

Cross Country Squad Downs Iowa State

University Head Track Coach, Frank Sevigne unveiled his 1957 Cornhusker cross country team last Saturday in a successful manner.

His harriers came up with a 28-29 (low score wins) victory in a dual meet with the Iowa State Cyclones at Ames, Iowa.

Leading at the finish of the dual meet was Nova Scotia's contribution to the University of Nebraska track team, Joe Mullins. Mullins is the speedy Canadian who led the Husker Freshman team through a successful season last year. Taking part in practically every running event last season, he impressed many Scarlet followers with his performances. His time Saturday was a respectable 15:37.

Pushing him to the finish line was an old Husker stalwart, two-year letterman, Bob Elwood. Elwood, the Elliott, Iowa distance star, has been one of the bright spots on the Scarlet track roster for the past few seasons. He was one of the Husker scorers in the Big Seven Track Meet held at Lincoln last season, when the Sevigne crew finished third in the loop.

Mike Fleming, the Baltimore, Maryland flash, a diminutive but promising sophomore claimed fifth place money for the Sevigne charges.

Cornhusker Co-op defeated Pioneer Co-op 20-0 Friday at the city campus. Cornhusker scored on passes from quarterback Wayne Simpson to Gene Schwartz, Jerome Dondlinger, and Gene Nurnberg. Simpson passed to Gene Schwartz and Bennett Downing for the extra points. Cornhusker scored early in the game to gain a 6-0 lead. Cornhusker didn't score again until the last play of the third quarter. Leading 13-0, undefeated Cornhusker scored on the final play of the game to gain their third consecutive victory.

Sport Shorts

In a game played between the New York Giants and the Washington Redskins Sunday, Giant kicker Ben Agajanian kicked a 50 yard field goal. The remarkable thing about Agajanian's boot is that Agajanian has no toes on his kicking foot. The distance was a Giant and Griffith Stadium record. Last year's pro football Western Division champions, the Chicago Bears, added much woe to their dismal season as they dropped a 17-14 game to the San Francisco 49ers Sunday in the last 20 seconds of play. This was the third consecutive defeat for the Bears.

Another Canadian sophomore, Bill Melody contributed and eighth place finish for the Huskers. Hallmeyer was the best Iowa State had to offer, as he finished in third place.

Although the Huskers only had four runners finishing in the money, the one-two punch of the Mullins-Elwood duo, enabled the Sevigne tutored outfit to come out on top and make a successful debut.

The Finish:

1. Joe Mullins Univ. of Nebr., 2. Bob Elwood, Univ. of Nebr., 3. Hallmeyer, Iowa State, 4. Teghtmeyer, Iowa State, 5. Mike Fleming, Univ. of Neb., 6. Denby, Iowa State, 7. Sanson, Iowa State, 8. Bill Melody, Univ. of Neb., 9. Jolly, Iowa State, 10. Vanick, Iowa State.

Hoop Squad Begins Practice

The University of Nebraska basketball will start practice on October 15 and will field a team supported by six lettermen. They are Gary Reimers, Jim Kubacki, Don Smith, Lyle Nannen, Jim Arwood Howard. The Huskers will the services of Ron Parsons who transferred to Morning-side.

Coach Jerry Bush will also depend on the returning Cornhuskers who starred on last years freshman team.

The Husker cagemen will open their season December 2 against South Dakota State in Lincoln.

Kernels

Ann Pickett, chairman of the publicity board for the Kernels requests that all freshman members wear their uniforms on this coming Friday and on all other pep rally days.

JOE MULLINS Cross Country Star

Globetrotter Soccer Team Splits Pair Of Contests

The newly formed University Globe Soccer Club began play last week, dropping a game to the experienced Omaha Lithuanian Club and defeating the Lincoln Talava Club.

The "Globetrotters" dropped their first game Sunday, October 6, to Omaha Lithuanian, last year's Midwest champions, by a score of 5-2. Omaha won the game in the first quarter by scoring four goals. After the drastic first quarter the "Globetrotters" settled down and outscored Omaha for the remainder of the game, but the damage had already been done. Mac Taboradi and Martyn Bowden tallied the goals for the University.

The "Globetrotters" looked like a much improved team as they

bumped off Lincoln Talava 2-1, last Sunday. The University's defense led by Fernando Lagos, Martin Cerrecedo, and Les Cerrecedo played a key role in the victory. The offense attack, paced by Bob Bone, appeared to be much improved. Both of the University's goals were scored by Warren Makasha.

Anyone interested in playing with the Soccer Club should contact L. Bedner or M. Bowden at the Selleck Quad.

Bob Stransky Leads League Rushers; Gained 98 Yards in Saturday's Tilt

Colorado's Bob Stransky Saturday made a strong bid to retain his ranking as the nation's top rushing leader by picking up 98 yards and three touchdowns against Arizona.

Big Eight Conference statistics show the Buffalo halfback has carried 78 times for 467 yards, just shy of a six-yard average. Stransky also a key man in the Colorado defense, vaulted into the conference scoring lead with a total of 32 points. He has five touchdowns and two extra points.

While the Orange Bowl champion will be seeking its first conference decision in two starts Saturday at Kansas State, Colorado continues to pace the league in total offense.

Coach Dal

Ward's multi-attack has amassed 1,509 yards in four games for a 377.2 average. Oklahoma, defending national champion, has 1,007 in three games for an average of 335.7. Kansas State is second with a four-game aggregate of 1,291.

Behind Stransky in rushing is Gene Keady of K-State, who went Dove 28 for 243. Clendon Thomas, Oklahoma's All-America candidate who has been ailing with the flu, is fifth with 35 carries for 198 yards.

While Dwight Nichols of Iowa State held on to the top spot in passing, with 18 completions in 36 attempts for 222 yards, Wally Strauch of Kansas moved into the runner up spot. Of 36 throws the Jayhawk quarterback has connected on 18 for 265 yards. Dave Baker of Oklahoma took over third with five of seven for 151 yards.

K.U.'s Homer Floyd increased his lead as top pass receiver, He

has grabbed seven for 131 yards. Boyd Dowler of Colorado has seven for 100, and Brian Dennis of Iowa State follows with seven for 89 yards.

For those who have punted at least twice, Jerry Curtright of Missouri moved topside with a pair averaging 57.5. A teammate, Bob Haas, has six averaging 48.5.

Keeping the punt returning honors is Jackie Sandefur of Oklahoma, who now has returned three for a 32.7 average. Ben Grosse, K-State, has two averaging 25 yards, and Howard Cook of Colorado has returned three averaging 24.7.

Carl Dodd of Oklahoma became the No. 2 scorer with 25 points. Four others are tied with 18 each.

GRADUATING ENGINEERS

"Emerson is a growth company entering a terrific spiral of expansion from a solid base . . . just the place for the ambitious graduate."

"You're in on the ground floor of a fast growing established company when you take on a job with Emerson Electric. A vigorous, planned expansion program in our avionics, electronics, and commercial divisions makes Emerson distinctly a "growth" company with wide-open opportunities for young men. We are at work on a great variety of projects, many of them fascinating jobs of the next decade.

"And believe me, it's to your advantage to get into a medium sized company. For one thing, you're in close touch with top management. They really get to know you as an individual, not as a cog in a giant machine. They give you a chance, too, to put your own theories into practice. If you have a new idea, they'll give it a try. Emerson's future is big. Your future can be big, too, as an Emerson engineer!"

Harry William's Emerson career is a good example of the diversification of experience Emerson offers its engineering personnel. With his M.S. in Electrical Engineering under his arm, Harry came to Emerson in 1949 as a Calibration Engineer in production. Next po-

sition—Flight Test Engineer and from there onto Flight Test Project Engineer, to Assistant Development Engineer and now Production Project Engineer. There you have Harry William's current career ladder at Emerson.

Here, in brief, is a sample of Emerson's diversification of projects: The Commercial Division, established in 1890, ranks among the world's leaders in fractional horsepower motors and fans, and includes air conditioners, heaters, power saws and arc welders. The Electronics and Avionics Division has been a leader nationally since 1940 in the design, development and manufacture of the very latest fire control systems (for example, the supersonic B-58 Hustler bomber), missiles and rockets (the Honest John, Little John and others), microwave antennas, supersonic air frame sections like the F-101 Voodoo and mortar locators.

Find out how you can get in on the ground floor of this fast growing, medium sized company. Meet Emerson's engineering representatives and talk it over with them. If it's impossible to make a date, be sure to write A. L. Depke for full details.

ELECTRIC

SAINT LOUIS 21, MO.

your future is NOW at CONVAIR

The Convair engineering department is a real "engineers" engineering department—imaginative, energetic, explorative—and exceptional care is exercised to make certain that each new employee is assigned to the job for which he is best qualified, depending upon his interest and education.

College graduates are permitted to further their education at either TCU or SMU at company expense, provided their grades are average or better. Personal recognition and advancement, based strictly on merit, provide an incentive for rapid professional growth. In addition, you will discover top-notch engineering facilities, excellent working atmosphere, personal job advantages and salaries that are tops in the industry!

Personal Interviews ON CAMPUS

THURSDAY OCTOBER 17

Join the team of Engineers and Scientists whose latest achievement is the all-new B-58, America's first supersonic bomber . . . who are even now turning to still newer and more stimulating projects in the nearly half-a-billion Air Force contracts on hand.

Live in a mild climate year-round, with countless recreational, educational and cultural facilities . . . enjoy a low cost of living with no state sales or income tax. TODAY . . . investigate the opportunity awaiting you at CONVAIR-FORT WORTH!
