Wayne Copes, MacLean, and John Heassler, Phi Kappa Psi. In the middle of the line are Warren Houfek, Dent College at guard and Bud Jeffries, Sigma Phi Epsilon, at center. The second backfield, almost as brilliant as the first includes: Terry Trueblood, Alpha Tau Omega, Wally Bryans, Sigma Alpha Epsilon, and Leonard Lindgren, Delta Tau Delta.

Reimers And Kubacki Pace Nebraska To 53-51 Victory Over Wisconsin

By BOB MARTEL
Staff Sports Writer

Accurate foul shooting paid off for the Cornhuskers last night as they downed the winless Wisconsin Badgers 53-51.

The contest was tight and hard fought all the way. Nebraska led throughout the game, but some fine shooting by Wisconsin forced

a tight man to man defense, had trouble working the ball in but the fine outside shooting of Gary Reimers and Jim Kubacki coupled with the excellent rebounding of Rex Ekwall and Ron Parsons made up for this deficit.

Ray Gross, who was inserted at center by Coach "Bud" Foster late in the first half, did some fine rebounding while Borland with his deadly southpaw one-handers handled the brunt of the scoring attack.

end the scoring. This was by far the toughest contest the Cornhuskers have played since returning from California. The tough defense employed since returning from California all evening long.

Litzow dunked 16 points for game scoring honors and proved that he is just as deadly as the pre-game notices indicated. Borland was the only other Badger to hit double numbers as he tallied 14 points.

Records Fall

Eleven world records and 31 Olympic marks were bettered during the Olympic Games which closed Saturday.

Track and field athletes and weight lifters each hung up four world standards with the other three going to the swimmers.

Nineteen of the new Olympic records were established in track and field, seven in swimming, two each in weight lifting and shooting and one in cycling.

Track, Field Meet

The Intramural Track and Field Meet preliminaries regularly scheduled for Tuesday, has been changed to Thursday. One change has also been made in the rules for the meet, as spiked track shoes may be worn in this year's events. Runners may contact either head track coach Frank Sevigne or his assistant, Eugene Gross. The schedule of events remains the same: 7:00, 60 yd. dash, shot-put and broad jump; 7:30, 60 yd. high hurdles, 8:00, one lap run, high jump and pole vault; 8:30, 880 yd. run; 9:00, 60 yd. low hurdles, 9:30, 440 yd. dash.

In the first half Nebraska dominated most of the play. Litzow, however kept Wisconsin in the ball game as he scored 10 of his 16 points in the initial frame. All of Litzow's baskets were from 20 feet out or better.

With Nebraska leading 51-49 and less than two minutes to play, Jerry Bush ordered his crew to freeze the ball. Smidt was fouled by Jim Rogneby and dropped in two free throws to spread the gap to 53-49.

Reimers, who led the Nebraska scoring attack with 14 points, is the player perhaps the most responsible for the Husker victory. The Millard junior handled the ball well and scored the key baskets for Nebraska.

Right behind Reimers in the scoring column was Smidt with 11 points, while both Parsons and Kubacki tallied 10 points each.

4-H Party

The annual 4-H Christmas party will be held Wednesday at 7:30 in the Agronomy Building Auditorium. Rev. Rex Knowles, Presbyterian-Congregational minister, will be the featured speaker.

wards Bob Litzow and Glenn Borland kept the Badgers within striking distance.

The Cornhuskers, playing against

As the final gun went off, Walt Holt dropped in a jump shot to

In the preliminary contest the Nebraska Freshmen defeated the Campus All Stars 62-46. Bob Mayo, Herschell Turner and Willie Fitzpatrick led the yearlings with 18, 16 and 11 points respectively while Dick Prussia scored 15 points for the All Stars.

ASSIGNMENT WITH A FUTURE

Engineering history is being made at Chrysler Missile Operations. We are meeting and conquering the challenge of two of today's most important missiles—the Redstone and Jupiter Ballistic Missiles.

As a graduate engineer we offer you an opportunity to share in this adventure in engineering for we need young men with the necessary vision and creativeness to work in today's newest and most rapidly expanding field. In no other area of engineering are the opportunities as great or the future as bright for a young engineer as in this dramatic industry.

You will find at Chrysler Missile Operations a work atmosphere which is geared to new ideas and where ample opportunity is given each individual to achieve leadership and full command of all phases of missile development. You will work shoulder to shoulder with many of today's greatest missile scientists and pioneers whose name are synonymous with pilotless flight.

If you wish to become part of a wide open—full of the future—engineering field, one which will literally lift you out of the ordinary and into a whole new world of engineering opportunities, then graduate to Chrysler—Guide Post to Opportunity!

We invite you to discuss your opportunities at Chrysler Missile With
