

Huskers To Face Syracuse

Improved Orangemen To Play Host To Scarlet

By Randall Lambert
Nebraska will travel east this weekend to meet another surprise team when they play the Syracuse Orangemen. After a surprising 14-13 setback to Holy Cross, the Orange bounced back to run all over previously undefeated Cornell 55-0.

Last year Syracuse won five games (Boston U., Cornell, Nebraska, Pittsburgh, and Colgate), lost three (Penn State, Holy Cross, and West Virginia), and tied one (Iowa State).

Lettermen
This year the Orange has 17 lettermen returning, out of which six were regulars last year. They have at least one letterman returning to each position.

Chuck Zimmerman, senior quarterback, leads the experienced backfield which in all includes three returning regulars. The other two regular

backs are halfbacks Tom Stephens and Gerhard Schwedes. Last year's fullback, Ed Coffin, performed in the North South game and in the Senior Bowl.

Zimmerman was one of the leading passers in the East last year. Stephens was the top Orange scorer and No. 2 in rushing and pass receiving.

The line was the big worry of Coach Ben Schwartzwalder. Missing are both of last year's ends, one guard, and the center. However, thus far the Syracuse defense hasn't shown much weakness. Returning are three beefy linemen in the persons of Alex Benecick (222), Gerry Hershey (227), Ronald Luciano (224).

The biggest loss that Syracuse suffered via graduation was Dick Lasse. Last year Lasse was the top pass receiver for the Orange and was rated as one of the best

ends in Syracuse history. He was also named to several All-East polls. Lasse caught 16 passes for 202 yards.

Syracuse also had a good freshman team last year from which they are drawing replacements. Top performers have been Art Baker and

Mark Weber, two halves, and ends Fred Mautino and Tom Gilburg.

Syracuse uses Coach Schwartzwalder's version of the straight winged and slot T. He uses an unbalanced line right, with splits and flank-

CARROLL ZARUBA, former Fullerton prep star, carried the ball seven times against Kansas State for 6.7 average before being injured.

NEBRASKAN SPORTS

Chuck Stacey Named IM 'Star of the Week'

By Larry Novicki
Chuck Stacey threw five touchdown passes and scored once, himself, in the Phi Psi's 39-7 rout of Theta Xi last week to earn the Daily Nebraskan's second "Star of the Week" award.

Chuck has been going great guns for the Phi Psi's who have compiled a 2-1 season record to date. His pet peeve is that his team lost one game while outscoring their opponents for the season 78 to 1! The Beta's downed them in an overtime thriller last week 1-0.

Best Opponent
That game also produced the guy Chuck calls his best opponent. "About the best ballplayer I've played

against," said the Bis Ad junior, "is Charlie Arizumi of the Beta's." Arizumi, a hard-charging lineman, kept Chuck's passing percentage at its lowest ebb of the season.

Back in Weeping Water High School Chuck lettered in all three major sports, gaining all-state recognition twice in football and once in basketball. He made the Chicago Daily News All-Midwest second team in football. Weeping Water was rated second in Class C during Chuck's junior year and third his senior season.

His football prowess earned him a full grant to play the sport at Nebraska, but he tore a cartilage in his knee two days prior to the first freshman game. He wasn't able to

get the leg back into shape to continue in varsity competition.

Last Year
Last season Chuck played on the Phi Psi team that went all the way to the finals before losing out to the Sig Ep's in the All-Fraternity championship game. The game went into overtime with the Sig Ep's winning the decision by half a foot of total yardage.

The fellows who have been holding out opposing linemen and catching Stacey passes are Jess Adkins, a former Omaha North end; Mike Costin, an all-stater from Pius X of Lincoln; Jim Good from Illinois; Bill Cook, who played a little varsity ball down at Kansas State; and Ron Svoboda and Bob Eyth, a couple more Beatrice speedsters.

Husker Freshman Open At Iowa State

Nebraska's freshman grid team opens its 1958 season Friday, October 17, at Iowa State. Game time is 3 p.m. Freshman Coach Warren Schmackel is pleased with his charges.

"The players have shown a lot of spirit, and have worked hard," Schmackel said.

The squad, which holds scrimmages open to the public each Friday afternoon and Saturday morning, is rounding into top condition. This is evidenced by the fact that only four or five boys are on the disabled list.

LeRoy Zierke, Pierce fullback candidate and John Laube, Harlan, Ia., guard hopeful, have been lost for the season as a result of injuries, Schmackel said.

Scrimmages in the past weeks have been highlighted by long runs and "rock 'em-sock 'em" line play.

Backs
Backs who have impressed in early workouts include: Pat Clare, hardrunning right halfback from Sioux City, Ia., and Dallas Dyer, shifty halfback speedster from Lexington. Both have been running with the number one unit. They are scheduled to start against the yearling Cyclones.

Other backs who have

sparkled include: Dave Roberts, 190-pound fullback from Longview, Wash.; Noel Martin, No. 2 left half, a prep All-American from Clay Center, Kans.; Don Jones, pleadering fullback from Leon, Ia.; Gene Ward, Glenwood, Ia., and Dick Chocou, speedster from Humphrey.

Quarterbacks Ron Glibreath, Sidney; Fred Hendrix, Toledo, O.; Ron Meade Canby, Minn.; Bill Lelfur, Bismarck, N.D.; and Joe Rutigliana, Brooklyn, N.Y. have looked good.

Hugh Smith, a 6-4, 215-pounder, has impressed the yearling coaches with his speed. Smith, a 23-year-old service veteran from Guymon, Okla. has showed his heels to many a pursuer from his halfback slot, after working as an end earlier in the fall.

Jim Hoge, Holdrege's fine All-State fullback of last fall, has been shifted to end and is running on the first unit's left flank.

Don Purcell, Omaha Benson All-Stater has impressed from the end slot, as have Roger Cole, a converted tackle from Granite Falls, Minn.; Pat Saberno, Omaha Central grad; Larry Bluhm, Seward sizzler; Phil Case, Tekamah battler, and Roger Hansen, Sioux City, Ia. flanker.

Job facts from Du Pont

DU PONT PLANTS AND LABORATORIES
IN 26 STATES OFFER VARIED JOB LOCATIONS
TO TECHNICAL STUDENTS

BENEFIT PROGRAM MEANS ADDED INCOME
by F.L. Johns
Du Pont personnel representative

The location of your first assignment with DuPont depends on your qualifications and on the openings in your field, but every effort is made to match the job and the location with your preference. The chances for a successful match are good.

Today there are men and women carving out careers with Du Pont at more than 75 plants and nearly 100 laboratories spread throughout 26 states. Last year the Company spent \$220 million for new plants and for increased capacities at existing installations. This year new plants have already been put into operation in Virginia and Michigan. Six more are under construction. Others are planned for the near future.

Most Du Pont units, it is true, are located east of the Mississippi. Company headquarters, for example, along with many labs and plants, are located in and around Wilmington, Delaware, which is a pleasant residential area within easy reach of Washington, Philadelphia and New York. But there are also plants and laboratories in California, Iowa, Kansas and Texas, and plants in Colorado, Missouri and Washington.

Wherever you're assigned, you'll be proud of the Du Pont Company both on and off the job. You'll find the people you work with friendly, stimulating, and active in the life of the community.

Don't forget the "extras" of an employee benefit program when you compare the job offers and salaries of different companies. At Du Pont, these extras mean added income that doesn't always meet the eye. They include life insurance, group hospitalization and surgical coverage, accident and health insurance, pension plan and paid vacation.

In addition, the Company sponsors a thrift plan. After two years of service, for every dollar you invest in U. S. Savings Bonds the Company sets aside 25 cents for the purchase of common stock in your name. Roughly, 60,000 of our employees are now participating in this plan.

If you have specific questions on Du Pont benefits, just send them to me. I'll be happy to try to answer them. E. I. du Pont de Nemours & Co. (Inc.), Room 12421 Nemours Building, Wilmington 98, Delaware.

MECHANICAL ENGINEERING MOVIE AVAILABLE FOR A.S.M.E. MEETINGS

There's a great demand for mechanical engineers at DuPont. In fact, the ratio of mechanical to chemical engineers is just under 1:2. Whether your chosen field is research, development, plant engineering, production supervision or sales engineering, you'll find a good future at Du Pont.

If you would like to learn in detail what mechanical engineers do in the chemical industry, arrange to see the Du Pont film, *Mechanical Engineering at Du Pont*. It is available at no cost for A.S.M.E. chapter meetings, fraternity house and dormitory showings. Write to Room 12421 Nemours Building, E. I. du Pont de Nemours & Co. (Inc.), Wilmington 98, Delaware.

SEND FOR INFORMATION BOOKLET

Informational booklets about Du Pont are yours for the asking. Subjects include: mechanical, civil, metallurgical, chemical, electrical and industrial engineers at Du Pont; technical sales, research and development. Just name the subject that interests you and send your name and school address to E. I. du Pont de Nemours & Co. (Inc.), Room 12421 Nemours Building, Wilmington 98, Delaware.

Cornshucks

by Larry Novicki

From my vantage point in the DU house I have occasionally noticed the gals playing kick ball on the PE field. The young mice are obviously engaged in some sort of inter-society competition. If these are regular intramurals, gals, please report them to the Rag office, and we'll see what can be done about getting you r names into print. . . Saw a few husters the other day. The first sacker for Alpha Phi made a couple of nice plays, and the center fielder booted four, extra-base knocks. Maybe our next star of the week will be a coed.

Oklahoma
Departing a bit from intramurals. . . Saw Melvin Cowsnowski yesterday, and he was worrying. It seems that Mel has been scouting for Oklahoma the past few years, and he saw the Colorado-Arizona game Saturday.

IM Football
Football tourney starts this week. The top three teams in each league will vie for the championship. This arrangement allows about every team in the program a crack at the title since there are only four teams in any single league.
