classes or labs in the building when it has been readapted?

DAILY NEBRASKAN

Lincoln, Nebraska

Ninety per cent of 100 students polled

However, 39 per cent felt that another

The poll consisted of an explanation of

(1) Do you feel this was a wise move by

Only 10 per cent answered in the nega-

tive. One student commented that "It will

take a large tax source away from the

city of Lincoln." Two felt that the cost of readaption would be too great, while two

others said that it was too far away from

(2) Would you be willing to attend

the purchase, followed by 3 questions:

industry should be given a chance at the

building first.

the University?

the present campus.

Eight-three per cent said yes, while 15 per cent said no. Two per cent denied comment.

However, others felt that the labs would be no inconvenience. Another stated he would be willing because of its "novelty." An underground mechanical sidewalk was suggested to save time in getting to distant buildings.

One student quipped that it would be too far to walk to the Crib for a cup of coffee. Most of the respondents stated that they would have little choice in the matter. (3) If another industry is interested in purchasing the Elgin plant, do you feel

the University should delay its offer? Fifty-seven per cent answered in the negative, with the consensus that the University is as important as industry and should go through with the offer because of the saving in expense.

Of the 39 per cent who acknowledged in the affirmative several students felt that another industry would provide employment for those who will lose their jobs with the closing of the Elgin plant. They pointed out that the increased unemployment presents a greater need than that of the University for more room.

Elgin Workers Want Delay But NU Bid May Be OKd Wednesday

Tuesday, May 20, 1958

By Herb Probasco Staff Writer

Elgin National Watch Company workers are not giving up hope to save their plant for another industry, although an offer by the University for the building is expected to be

accepted by the Elgin board of directors tomorrow. A committee of Elgin employees in Lin coln. headed by Ted Darby, has ap

proa c h e d Hardin Chancellor Clifford Hardin about the possibility that an industry would be interested in the building.

However, Hardin points out that "we couldn't" delay the offer because it has been approved by the Board of Regents and is a legal action. "I'm sure that the deal will go through," he added.

He explained that the University had made no "overtures" to Elgin until company officials approached the University.

Darby, when contacted by the Daily Nebraskan Monday,
