Blizzard Causes 142 Deaths

A raging blizzard has claimed at least 142 lives in a wide area of the Eastern United States. Official reports from the Weather Bureau showed little relief for the snow-swamped states running from Mississippi to Maine. The northeast is expected to be exposed to bitter cold through Wednesday while New York City may be snow-bound until Friday. Pennsylvania leads the state fatality lists with 17 deaths due to storm conditions to date.

Beatrice Makes Bid

The Beatrice Development Corporation has made a strong bid to obtain the Cushman Motor Works plant for Beatrice. A choice of either of two 50-acre sites have been offered to the Lincoln firm by officials of BDC. Stan Woltz, chairman of the sites and building committee of the BDC announced that his organization is prepared to spend up to \$100,000 to develop either of the sites.

Court Change Sought

John McArthur, newly appointed attorney for Carl Fugate, has asked that charges of first degree murder against the 14-year old girl be transferred from county to juvenile court. Carl is "definitely a juvenile and should be in Juvenile Court," McArthur stated Monday. McArthur's request will be made before County Judge Herbert Ronin as soon as possible.

Wesleyan Hikes Tuition

Nebraska Wesleyan next year will join the ranks of colleges and universities that are hiking tuition. A tuition boost of \$2 a credit hour has been announced by the Wesleyan Board of Trustees, thus raising the cost per hour to \$13. An increase in the charge for board and room was also approved by the Trustees.

Schwartz Testifies

Dr. Bernard Schwartz, ousted counsel to the House subcommittee on legislative oversight, revealed Monday that presidential assistant Sherman Adams discussed the status of North American Air Lines shortly before the company won an extra five years of operating life. However Schwartz testified that he wasn't suggesting anything illegal or even improper with Adams' talks with top airline officials in 1953.

Debaters Compete

University junior debaters managed five wins against seven losses over the weekend in competition at Emporia State Teachers College, according to debate director, Don Olson. Both teams were entered in junior competition. No senior debaters made the trip.

Big Hearted

A large scale model heart is being used by the University College of Medicine for teaching purposes. Dr. Robert Grissom, Chairman of the Internal Medicine Department, is shown explaining the model to observers (from left) Mrs. H. R. Herold, Mrs. Donald Deeter and Mrs. W. W. Hinchcliff. All instrumental in the gift presentation of the heart, the ladies are alumnae of Gamma Phi Beta sorority, Omaha Chapter.

Student Majority Considers Presidency One-Man Job

Minneapolis—(ACP)—Over two-thirds of the college students interviewed in a recent Associated Collegiate Press Poll of Student Opinion disagree with the idea that the job of being president of the United States is more than one man is capable of doing for. To determine student opinion on this subject, the ACP asked the following question of a representative group in colleges across the nation:

"Some people have advanced the theory that the job of being President of the United States is too much for any one man. Do you agree, or do you disagree, with the idea? Why?"

One fifth of the men interviewed agreed with the statement and over a third of the coeds agreed with it, but the majority

of both disagreed. Only a few were undecided on the issue.

A complete tabulation of results shows the following:

	Men	Women	Total
Agree	20%	36%	27%
Disagree	72%	60%	67%
Undecided/Don't Know	8%	4%	6%

A Wayne State University (Detroit, Mich.) sophomore supported his "agree" answer to the question by saying, "one man can barely run a large company by himself, let alone a large country. Eventually, we will have more than one president."

A sophomore coed at a Washington College (Chesapeake, Md.) agreed with the statement because the president "has too much responsibility and too much to worry about." She then added, "He's supposed to be normal, yet he's above normal."

NU Comment

At the University of Nebraska, a senior qualified his "agree" answer by adding "The job has to be headed by one man, however, who needs to act as coordinator for his cabinet and spokesman and titular head of the nation." Typical of several comments of the same kind was one by a freshman coed at Tusculum College (Greenville, Tenn.) who commented, "I feel that the vice president should be used to help the president," and a Florida State University (Tallahassee, Fla.) sophomore agreed that the president should have some help, but offered as his solution: "Give routine duties to the cabinet."
