A Campus-to-Career Case History

Planning for growth. Joe Hunt (left) talks with Jim Robinson (center), District Construction Forcman, and O. D. Frisbie, Supervising Repair Foreman. In Joe's district alone, 600 new telephones are put into service every month,

"I'll take a growing company"

70,000 telephones to keep in operation ...\$20,000,000 worth of telephone company property to watch over . . . 160 people to supervise - these are some of the salient facts about Joe Hunt's present job with Sorthwestern Bell. He's a District Plant Superintendent at Tulsa, Oklahoma.

"It's a man-sized job," says Joe, who graduated from Oklahoma A. & M. in 1949 as an E.E. "And it's the kind of job I was looking for when I joined the telephone company.

"I wanted an engineering career that would lead to management responsibili-

ties. Moreover, I wanted that career to be in a growing company, because growth creates real opportunities to get ahead.

"But to take advantage of opportunities as they come along, you must have sound training and experience. The telephone company sees that you get plenty of both. Really useful training, and experience that gives you know-how and confidence. Then, when bigger jobs come your way, you're equipped to handle them.

"If I had it to do all over again, I'd make the same decision about where to find a career. Now - as then - I'll take a growing company."

Joe Hunt is with Southwestern Bell Telephone Company. Interesting career opportunities exist in other Bell Telephone Companies, and in Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about these companies.
