Annual Tea:

MB's To Honor Seniors

The top 10 women scholars in the University's senior class will receive special recognition Sunday at the annual Mortar Board Scholarship Tea, according to Shirley Richards chairman of the tea.

All 10 women have averages above 90 per cent.

The outstanding students are Patricia Alvord, Teachers College; Pearl Bremer, College of Pharmacy; Jean Hueftle, Teachers College; Mary James, Teachers College; Diane Knotek, College of Arts and Sciences; Mrs. Joan Chalupa Newmyer, Teachers College; Sandra Reimers, College of Arts and Sciences; Marian Sokol, College of Agriculture; Mrs. Mary Heard Williams, Teachers College; and Mrs. Marie Duerr, College of Arts and Sciences.

The tea will be held from 3 to 4:30 p.m. in Union Parlors ABC. Members of Alpha Lambda Delta, will serve.

Marjorie Johnston, Associ-ate Dean of Student Affairs; Helen Snyder, Assistant Dean of Student Affairs as well as Mortar Board Advisor; Virginia Hudson, president of Mortar Board: Carol Link, Vice president of Mortar to Mike Segal, Zeta Beta Tau Omaha. Board and Elsie Ford Piper, president of Mortar Board Alums, will be in the receiving line.

The following 300 sophomore, ers at Denver University from Sigma alumnus from Lincoln, funior and senior women with scholastic averages above 83 per cent have been invited to the tea.

LOCKHEEI

Aircraft Corporation

California Division · Georgia Division

Lockheed Representatives of the California Division and the Georgia Division will be on campus Friday, January 18

You are invited to consult your placement officer for an appointment. Separate interviews will be given for each division.

Both divisions of Lockheed are engaged in a long-range expansion program in their fields of endeavor.

California Division activities in Burbank cover virtually every phase of commercial and military aircraft. Seventeen different models of planes are in production, including cargo and passenger transports, high Mach performance fighters, jet trainers, radar search planes, patrol bombers.

B. S. graduates who wish to attain a Master's Degree will be interested in the California Division's Masters-Degree Work-Study Program. In the program, participants achieve their M.S. while working concurrently on Lockheed's engineering staff.

At Lockheed in Marietta, Georgia, new C-130A turbo-prop transports and B-47 jet bombers are being manufactured in the country's largest aircraft plant under one roof. The division is already one of the South's largest industries. Moreover, a new engineering center is now in development as part of the division's expansion program. In addition, advanced research and development are underway on nuclear energy and its relationship to aircraft, A number of other highly significant classified projects augment the extensive production program.

This broad expansion program is creating new positions in each division. Graduates in fields of: Aeronautical Engineering, Electrical Engineering, Mechanical Engineering, Mathematics and Physics are invited to investigate their role in Lockheed's expansion.
