Campus Coverage Favored, World News Kaput!

Students on this campus apparently prefer to read about campus affairs rather than world affairs in the Daily Nebraskan. When students were asked, "Do you think the Rag ought to have more complete coverage of world affairs?" the majority said they preferred to know what's happening on campus.

Some of the comments were:

Don Burgess—"No, I don't. Since it's a college news-

paper, I think it should deal more with just college problems."

Have Daily Papers

Dave White—"I don't think so. We have regular daily newspapers to keep us informed on world news."

Joan Schumacher—"Students are more interested in campus life and they can get information regarding foreign affairs from city newspapers."

Mike Breiner—"No! It's a University paper and it should contain university affairs. If people want to read world news, let them read the Omaha and Lincoln dailies where they can get complete coverage."

Judy DeVilbiss—"Definitely not! The function of the Rag is to publish the affairs on campus."

The Other Side

Nancy Spilker—"Absolutely yes. The members of the staff have all the information which would make their reporting of world affairs thorough and brilliant."

Jim Roman—"I think too few people on this campus know world affairs. I feel that it is the duty of the Rag to keep people informed."

Dick Tempero—"No. I can get my foreign affairs from other sources. I feel the Rag should be primarily a campus affairs newspaper."

Joy Lahm—"No. I think students are more interested in the activities on campus."

Linda Porter—"I think they should have more on foreign affairs but it should be interesting; otherwise they're just wasting space."

No Tax Cut Foreseen

Econ Head Says Equity Needed

Dr. E. B. Schmidt, chairman of the University Economics Department, told the Thursday that prospects of a tax cut in Nebraska are "most unlikely."

In his talk Dr. Schmidt said that in Nebraska the approach needed is not for reduction, but to seek great equity.

He also pointed out that no single tax can raise all needed revenue.

Income tax was termed as the most productive by Dr. Schmidt, with sales taxes and property taxes next, respectively.

He called the property tax the least equitable because there is little relation between the property owner's income and his property tax.

According to Dr. Schmidt, "the income tax doesn't have quite the equity it often is considered to have because certain groups can escape paying it. The sales tax lacks complete equity because it bears more on people in low income brackets."
