

Saturday—

Applications Due For Grad Grants

By Doug McCartney
Closing dates for filing applications for graduate scholarships are nearing.

Competition for more than 165 scholarships for study in foreign countries will close Saturday. They are being offered for the academic year 1959-60 for study in more than 14 foreign countries.

Stipends Vary

Financed by foreign governments, universities, and private organizations, the awards offer free tuition and stipends of varying amounts.

Eligibility requirements are U.S. citizenship, a bachelor's degree, foreign language ability and good health.

Persons interested should contact the Graduate College Office, 306 Administration.

Danforth Qualifications

Danforth Graduate Fellowship applications must also be filed by Nov. 1. Qualifications include: male, less than 30, no previous graduate study. Selection is made on the basis of outstanding academic

ability, integrity and character.

The Danforth Foundation offers assistance according to individual need, limiting the annual maximum grant to \$1,400 plus tuition and fees for single men and \$1,900 plus tuition and fees for married men.

For more information contact Walter Wright, Assistant Dean of the College of Arts and Sciences.

Science Fellowships

About 1,200 fellowships will be awarded across the nation by the National Science Foundation. Selection is based on ability.

Closing dates for the receipt of applications will be Jan. 5, 1959, for predoctoral fellowships, and Dec. 22, 1958 for postdoctoral fellowships.

The Inter-American Cultural Convention program offers scholarships for study in Latin America and will accept applications for the new grants until Jan. 15, 1959.

They cover round-trip transportation, tuition and maintenance for one academic year. Applicants should be U.S. citizens less than 35 years old, have a bachelor's degree, a knowledge of Spanish and good health.

Information and application forms may be obtained from the Graduate College Office.

Film Explores Steel Industry

A new 15-mm color and sound film, "Futures in Steel," is now available for showing to groups of students or any other persons interested in careers in the steel industry.

Made by Bethlehem Steel Company the film explores today's basic steel industry and the plans for the future.

Bethlehem Steel films are distributed by Modern Talking Picture Service, 3 East 54th St., New York 22, N.Y.

'Autumn Skies' Still Prevail

"Skies of Autumn" is still being shown at the Mueller Planetarium, University Museum.

The show is given at 2:45 p.m. daily, except 2:15 and 3:00 p.m. on Sundays. Additional shows are at 8 p.m. Tuesdays and Thursdays.

Museum hours are 8 a.m. to 10 p.m. Tuesdays and Thursdays and 1:30 p.m. to 5:30 p.m. Sundays.

IM Table Tennis

All men interested in entering the intramural table tennis are asked to have their entries at room 102, Physical Education Building, not later than Tuesday, November 11.

There will be separate flights for Fraternity, resident halls and independent entries.

The Still of the Night—Broken by Accidents

3 Times After Dark... Death Rate Ups

When the sun goes down, traffic accidents go up.

Three times as many deaths occur at night although only a third as many miles are logged, warns an article on night driving in Service Magazine.

Part of the danger is due to the fact that a person's field of vision in starlight is one-tenth of what it is in sunshine, the magazine states.

But foreshortened vision is not the only hazard. Other handicaps such as glare from oncoming traffic, inadequate illumination of roads and streets, faulty head and tail lights, and poor road signs also complicate the nighttime driver's job.

The article suggested 10 guideposts for night driving safety. They are:

Speed — Slow down... cut 10 miles per hour off daytime speed. Don't overdrive your headlights.

Bridge Lessons

Bridge lessons start today in Parlor A and B of the Union-Beginners at 4 p.m. and advanced at 5 p.m.

Rodeo Club

Rodeo Club will meet at 7:30 Wednesday night in the Animal Husbandry Building on Ag campus.

NEBRASKAN CLASSIFIEDS

One-stop Service—Laundry, shirt finishing—dry cleaning. Al's 1/2 Hour 133 So. 16th.

Pleasant room in air-conditioned stone duplex — with kitchen, T.V. and shower privileges for two gentlemen. Call 3-0668 after 2:00.

Lost: Blue notebook South of Burnett last Fri. Reward!!! Ph. 3-2266.

Lights — Use headlights at dusk, not just parking lights. Be sure headlights are focused, brake and tail lights working.

Glare — Dim your lights for oncoming cars. Reduce speed and look to the right edge of the road when glaring lights approach.

Fatigue — Take a nap at the first sign of drowsiness. Don't

eat heavily before a long trip. Fresh air will keep you awake.

Monotony — Keep alert... shift your weight, talk, pull the radio, chew gum... to fight off highway hypnosis.

Windshields — Allow for restricted vision if glass is tinted. Keep all glass clean inside and out.

Pedestrians — Watch for people and unlighted objects at roadside.

Repairs — If you must stop, pull well off the road. Leave all lights on, including the inside dome light. Set out flares or reflectors.

Rail Crossings — Stop, look, and listen... in most nighttime train crashes, the car runs into the train.

Drinking — Call a cab... or even a police car... if you've indulged.

Bagley Attends Forestry Meet

Walter Bagley of the department of horticulture is representing the University Experiment Station in the North Central Regional Forestry meetings in Chicago.

Engaged in forestry research, Bagley will meet with representatives from experiment stations in 13 states, including Alaska, to set up regionwide forestry projects.

On the Advisory Committee on Forestry, Bagley will help determine how U.S. Department of Agriculture appropriations to stations will be used.

Fulbright Grants

The deadline date for filing applications for Fulbright Grants is Friday. Application forms may be secured in the Graduate College Office, 306 Administration Hall.

Outside World

Fugate Trial
The Caril Ann Fugate trial got underway Monday beginning with the selection of a jury. Presiding judge Harry Spencer said 34 persons would be called to the jury box.

Cardinals Meet Again
Cardinals of the Roman Catholic Church will meet again this morning to elect a successor to Pope Pius XII. After two days and at least eight different voting sessions, it appeared that the 51 princes of the church were having difficulty in choosing the new leader.

Delt Blaze
Two members of Delta Tau Delta died in a blaze at their fraternity house at George Washington University Saturday night. Wood shaving and tar paper used as decorations for a house party were given as a cause for the fire. Damage to the house was estimated at \$40,000.

Population Increase
Nebraska's population increased 8.4 per cent from July 1, 1957, according to figures released by the U. S. Department of Commerce. The increase of 112,000 brought the state's total number of persons to 1,437,000.

Steam Comeback
The old steam engines have been put into use again along the Union Pacific Railroad's main line from Omaha to North Platte. Fifteen of the 800 class engines were put in service for freight service to take care of abnormally high traffic.

Sporadic Firing
Communist guns fired only sporadically on the Quemoy Islands Monday—the first odd-numbered day since the Reds announced they would fire at will on odd-numbered days. On even numbered days, said the Reds, airstrips, beaches and docking areas will be exempt from Red gunfire so supplies may be landed.

ROBERT H. SWISHER, B.S.E.E., GROVE CITY COLLEGE, '54, SAYS:
'I like my job. Here's why.'
'I'm a radio transmission engineer for Bell Telephone Company of Pennsylvania. My work is interesting and full of variety, and I get all the responsibility I can handle. Have a look at today's assignment, for example — and see for yourself.'
"8:30 a.m. I'm at my desk applying a new method for overcoming interference on Pittsburgh's mobile radio channels. It involves operating inactive channels on reduced power."
"10:45 a.m. Before any modifications can be made, it's important that I check apparatus and wiring options. That's what I'm doing here at the Remote Control Terminal equipment."
"1:30 p.m. After lunch, I take a company car out to the transmitter tower site. Here I check wiring and explain our plan to one of our mobile radio maintenance men."
"3:15 p.m. I review my proposed modifications of auxiliary control circuits with Supervisor Sid Graul. Now I'll prepare work orders, and next week we'll make operational tests."
"See what I mean? I really get to 'carry the ball.' Soon I'll be taking a special course in advanced electronics at Bell Labs—a great opportunity. As I said—I like my job."
Like Bob Swisher, you may find a bright engineering future with the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.
