

Women's Marksmanship Matches

Inter-House Competition Begins Saturday Morning

"Close your bolts and commence firing!"

Thirty-two girls will raise their rifles and start shooting away for bulls-eyes Saturday morning in the first women's inter-house marksmanship competition.

Each competitor will shoot two targets, a total of eight for the four-member teams. The total of the eight will be the final score for the match.

The girls will enjoy the professional assistance of the varsity rifle team throughout the double-elimination tournament.

In the past a recreational program which allowed the girls to practice on Saturday mornings had been set up, but this is the first chance they have had to shoot against each other.

According to Captain Barry, range officer and rifle team coach, the girls get "pretty good in a short period of time."

"It's because they pay more attention to detail," he said.

Safe Shooting

Apparently women shooters aren't as dangerous as the proverbial woman driver. According to Captain Barry, "When the girls first come they are given a lecture on range safety by Sgt. Fauber, and after that there is no problem."

J-School Class Is Reviewing TV Program

The School of Journalism is reviewing an educational television program in its senior seminar course.

The program, "The Press and the People," is seen at 9 p.m. Thursday on KUON-TV. The critical review is held in the Friday morning class meeting.

Local newspaper, television and radio journalists head the Friday panel.

Friday, Bill Dobler, editorial editor of The Lincoln Star, and Neale Copple, special feature editor of The Lincoln Journal, and a J-School instructor, headed the panel.

'Bounty' Added To NU Spuds

"Bounty," a successful new potato product of the University Agricultural Experiment Dept., will be ready for production in 1960.

The potato, developed from tens of thousands of seedlings at experiment stations at Lincoln, Mitchell and Alliance during the last 21 years, is larger than present potatoes, and is more mealy and produces a much higher yield.

Tested in ten north-central states and along the gulf coast, the highest yield, under irrigation, was 750 bushels per acre harvested in Sioux County, Neb.

Weymouth to Speak To Colloquium

Dr. John Weymouth, assistant professor of physics, will speak at the physics colloquium Thursday in Brace Laboratory, Room 211, at 4:15 p.m.

He will discuss "Crystallographic Phases of Colloidal Silver Halogens." Tea will be served at 3:45 p.m.

Master Sergeant Holmes, USMC, is also assisting to see that the excited competitors don't shoot themselves in the heat of a close match.

The highest woman's score reported so far in the first two practice sessions is 95, but according to Captain Barry, "We'll have some 100's before we're through."

A 100 score involves shooting the center out of ten two-inch circles at 50 feet.

WAA Events

The addition of this competition makes a total of 15 competitions offered by the Women's Athletic Association, according to Miss Mary Mulvaney, WAA adviser.

The first match starts Saturday at 10 a.m. on the M&N range.

Aoblu 50 sorority, Residence Halls and independent women will compete in the tournament.

Summer Job Info Available

Information concerning summer jobs may be obtained from the Division of Student Affairs office.

Listings are available from the receptionist in Rm. 207, Administration Building. Positions range from camps to civil service to graduate study programs.

4-H Speaker To Visit NU

Dr. Glenn Dildine of the National 4-H Club Foundation will be on campus this week to consult with the College of Agriculture extension staff.

Dr. Dildine, human relations consultant, will address members of the University 4-H Club and Epsilon Chi Tau Wednesday in a joint meeting at 7:15 p.m. in the Ag student activities lounge.

Dr. Dildine will speak on "Your National 4-H Center—Education for What?" and will lead a discussion on personality types. A question period will follow.

New officers of the University 4-H Club will be installed.

Hawaii U. Combines Sun, Study

Been dreaming of sun drenched beaches and moonlit nights?

The University of Hawaii summer sessions will be held June 21 through August 1.

Reservations for travel and enrollment at the University are being accepted now. Rates for the six week session start at \$495.

In addition to the courses offered by Hawaii's visiting faculty, extracurricular activities offered include dinner dances, island trips, beach parties and fashion shows. Credits earned are transferable.

Additional information about the program is available by writing to Dr. Robert Cralle, University Study Tour, 3305 Wilshire Blvd., Los Angeles 5, Calif.

Prof To Attend Bizad Seminar

Keith Broman, associate professor of business organization and management at the University, will attend a summer faculty business administration seminar.

Prof. Broman was selected as one of 35 participants from the nation's colleges and universities to attend the seminar.

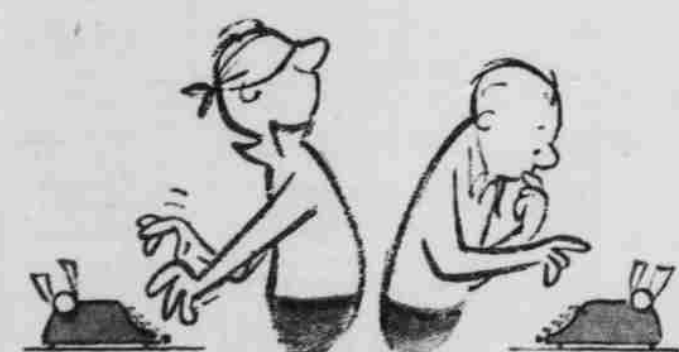

The seminar, sponsored by the Ford Foundation, will be held in Massachusetts in August.
