

Krueger Crowned '57 Homecoming Queen

Karen Krueger was announced as 1957 Homecoming Queen at traditional ceremonies during the halftime of the Kansas-Nebraska football game Saturday.

Miss Krueger is a junior in Teacher's College. She is a cheerleader, past member of Coed Counselors Board, WAA secretary and rush chairman of Alpha Omicron Pi.

The Queen was crowned by last year's Homecoming Queen, Jan Davidson after being escorted to her throne by head cheerleader Bill McQuistian, then presented the new Queen to the Memorial Stadium crowd, estimated at approximately 35,000 by A. J. Lewandowski, Business Manager of Athletics.

The Queen was chosen in an all-University election held Friday evening, October 18. Other candidates included Judy Douthit, Nadine Calvin, Barb Lantz and Judy Chapman.

Miss Krueger took over the duties of Queen when she opened the Homecoming Dance at the Coliseum at 9 p.m. A large crowd, estimated at around 8,000, danced to the music of Duke Ellington and his band.

Queen Crowned

Jan Davidson, 1956 Homecoming Queen, places her crown on the head of Karen Krueger, 1957 Homecoming Queen at the tradi-

tional halftime ceremonies during the Kansas-Nebraska game Saturday. The new Queen was presented to the Memorial Stadium

crowd of approximately 35,000 by Chancellor Clifford Hardin.

Homecoming Dance

University students dance to the music of Duke Ellington at the Coliseum Saturday night. Unofficial estimates placed the crowd attending the dance at approximately 3,000 persons.

AUF Kick-off Set Tonight; Weaver, Knowles To Speak

Tonight marks the beginning of the annual All University Fund drive with the kick-off dinner for AUF members and team captains at 5:30 p.m. in the Student Union. Following the dinner, students participating in the independent solicitations drive will meet in the Love Library auditorium to hear talks by Art Weaver, AUF president, and Rev. Rex Knowles.

Students will then leave to canvass independent students throughout Lincoln. The independent drive

will continue Wednesday night. Proceeds from this year's AUF drive will be divided among five charities, World University Service, the National Association for Mental Health, the American Heart Association, the National Society for Multiple Sclerosis and the Lancaster Association for Retarded Children.

WUS, which will receive 25 per cent of the AUF money, aids students and faculty members in under-developed and war torn coun-

tries through a program of mutual assistance.

For the past three years, AUF has been the largest single contributor to WUS among the mid-western universities.

Promoting good mental health and preventing mental and emotional illness are the first aims of the Mental Health Association.

The American Heart Association attacks heart disease through four major programs: Research, Professional Education, Public Edu-

cation and Community Service. Emphasis is placed on research in order to try to discover the causes and cures of heart disease.

Multiple Sclerosis is a crippling disease of young adults for which there is not a cure as yet. National Society for Multiple Sclerosis chapters support out-patient clinics throughout the nation for diagnosis and alleviation of symptoms.

Mental Health, Heart and Multiple Sclerosis will each receive 20 per cent of the AUF funds. Money given to these three national charities will be used in Nebraska for research and cure within the state.

The Lancaster Association for Retarded Children school, which will receive 10 per cent of the AUF funds, was founded three years ago by the parents of retarded children in Lincoln.

Through LARC school, many retarded children are taught to take a measure of responsibility and adapt themselves to useful lives in the community.

Five per cent of the proceeds will be used for AUF expenses and an emergency fund. Money from the emergency fund last year was used to help refugee Hungarian students.

A booth will be set up all this week in the Union lobby for all students wishing to contribute to AUF. Representatives in the organized houses will be in charge of the solicitation in their house.

The only organization allowed to solicit funds for charity on the University campus, AUF will continue its fall drive through Nov. 19.

Campaign Plans Discussed

AUF executives (left to right) Art Weaver, Mary Huston, Bev Buck, Sally Carter and John Glynn are busy going over the All-University Fund drive plans for 1957. The twelfth annual

drive will be held Tuesday through Nov. 19 to collect money for the five charities AUF is supporting this year. The charities are National Association for Mental Health, the Lancaster

Association for Retarded Children, World University Service, National Heart Association and National Multiple Sclerosis Society.

Oil Engineer To Address Convocation

An engineer in the oil industry will be the principal speaker for the annual convocation of Sigma Tau, honorary engineering society at the University.

James Stoddard of Linden, N.J., will speak on "Industry Takes Another Look at the Technical Graduate." The convocation will be held at 11 a.m. Tuesday at the Stuart Theatre. The public is invited and there is no admission charge.

Stoddard received his Bachelor of Science degree in chemical engineering from the University in 1951.

Upon graduation Stoddard was employed by the Esso Standard Oil Company in Linden. He has worked as a process engineer in petrochemical operations and as a design engineer on the refinery technical staff. Currently, he is involved in the applications of analytical instruments for refinery.

Faculty Recital

Members of the Department of Music will present a faculty recital in the Union Ballroom, Thursday night at 7:30 p.m.

Frosh Reactions: Downs Give 'Bitter Taste'

By LEE TAYLOR
Daily Nebraskan Reporter

Back in the middle of last week, most of the freshmen got their first bitter taste of that old N.U. tradition, down slips.

Few escaped, for, according to Assistant Dean L. F. Fowles, approximately two thirds of the Junior Division students got downs.

A survey of some of the freshmen showed that most think the down slip system is a good one, but only, of course, when someone else gets the downs. Opinions ranged from firm resentment to "it served me right." As one student said, "I like the system, but then, on the other hand, I don't like it."

One disgruntled freshman put it this way: "It (the down) builds a little fire under your folks. It builds a little fire under you. If you're in a fraternity or sorority, it builds a little fire under the active chapter. Pretty soon you've got a great big fire."

Along the same line of thinking was the comment: "My down got me all rattled, and the fraternity got mad and campused me."

One freshman, the not so proud possessor of six hours of downs added that the "system is a good deal. It tells a fellow that it's time to get in there and start ingratiating."

Other comments, favorable to the down slip system, were:

"It tells a fellow what's coming off. 'It let me know that it's not duck soup here at the U, and downs let you know what to get to work in."

A few expressed the opinion that downs are unnecessary. They said that they knew what subjects they were down in.

Apparently the worst is yet to come (heaven help us), for, according to Assistant Dean Fowles, the number of downs given at mid-term will be an increase of approximately 400 over the number given in the first scholastic report.

Mid-term, accompanied by the usual quota of weeping, wailing, and gnashing of teeth, will be the fun and work that it always has been. And yet there will be a noticeable air of expectation on campus as students wait for the coming of vacation and for the coming of the inevitable downs.

Prep Press Convention To Commence Friday

Speakers have been named for the career clinics to be conducted at the annual Nebraska High School Press Association convention Friday and Saturday on the University campus.

Professional journalists representing 15 fields will be on hand to discuss with high school students the advantages and disadvantages of each particular job, according to Dr. William Hall, head of the school of journalism.

Among the speakers will be James Ebel, vice president and general manager of KOLN-TV, who will give the radio-TV viewpoint.

Mrs. Sue Holbet, editor of Nebraska State Education Association News, will discuss the house organ field.

Harry Krusz, president of Harry Krusz and Co. of Lincoln, and George Round, director of public relations for the University, will represent the public relations field.

Neale Copple, city editor of the Lincoln Journal and Ed Apking, editor of the Ord Quiz and president of the Nebraska Press Association, will present opportunities.

Math Feature

Problem of the Week, a feature intended to stimulate the interest in mathematics, may become a feature in the Nebraskan, if the student response is great enough, according to Jack Pollock, editor.

A new problem will be published each Wednesday, along with the answers to the previous problem and the name of those who correctly solved it.

All solutions to the problem must be mailed or turned in at Room 210 Burnett hall by 6 p.m. Monday.

NU Blueprint Applications Now Available

Applications are now available for the 16 staff positions on the 1957-58 Blue Print, according to Bob Young, editor.

Application blanks are available at the editor's desk in the Blue Print office, Room 105, Stout Hall. All applications must be in the drawer in the editor's desk no later than 5:15 p.m. on Wednesday to be valid, Young said.

Positions to be filled are: general manager, editor, business manager, assistant editor, layout editor, copy editor, feature editor, news editor, article editor photo director, art director, advertising manager, circulation manager, treasurer, promotion manager and office manager.

KUON Begins Night Telecasts

For the first time since it began operations three years ago this month, KUON-TV, channel 12, is now televising each evening, from 5:30 p.m. through 9:30 p.m., except

White, University of California Physicist.

Another program innovation for the Nebraska area will be recorded classical music at 6 p.m. each evening. No picture except a slide will be televised during the playing of the music at dinner time.

The live shows will include:

The Magic Well, 6:30 p.m. Mondays—The Lincoln Junior League will take children on trips to foreign countries through stories and songs. Mrs. Fred Siner of Lincoln will be in charge, with Mrs. Robert Patterson, Mrs. Donald Cunningham, and Mrs. John Edwards participating.

The Red Cross Story, 8:30 p.m., Mondays—The Lancaster County Chapter will explain its activities.

Let's Visit School, 6:30 p.m., Tuesdays—Students and teachers of the Lincoln Public Schools give viewers a look at classroom activities. A different class and school will be selected each week.

Conversation Piece, 7 p.m., Tuesdays—Professors Bernice Sote, James E. Miller, Jr., and Robert E. Knoll, all of the English department, discuss poetry.

The Story Lady, 6:30 p.m., Wednesdays—The University Art Galleries, will discuss art objects.

Fun With Numbers, 8:30 p.m., Wednesdays—Dr. Walter Mientka, assistant professor of mathematics, presents perplexing problems, solved by simple mathematics.

Yesterday in Nebraska, 6:30 p.m., Thursdays—Nebraska State Historical Society presents Nebraska history.

Miss Evans Time, 6:30 p.m., Fridays—A program for children, featuring Clara C. Evans, assistant professor of elementary education.

The filmed portion during the week will include programs on theatre, music, International Geographical Year, American history, the French language, science, medicine, United Nations, and the Constitution.

Courtesy Sunday Journal and Star McBRIE

Saturday and Sunday.

Jack McBride, director said the University's educational station plans 10 weekly shows originating from its studios. The other shows will be films produced by universities throughout the nation and a special educational series by the National Broadcasting Company.

One regularly filmed show will be "Physics," called by educators possibly "the best high school physics course available in the nation." Televised at 8 p.m. Mondays, Wednesdays, and Fridays, the program features Dr. Harvey E.

Attaturk University Plans To Start Classes In 1958

Nebraska's Turkish program will take another step forward next fall when Attaturk University opens its doors to students.

Dr. M. L. Baker, assistant Dean of the Ag College, said construction of Attaturk University is expected to be completed by next fall.

Dr. Baker returned here this summer after 2½ years in Turkey. He spent most of his time formulating plans, setting up faculty requirements and solving building needs of the new university.

The charter for the University has been set up, Dr. Baker said, and a 10,000 acre site near Erzerum has been selected.

The University will include colleges of engineering, agriculture, letters and science, and the University will serve the eastern part of Turkey, Dr. Baker said.

Kosmet Klub

There will be a Kosmet Klub meeting at 7 p.m. Tuesday in Room 306 of the Union, according to Morgan Holmes, president. All members are urged to attend, Holmes stated.

There will be a meeting of all Kosmet Klub workers Tuesday at 7:30 p.m. in Room 306 of the Union, according to Jerry Brownfield, vice-president. Tickets for the Fall Revue will be distributed at this time, Brownfield said. All workers are required to attend, he added.
