A Campus-to-Career Case History

"I looked at all the angles"

Howard R. Winter, B.B.A., Texas A. & M., '51, is now a Commercial Manager with Southwestern Bell Telephone Company in Houston, Texas. He's in charge of 30,000 telephone accounts and a staff of 36 people.

Howard's interest in a telephone career dates from his first interview with a telephone company representative. "I looked at all the angles," he says. "We discussed pay and chances for advancement, which looked excellent because of the rapid growth of the Bell System. We talked about many different kinds of work, and about what would be expected of me."

After receiving his degree in business administration, Howard joined

Southwestern Bell's Commercial Department. "It was natural for me," he says. "I have a business background, I like to sell and make contacts."

"My training gave me a really solid foundation in the business. Two years in the Army interrupted it, by the way, but the two years were credited to my telephone company records and count toward all benefits. After I'd returned and finished my training, I was made a business office supervisor. And since February, 1956, I've been a Commercial Manager in Houston. Each assignment I've had has been a real challenge and has presented a tremendous opportunity to contribute to and advance in the business."

Be sure to investigate the career opportunities for you in the 17 Bell Telephone Companies serving all 48 states. On your campus the local company represents the others. For more information about these career opportunities, read the Bell Telephone booklet on file in your Placement Office, or write for "Challenge and Opportunity" to: College Employment Supervisor, American Telephone and Telegraph Co., 195 Broadway, New York 7, New York.

If you answered "No" to all questions, you obviously smoke Camels - a real cigarette. Only 6 or 7 "No" answers mean you better get onto Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to enjoy smoking as never before, switch to Camels. You'll find nothing else tastes so rich, smokes so good and mild. Could be that's why more people today smoke Camels than any other cigarette. Love that Camel!
