

Math Results 'Wonderful'

New Program Challenges Better Students

The results of the new mathematics honors program are "wonderful," said Dr. Walter Mientka, assistant professor of mathematics.

The program, directed toward stimulating and challenging the better students, applies to students of science and engineering who will use mathematics as well as to mathematics majors. Divided into three sections, it includes an undergraduate seminar, a graduate seminar and a freshman honors course in mathematics.

"We are able to work at an above-normal pace," commented Mientka, "because the students are enthusiastic and they never complain about outside work."

Course Work

Faculty members present one-hour talks on topics which the students might not

ordinarily encounter in the course work.

About twenty outstanding students attend the undergraduate seminar. They may audit the course or register for one hour credit and write a paper or present a talk during the semester.

The purposes of the program were to acquaint interested and able students with some areas of mathematical research, to offer majors the opportunity of preparing and presenting a talk, to encourage good students to take additional course work or do additional reading, to allow members of the department to become acquainted with the majors and to instigate informal discussion between students and faculty members.

According to Mientka the quality of the talks was better than expected and the seminar has been added to the University catalogue. Since it will be offered each semester with little or no duplication, it may be taken for credit as many as three times.

Grad Seminar

All graduate mathematics students were invited to attend the graduate seminar which was similar to the undergraduate seminar except that topics were more advanced and there was more student participation.

Intended for freshmen who have demonstrated outstanding ability and training in high school mathematics, the

freshman honors course was designed to increase the students' awareness of the scope and nature of mathematical methods and to organize the material of analytic geometry and calculus courses into a single three semester course for freshmen.

The course will carry five hours of credit for each of the three semesters and will

meet five times a week.

After being tested at various intervals during the summer and during freshman orientation week, twenty-one students were chosen to enroll in the course. In assigning grades, instructors will consider that this is a select group of students and they must not be penalized for taking the course. It will be possible for a student to transfer from the course to the regular sequence in calculus.

An article written by Dr. Mientka and concerning the new mathematics program will appear in the October issue of the inter-university publication, "The Superior Student."

Comedienne To Feature Oct. 16 Stag

Marge Cameron, a 24-year-old comedienne-singer, will be featured at the third Annual All University Stag, on Thursday, Oct. 16, in the Union Ballroom.

Miss Cameron is primarily noted for her singing and imitations of people including Mrs. Eleanor Roosevelt, Liberace, and Elvis Presley.

A fresh 'new' and different approach of commercial sock comedy will be presented by the comedienne, according to Roger Evans, Stag Chairman.

She comes to the Stag directly from the Fontainebleu Hotel in Miami Beach and has recently entertained at the El Morocco, Montreal; Casino Royal, Washington D.C.; The Elegante, Brooklyn, N. Y. and the Beverly Hills Country Club.

Her Variety review said, "Marge Cameron is a neatly-stacked, well-groomed brunet looker and for those reasons she'll always find the first five minutes tough. She uses some chirping and plenty of gags. She's great!"

Miss Cameron will have a dinner engagement at the fraternity house selling the most tickets and will do part of her act at that time.

Top Frosh Scholarship Winners Told

Six University students were announced yesterday as the top freshman scholarship winners by Miss Marjorie Johnston, associate dean in charge of scholarships.

The winners, all recipients of four-year scholarships ranging in value from \$250 to \$750, are:

General Motors - Stephen Gage, College of Engineering and Architecture; James Samples, College of Arts and Science, pre-law major.

George E. and Mary K. Haskell-Meadow Gold - Dan Blazek, College of Engineering and Architecture; Linda Schelbitzki, College of Arts and Science, a chemistry major.

Texaco - Louis Lamberty, College of Engineering and Architecture.

Stoops and Wilson Brokerage Company - Allan Everett Peterson, College of Business Administration.

Activities Mart Fees Due Soon

Organizations wishing to participate in this year's Activities Mart must pay their fees by Thursday.

The fees, which cover the cost of using the Student Union ballroom for the Mart, can be paid Wednesday from 1-2 p.m. or Thursday at 12:30 p.m. in Rosa Bouton Hall.

Activities Mart, sponsored by the AWS Board to introduce freshmen women to campus organizations, will be held Oct. 14 in the Union ballroom.

Freshmen women may sign up for activities at that time. They will be eligible to participate in the organizations the following week.

Wait Over—IFC Open Rush Starts

Open Rush has started. Any man desiring to pledge a fraternity is now eligible to do so under Interfraternity Council rules.

The thirty-day waiting period, specified by the IFC for men who go through rush week and don't pledge and for men who don't go through rush week, is necessary to give these men a chance to look over all fraternities and not just one or two.

Any fraternity desiring to register a pledge may do so at Dean Hallgren's office in the Administration Building.

Block 'n Bridle Smoker Planned

Block and Bridle club has announced a "get-acquainted" Smoker for Thursday at 7:15 p.m. in the Ag Union lounge.

Application for membership will be available to those completing AH 1.

Highlighting the evening will be speaker Charles Adams, assistant professor of animal husbandry and national Block and Bridle secretary. The group will also see the B&B Nebraska livestock tour film.

Refreshments are planned.

Federal Job Applications Available

The Civil Service Commission has begun accepting applications for the first written test under this year's Federal Service Entrance Examination.

College juniors, seniors and graduate students are eligible for the test to be held Nov. 15. Applications will be accepted through Oct. 30.

Positions filled through this examination are in 60 fields and are located throughout the United States. As a result of recent Congressional action, starting salaries for jobs filled through the examination have been raised. The Commission is also placing a premium on quality and providing a bonus for it.

Under the Federal Service Entrance Examination, approximately 5,000 persons are appointed each year to entry-level career positions in the Federal Civil Service. Five additional tests will be held this year on Jan. 10, Feb. 14, March 14, April 11 and May 9.

Written tests, given at more than 1,000 points in the United States, will be given in Lincoln and 18 other Nebraska cities. More information may be obtained from the U.S. Civil Service Commission, Washington 25, D.C.

'Tiger' Reading

A reading of Jean Giraudoux's "Tiger at the Gates" will be presented at 8:30 tonight in Gallery B, Morrill Hall.

The play-reading, directed by Steve Schultz, will be the first of the University Art Galleries series scheduled for this year.

Johnson Speaks—Physical Handicap Topic of Meeting

What can the handicapped do?

This subject will be discussed at an employers' conference today at the University.

A talk by Justin Johnson of Culver City, Calif., a member of the President's Committee for Employment of the Physically Handicapped and chairman of the California Governor's committee will highlight the program.

He will talk on "What Can the Handicapped Do?" at a 6 p.m. banquet in Union Parlors XYZ.

Johnson is also community relations supervisor for the Hughes Aircraft Co., chairman of the Governor's Conference on Rehabilitation of the Physically Handicapped, and president of the National Rehabilitation Assn. and the Culver City Chamber of Commerce. He is past president of the National Vocational Guidance Assn.

All meetings of the one-day session will be held in the Union. Some 75 to 85 employers are expected to participate in the event, which is sponsored by the University Extension Division and the Lincoln Mayor's Committee

on Employment of the Physically Handicapped.

Others included in the program are Mayor Bennett Martin; George Risk, president of Dale Products, Inc.; Dr. Harold Martin, clinical director of Adult Inpatient Service, Nebraska Psychiatric Institute; Grey Jewett, personnel manager of Western Electric Co.; and Dr. Dwight Frost, chairman of the physical medicine and rehabilitation department at the University Hospital in Omaha.

Dr. Knute Broady, director of the University Extension Division and C. W. Bowman, program coordinator at the University Extension Division, will also participate. Registration begins at 1 p.m. in Union 315.

Ever meet a Doubting Thomas?

A college senior once remarked to a Bell System interviewer: "A telephone career must be a mirage. I hear talk about fabulous training, fascinating work, grade-A job security, and rapid advancement in management. Sounds a bit too rosy. What's the real story?"

The interviewer knew mere talk wouldn't sell a skeptic. So he showed him some "profiles" of recent college graduates who had enjoyed that fabulous training, had worked at intriguing jobs, and had won early management promotions.

Our once-skeptical friend has been with the Bell System 3 years now—and is currently supervising the work of 55 people.

We've converted a host of Doubting Thomases. Whether doubtful or not, you'll learn a lot about rewarding telephone careers by talking with the Bell System interviewer when he visits your campus. Also read the Bell Telephone booklet on file in your Placement Office, or write for "Challenge and Opportunity" to:
