

Versatility Plus

Pills, Plants Produced In Lyman Hall

In spite of sawdust in the corners and some missing tabletops, classes were held for the first time Monday in Lyman Hall, new home of the College of Pharmacy and the Department of Bacteriology.

A strike by a manufacturing firm has delayed delivery of several items like the heavy tabletops for use in labs and storage rooms, Dr. LaVerne Small, chairman of the Pharmaceutical Chemistry department, explained.

Some Not Ready  
Some of the labs will not

be in session until equipment is unpacked or installed.

Total cost of Lyman Hall is approximately \$650,000. Of this amount, \$200,000 was spent on new equipment for the building.

**Greenhouse on Roof**  
Most conspicuous of new equipment is the pharmaceutical greenhouse which can be seen on top of the hall inside the all-glass room. Drug producing plants are grown, the tendrils of some already winding upwards toward the ceiling.

For the faculty, a separate research room is available.

The department of Bacteriology occupies third floor.

Walk-in incubators and cold storage units are located close to the laboratories, with doors on each end of the storage unit.

Equipment for working with radioactive materials will be installed.

Accommodations for experimental animals include an isolation room for diseased

animals and equipment for sterilizing the cages.

A centrifuge machine capable of automatically separating micro-organisms or other particles from a solution has been purchased for the bacteriology department.

A separate laboratory is provided for working with pathogenic or disease-producing micro-organisms.

Laboratories for faculty research include facilities for working with viruses and other special problems.

A still for distilling water is located on the fourth floor area, near the green house. Here, also, is an incubator.

Study carrels are provided for graduate students in pharmacy and bacteriology.

Window space is plentiful. The labs and classrooms have a spacious airy look.

Large fans at the top of the building draw the stale air from the rooms and halls.

**Orientations**

The first in a series of weekly orientation meetings for freshmen in the College of Arts and Sciences will be held Thursday at 8 p.m. in 108 Burnett Hall.

Walter E. Millner, dean of the College of Arts and Sciences, will conduct the meetings which are designed to orient students to University work.

**The Faculty for the First Semester 1958-59**

**GUSTAVE A. FERRIS, A.B.** Boston University, B.S. Andrews University, Ph.D., Vanderbilt University, Yale University.

**ROBERT E. GORDON, A.S.** Emory and Henry College, B.S., Southern Methodist University.

**REV. H. KNOWLES, A.S.** Wesleyan Univ., B.S. Yale Univ., M.A., University of Nebraska, D.D., Hastings, Ph.D., University of Nebraska.

**WILHELM C. LINES, B.S.** University of Nebraska, B.S., University of Nebraska, S.T.M., Boston University, Ph.D., Boston University.

**DARRELL P. PATTON, A.S.** Baker, B.S., Southern Methodist University, Graduate study, Texas Christian University of Nebraska.

**RALPH J. PETERSON, Jr., A.S.** Phillips, B.D., Phillips Graduate Work, University of Nebraska, University of Denver. All course work completed for Ph.D., Hill School of Theology.

**KEITH DWAIN STEPHENSON, A.S.** University of Nebraska, B.S., University of Nebraska, All course work completed for S.T.M., Yale University.

The COTNER SCHOOL OF RELIGION is the institution accepted by the University of Nebraska for offering accredited courses in religion to students. During registration enroll for the course in religion by registering at Cotner School of Religion, 1238 "R" Street. All credit courses are taught at Cotner School of Religion. At the close of the semester, your grade and credit hours will be reported to the registrar of the University. All course work is conducted in accord with the academic standards of the University.

**TUITION & FEES**—There is no tuition charge made for credit courses in Cotner. A \$2.00 registration fee is charged which covers the cost of the transcript of credits to the University. A \$6.00 fee is charged for auditing courses.

A CENTRIFUGE capable of separating particles from a solution is one of the new purchases of the bacteriology department for Lyman Hall.

**Dr. Lines To Lecture At Cotner**

Dr. William Lines, professor of New Testament at Central Lutheran Seminary, will be a guest lecturer at Cotner School of Religion this fall term.

A native of Erlangen, Germany, Dr. Lines was drafted into the German army in 1944 and taken prisoner by the allies in 1945. Upon release from capture, he returned to Erlangen University.

At Cotner, he will teach a two-hour credit course on "The Four Gospels" from 7 to 9 p.m. on Thursdays.

Other lecturers at the school of religion include: the Rev. Rex Knowles, director of the Presbyterian Student Foundation; the Revs. Robert Gordon and Darrell Patton, associate director of the Methodist Student Foundation; the Rev. Keith Stephenson, University pastor for the Baptist and Disciples of Christ students; and full-time staff members, the Rev. R. J. Peterson, Jr. and Dr. Gustave Ferris.

**PEDEN'S**

2-3474 1245 R St.

For engineering freshmen...

drawing instruments and slide rules

are important, in college and after. That's why the wise choice is K&E, America's oldest and largest maker of engineering supplies and equipment.

**When it comes to Slide Rules... take the K&E Decitrig®!**

Its versatile scales team up to give faster solutions of complex problems. A dual purpose D scale and three LL scales cover a log-log range of 1.00... to 22,000. And the A-B scales make quick, non-stop work of square root derivations. Sharp, engine-divided graduations permit accurate readings in a hurry.

**And... look at K&E Drawing Instruments.**

But remember, there's more to drawing instruments than the way they look. It's the important "extras," such as accuracy, materials, workmanship, manufacturer's reputation, that determine genuine value. Every K&E set—and they come in a wide price range—offers you the "extra" features that mean extra value.

"Your K&E College Buying Guide"—will give you useful information on the materials you'll need for your engineering courses... 36 pages, with plenty of pictures, and handy check-list. Get it at your college store.
