Big Eight Baseball Roundup: Missouri, Defending Big 8 Champs, Lose Regulars; Still Figure in League Picture

By Hal Brown
Missouri will be minus two front-line pitchers and five regulars from their 1958 NCAA baseball finalists and Big 8 championship squad when they open a 27-game campaign against Memphis State, March 27-28. Southern California nipped Missouri, 8-7, in 12 innings for the NCAA championship last June.

Gone from last year's hard-hitting crew are Sonny Siebert, Bo Toft and Hank Kuhlman, all juniors who signed major league contracts totaling \$125,000. Also missing are Capt. Ray Uriarte, Bob Meyers, and pitchers Ernie Neviers and Doug Gulick.

Even with the loss of such standouts as mentioned above, Coach "Hi" Simmons has no reason for pessimism. He will probably have the best pitching staff in the Big Eight with a "Big Three" composed of Don Miller, John O'Donoghue and Bud Harbin.

Miller was ineligible last year but in 1957, he had a 6-1 record with a 1.97 earned run average. O'Donoghue was 4-2 and Harbin was 1-0 last spring.

The outlook at Colorado is anything but bright. Hitting is expected to be weak again and they also have problems at first and third base. The Buffs have no .300 hitters returning and the pitching staff doesn't appear to be strong enough to overcome the lack of runs. Colorado appears to be strong down the middle, however with Chuck McIntyre behind the plate, Roger Kinney at second and Ben Brauch at short. McIntyre hit .273 last year while spending most of his time at first base and in the outfield.

The outfield will be strong defensively but lacks punch at the plate. The probable outfield will be Darrell Higman .219 last year, Gene Lenderman .198 last year and sophomore Gordon Wiss.

Oklahoma State is rebuilding from professional baseball raids which took Coach Toby Greene's three leading infielders. Signing bonus contracts were Jerry Adair, shortstop and leading hitter; Jerry Webster, second in hitting and a third baseman, and Lowell Townsend, a long-ball hitter who was ticketed for the firstbase job.

Bob Sloan, the third best hitter and Dale DeHart, a second baseman, were tripped up by scholastic problems.

The Cowboys open the season March 18 and 19 at Rice. Iowa State has nine returning lettermen, four of them pitchers. The returning pitchers Grant Halsne, Bob Locker, Prentiss Lamont and Jim Kudlinski should give Coach "Cap" Timm a good nucleus from which to build his mound staff. The Cyclones open the season April 3 with a three game series against Minnesota at Ames.

Oklahoma State is rebuilding from professional baseball raids which took Coach Toby Greene's three leading infielders. Signing bonus contracts were Jerry Adair, shortstop and leading hitter; Jerry Webster, second in hitting and a third baseman, and Lowell Townsend, a long-ball hitter who was ticketed for the firstbase job.

THE BOEING AIRPLANE COMPANY

Will Be Represented **ON CAMPUS** **THURSDAY - FRIDAY** **March 19, 20, 1959**

A CAREER AT BOEING is the choice of an ever increasing number of students from Nebraska University. Boeing looks forward to a long and pleasant association with those graduates who will join its organization at the end of the present school year.

★ ★ ★

THE BOEING STORY is an impressive one. Contact the placement office now for an appointment with the Boeing career consultants.

ENGINEERS
Mechanical, Aeronautical, Electrical, Civil, Math, Physics, etc. will interview in the ADMINISTRATION BUILDING.

BUSINESS GRADUATES
Business Administration, Accounting, Industrial Management, Statisticians, etc., will also interview in the ADMINISTRATION BUILDING.

YOU'LL BE WELCOME

BOEING AIRPLANE COMPANY

Wichita, Kansas Seattle, Washington

Gerald A. Parsons received his B.A. in 1950 and his M.B.A. one year later, both from Cornell University. He joined General Electric in 1954 and is presently Specialist-Marketing Administration in the company's Large Steam Turbine-Generator Department.

"The biggest challenge a man has to face is himself"

"Men and businesses are alike in one respect," says Gerald A. Parsons, 30-year-old marketing and personnel development specialist. "Their success depends to a great extent on how well they respond to challenge. And I've found that the biggest challenge a man has to face on his job is not the competition of others — but the far more important one of developing himself to his fullest capabilities.

"During my four years with General Electric, I've had plenty of opportunity for self-development. Challenging training assignments at five different locations within the company have given me a broader understanding of my career area. In my present job I have the benefit of working with experts, both in establishing long-range goals and in helping to achieve them. I've found that working toward future potential is vital in the development of successful businesses — and successful men."

Young men such as Gerry Parsons are important to the future of companies like General Electric and to the growth of America's dynamic, competitive-enterprise economy. Our nation's progress will depend more and more upon those forward-looking individuals who continue to develop to their fullest capabilities during their lifetime.

That is why General Electric provides a climate for individual progress — with opportunity for increasing knowledge and skills — for all of its employees, including 30,000 college graduates. For it is only as individuals meet the challenge of self-development that there continues to be progress for a business, an industry, or a nation.

Progress Is Our Most Important Product

GENERAL ELECTRIC
