CAMPUS CHATTER

By Wendy Makepeace

November is a wonderful month of fashion. The trend in color is turning to the enchanting pastels—and the dress silhouette is being greatly influenced by the Empire line. Periwinkle blue, and seafoam green are two of the most charming holiday colors. Featured in the stylish empire waist line in sizes 7-15 for only 14.98, this dress is a must for all co-eds.

Remember its the Campus Shop-Gold's second floor of fashion.

Prep Teachers Hit Grade Nail Well

So you freshmen think you're getting poor grades compared to your high school grades.

An article entitled "High School Teachers Know Their Business" by Barb Coonrad, assistant editor, in the Nebraska Education News, says freshmen suspicions are generally unfounded.

According to Lee Chatfield, director of Junior Division and Counseling Service at the University of Nebraska, high school teachers identify and rank their top students in such a way that it compares surprisingly well with their grades at the University.

In the 1957-58 first semester freshman class, about 91% of the identifiable students from the top quarter of their high school classes made satisfactory (4 or better) grades in their college classes with the median falling around a high 5.

This was normal compared to other freshmen classes, according to Dr. Floyd Hoover, registrar.

Students from the lower quarter of their high school class, 76% of the students sampled were below a 4 (70-74%) which is the minimum grade for graduation from the University.

"This would seem to indicate," said Dr. Hoover, "that high school instructors are just as conscientious and honest in their evaluations of their students as anyone could be."

"Past performance in

high school is the best prediction of how a student will do in college," Chatfield pointed out. A top high school student who does unsatisfactory college work, however, should not be judged on academic preparation, but on his personality, performance and attitude.

He added that high school rank and grade combination give the most accurate grouping for the entering freshmen.

This analysis points to some interesting possibilities, according to Chatfield and Dr. Hoover.

Chatfield said it seems possible that placement examinations are not giving very much additional information on at least a part of the freshman class.

The two men predicted that in the future, it may be possible to place college freshmen as early as their senior year in high school according to their class ranks and grades. This would cut down on the number of placement examinations normally given to

incoming freshmen.

Also, students in the upper fourth or upper third of their high school classes are universally regarded as reliable college material. The finding in this analysis, seem to verify this fact.

Chatfield said that copies of this analysis have been given to University faculty advisers, college deans and other staff members so they will be able to counsel and place entering freshmen more accurately.

Do You Think for Yourself? (SEE WHAT THIS TEST TELLS YOU ABOUT YOURSELF!*)

Would you turn down an unusual opportunity if it would alter a preconceived plan for the future?

YES ☐ NO ☐

Do you feel your education would suffer if books and notes were allowed at examinations?

YES ☐ NO ☐

Do you think that a public official should do what the voters want him to do, even though he personally may feel it is wrong?

YES ☐ NO ☐

Can you honestly say you enjoy a game or sport as much whether you win or lose?

YES ☐ NO ☐

Do you instinctively feel a quail when you walk under a ladder?

YES ☐ NO ☐

When introduced to important people, do you act a role which is quite different from the real you?

If someone wanted to hypnotize you, would you refuse to let him try?

Would you feel that you should leave a formal affair if you found you were wearing clothes that were different from everybody else's?

YES ☐ NO ☐

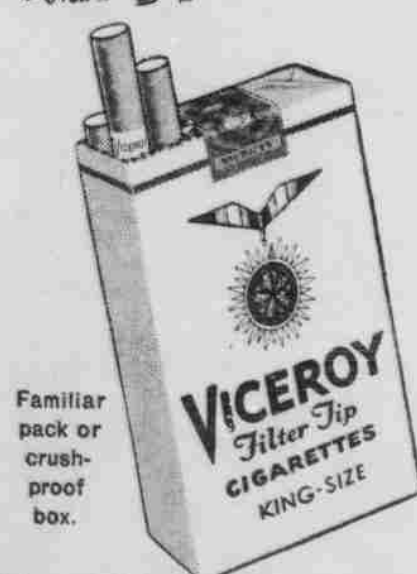

Do you let other people tell you what filter cigarette is best for you, rather than making up your own mind?

YES ☐ NO ☐

The fact is, men and women who make up their own minds—who think for themselves—usually smoke VICEROY. Their reason? Best in the world. They know only VICEROY has a thinking man's filter and a smoking man's taste.
