

Three-Day Trip:

Twenty-Seven Sign For Nebraska Tour

Twenty-seven international students have signed up for the annual Mortar Board International Student tour, scheduled for April 15, 16 and 17, according to Linda Buthman, publicity chairman.

The tour will last three days this year instead of the usual two because of the foreign students' increased interest, Bev Deepe, general chairman announced.

The annual tour will attempt to give University foreign students a representative view of Nebraska. The students will leave Lincoln April 15 from the Union and will arrive in Boydstown for a guided tour at 9:30 a.m. Then they will visit Joselyn Memorial Art Museum in Omaha at 10:30 a.m. and will visit the Omaha Stockyards at 11:30 a.m., eating lunch at the same place.

Leaving for Grand Island at 2:30 p.m. the group will arrive in Grand Island at 5:30 p.m. for dinner and a brief program before they retire to the individual housing set up for the tour.

Tuesday the group will eat breakfast in the homes at 8:30 a.m. and leave Grand Island by 9:00 a.m. for Lexington alfalfa mills and a coffee hour. At noon the group will have lunch and visit commercial cattle feeders. Then at 1 p.m. they will leave for Curtis to visit a high school, to be entertained at a brief program and then stay overnight.

Wednesday the group will have breakfast in Curtis and leave for Holdrege at 8:45 a.m. There they will have lunch and visit Franklin School, Central Nebraska Irrigation and Power District at 1 p.m. and leave for Hastings at 2 p.m.

Arriving in Hastings at 3 p.m. the group will visit Hastings College, House of Yesterday and De-

bus Baking Company. Dinner that night will conclude the tour and the group will head back for Lincoln.

The annual tour began at a Mortar Board convention in Colorado in 1953. Last year 39 students attended the tour.

Cost for the tour for each foreign student is only \$5 which includes food, transportation and lodging. The students receive this low rate because the Mortar Board-sponsored Late Date Night Dec. 12, 1956. Hours were extended from the usual 12:30 a.m. Friday night hours to 1:30 a.m. Money received from the fine of one cent for each late minute went to International Student tour fund.

Foreign students attending the tour include: Laurel Marr, Jamaica, BWI; Jivan Patel, India; Azizbegloo Azar, Iran; J. J. Bruwen, Sher Sakander, Afghanistan; Sermchito Sinhaseni, Thailand; Gleun Sanjume, Hawaii and O. P. Agarwala, India.

Others are Paul Munoz, Puerto Rico; Harvey Ebanks, Jamaica, BWI; Aubrey Sexter, Melvin Ching, China; Hamid Alghrooy, Iraq; Ernest Haunsald, Austria; B. N. Patel, India; Goonhyon Choi, Korea; Nelson Chuang, China, and Mohammed Masoom, Afghanistan.

Charles Nemeth, Hungary; Moonsoon Sedarat, Iran, Stan Sheibert, England; Sara Laszlo, Hungary; Geoziana Lazzadino, Italy; Shaik Imam, India, Joseph Kalpatoo, Trinidad, BWI; Henry Jedlinski, Poland and Twefik, Kawa, Sudan.

Mortar Board members accompanying the students include Dot Novotny, Virginia Hudson, Marian Sokol, Shirley Richards and Bev Deepe.

A meeting for all foreign students interested in the tour will be held in Room 315 of the Union Thursday at 5 p.m., Miss Buthman said.

"The tour is very different from past years and we urged as many international students as possible to attend this year. We would like to beat the attendance record of last year, if possible," she added.

KKG's Win Intramural Award

Jane Jeffry, (left) past president of WAA, awards the Women's Intramural Participation Trophy to Marial Wright (second from left) president of Kappa Kappa Gamma. The Kappa's,

under the leadership of Billie Prest (right) coordinator of KKG intramurals, received the annual award based on intramural participation.

Instructor, Students Attend Workshop

Two students and an instructor from the Home Economics department at the University are participating in a workshop of the College Clubs of the American Home Economics Association, at Chicago, Ill.

Shirley Keso, instructor in home economics will be a member of a panel discussion of the problems of college clubs in larger universities and colleges. Marilyn Jensen and Norma Wolf are the students participating in the workshop. The three-day workshop ends Saturday.

Register Deadline Scheduled Friday

The deadline for Lincoln residents to register for the April 9 primary election is Friday at 5 p.m. in the election office in the Trust Building at 10th and O.

All persons who have changed their names or moved since the last election are required to register in order to vote at the primary. Lincolnites will vote for nominees for mayor, the City Council, School Board and Wyuka Cemetery Board.

'Focus Your Future': Ag Home Ec Hospitality Day To Attract 1000 Girls

Hospitality Day will be held Tuesday in the home economics department on the Ag College Campus, according to Sara Alexander, committee member for the days activities.

The annual event will attract nearly 1000 high school girls throughout the state who are interested in entering careers in home economics.

Highlights of the day will include tours of the campus and the home economics department, skits by college students and talks by Dr. Florence McKinney, chairman of the home economics department and Chancellor Clifford Hardin and a style show presented by home economics students.

The Foods, Journalism, Clothing, Vocational Education, Child Development, and Extension divisions of home economics will have displays showing the job opportunities in their respective fields. The girls and experiments that are being carried on in the different fields of home economics.

Shirley Richards is the student chairman of the event. The faculty advisor.

The other committee members

are: Evonne Einspahr, Alice Ann Sides, Lou Forney, Judy Erickson, Karen Boning, Carol Smith, Patsy Kaufman, Delores Kieckhafer, Bev West, Gertrude Sokol, Vivian Long and Sara Alexander.

HS Visitors
Thirteen boys from Beatrice High School will be on the Ag College campus Friday, according to Dr. F. E. Eldridge, Associate Director of Resident Instruction. Ag Builders will be on hand to take the boys on tours of the campus. The boys are all seniors in high school, some of which are interested in going into some type of college training.

A Message from Harry Williams E. E., Class of '49

to NEBRASKA GRADUATING ENGINEERS

"Emerson is a growth company entering a terrific spiral of expansion from a solid base... just the place for the ambitious graduate."

"You're in on the ground floor of a fast-growing established company when you take on a job with Emerson Electric. A vigorous, planned expansion program in our aircraft, electronic, and commercial divisions makes Emerson distinctly a "growth" company with wide-open opportunities for young men. We are at work on a great variety of projects, many of them fascinating jobs including aircraft of the next decade.

"And believe me, it's to your advantage to get into a medium sized company. For one thing, you're in close touch with top management. They really get to know you as an individual, not as a cog in a giant machine. They give you a chance, too, to put your own theories into practice. If you have a new idea, they'll give it a try. Emerson's future is big. Your future can be big, too, as an Emerson engineer!"

Harry William's Emerson career is a good example of the diversification of experience Emerson offers its engineering personnel. With his M.S. in Electrical Engineering under his arm, Harry came to Emerson in 1949 as Calibration Engineer in production. Next po-

sition—flight Test Engineer and from there onto Flight Test Project Engineer, to Assistant Development Engineer and now Production Project Engineer. There you have Harry William's current career ladder at Emerson.

Here, in brief, is a sample of Emerson's diversification of projects: the Commercial Division, established in 180, ranks among the leaders in fractional horsepower motors, fans, and includes air conditioners, heaters, power saws and arc welders. The Electronics and Avionics Division has been a leader nationally since 1940 in the design, development and manufacture of the very latest fire control systems (for example, the supersonic B-58 Hustler bomber), missiles and rockets, supersonic air frame sections like the F-101 Voodoo and mortar locators. Emerson is one of only five companies in the U.S. in production on missiles of any kind.

Find out how you can get in on the ground floor of this fast growing, medium sized company. Meet Emerson's engineering representatives and talk it over with them. If it's impossible to make a date, be sure to write A. L. Depke for full details.

Tip for a perfectionist who's anything but perfect!

EATON'S CORRĀSABLE BOND erases without a trace

Just because you make typing errors, you needn't make a spectacle of them—not with Corrāsable to cover up for you. This is the Eaton paper with the like-magic surface that actually erases without a trace. Just a flick of a pencil eraser and—presto disappear-o! Not a suspicion of a smudge or smear.

Your favorite stationer, right in town, has Eaton's Corrāsable in all weights from onionskin to heavy weight bond, in handy 100-sheet packets and thrifty 500-sheet ream boxes. It's fine quality paper, absolute tops for typed assignments, theses—in fact, the kind you can be proud to use for all your typed work. Backed by the famous Eaton name.
