

-Explosions to Robots-

Education Key to 47th E-Week; Displays, Info Sessions Featured

"Education will be the key word during the 47th Annual E-Week," Tom McMahon, publicity chairman, said.

Dust explosions, a cutaway display of a tractor, a lady robot—these are only a few of the items to be displayed April 23-24.

McMahon expressed the purpose of Engineering Week as follows:

"Participating students will attempt through displays, models and information sessions to inform the public and student exactly what engineering and architecture involve."

A movie and question and answer session for high school students interested in engineering will start E-Week at 1 p.m., April 23.

Students from various departments will speak to the students. Sigma Tau, honorary engineering fraternity, will sponsor the period.

Open house will be held from 2 to 10 p.m. the same day.

During open house, displays from each department of the college may be seen.

The centennial will be the

theme of the architectural department displays.

Nebraska's architecture—past, present and future—will be represented by models and drawings.

A scale model of the Kellogg Center as well as a display on the redevelopment of Lincoln are included.

Tractor Controls

A radio-controlled tractor will be the agricultural engineering department's contribution. One operator will be able to start, stop, and steer the tractor, control its engine speed, actuate the clutch, control implements and shift gears—all from a distance.

A cutaway display of an 8,000 pound tractor will also be shown.

The shaking floors of the Governor's mansion prompted the civil engineering department to display a barjoist construction such as was used in the mansion.

Displays of aerial photography and its relation to highway location work, an explanation of how the sufficiency rating system is used to decide which roads will be built first and a question and answer session completes the C. E. department's contribution.

Hi-Fi to Robots

The electrical engineering department will demonstrate high fidelity and stereophonic sound, the operation of the police radar system, closed circuit television that enables you to see yourself on TV, high frequency cooking and the only woman over which man has complete control—a lady robot.

A dust explosion will be offered by the mechanical engineering department. It is to demonstrate the hazards of open motors or flames while

working around dust-filled air.

They will set up a display to show outboard owners that when motor speed is increased at high speed, the speed of the boat does not always increase.

Theory of Flight

A model airplane display by the engineering mechanics department will be composed of models driven by rubber bands and weighing less than a pound. With them, the department will show the theory of flight.

The chemical engineering

department will stress equipment used in their work. They will show the process of development and production of rayon, a chemical oddities room with magical tricks and surprises, and an information room to tell visitors about the general aspects of education of chemical engineers and the relation of chem engineering to production.

The program the following day, April 24, will consist of an engineer's convocation at 11 a.m., a picnic and field day in the afternoon, and a banquet in the evening.

Hays Gets 'Shrew' Lead; Several Play Roles Open

Bonna Tebo Hays will play the starring role of Katharine, the shrew, in "Taming of the Shrew," a Howell Theater production in May and June. Katharine's sister Bianca will be played by Sally Wengert. Madelyn Miroff will portray the widow.

Other Parts

John Gerber will play the

part of Baptista and the role of Vincentio will be portrayed by James MacDonald. Steve Schultz will be in the role of Lucentio and Zeff Berstein that of Gremio.

Bendello will be played by Francis Hemer and Grumio by John Erickson. Robert Grote will play the part of Curtis.

Tom Perry will play two roles, that of a tailor and of a pedant, a person who displays his learning.

Suitors Concern

"Taming of the Shrew," one of Shakespeare's comedies, is the story of the concern of Bianca's suitors. Bianca's father says that she cannot marry until her older sister Katharine is married.

But Katharine is a shrew and no man will have her, thus the problem. The problem is solved when the suitors find Petruchio who is able to tame the shrew for a sizable dowry.

Production dates for the "Shrew" is Ann Prentice and St. June 6 and 7 at Pinewood Bowl; and June 11 and 12 in Howell Theater.

Unfilled Roles

There are still several male roles unfilled as yet, according to Jerry Carlson, production director.

Production manager for the "Shrew" is Ann Prentice and the assistant to the director is Charles Piper.

Anyone who desires to read for the remaining male roles should contact Carlson at Howell Theater.

Delts Off Social Pro, Council Told

Delta Tau Delta has been taken off social probation, Jack Muck reported Wednesday to the Student Council. Muck, along with Council member Kathy Roach, are a part of the faculty subcommittee on student social affairs which took the action.

According to Muck, the committee heard the Delta Tau Delta appeal to be removed from probation on the grounds that they have made improvement in the following areas:

1. Their alumni advisory committee now has complete control over the activities of the fraternity.
2. They have a more effective policy towards pledge training scholarship and compliance with University regulations.

According to Muck, the appeal was granted on the evidence produced by Delta Tau Delta of improvement made and being made under their new policy.

Bates Joins Living Study Group to Form Housing Queries

Dr. Allen Bates, chairman of the department of sociology, has been named to work on a minority housing survey in Lincoln.

He is one of a committee formed to draft the questions for the survey which is to begin in June.

Other members, also sociologists, are Dr. Glen Callen of Nebraska Wesleyan and Dr. Russell Nelson of Union College.

The three also have agreed to find someone who will be responsible for making the survey and tabulating the results.

The survey, sponsored by the Mayor's Council on Human Relations, will investigate housing and living conditions of Lincoln minority groups.

More Opinions Are Needed For Finals Plan

The Student Council has received 16 letters from individuals and organizations concerning the proposed final exam change.

The Council is asking the administration to extend the final exam period one day, leaving the first day for study.

Chuck Huston, chairman of the final exam committee, told the Council Wednesday that more letters were needed to allow the committee to accurately determine student opinion on the matter.

Seven Feted For Flying, Rifle Firing

Three advanced and four basic Army ROTC cadets were honored in a ceremony in the office of the PMST, Col. V. R. Rawie.

The advanced cadets successfully completed the Army ROTC Flight Training course conducted by Arrow Airport. Satisfactory completion of the program qualifies ROTC cadets for further flight training when ordered to active duty.

Those completing the course were Bruce Abernethy, Honor Oschner and Gilbert MacGarraugh.

Medals were awarded to Michael Flannigan, William Holland, Conley Cleveland and Howard McNiff for their participation in the Midwest Camp Perry Smallbore Rifle Matches.

The University Army ROTC rifle team placed second in a field of 19 teams.

Star Theatre Draws 35,000

More than 35,000 people have viewed the stars and planets at the University Planetarium, Theatre of the Stars, since its opening.

Of that number, 5,500 were school children, members of 175 groups from 40 Nebraska counties.

Commemorating its first anniversary the Planetarium will feature a new show Thursday, "Our Star the Sun."

Principals, Frosh Hold Conference

The fifth annual Principal-Freshman Conference was held Thursday at the University to discuss transition from high school to university work.

Approximately 550 University freshman and 78 high school principals registered at the Union, then dispersed to rooms throughout the campus to discuss and seek ways in which both schools may aid students in the transition.

Following a noon luncheon in the Union, a panel discussion was held on "The Role of High Schools in Admission Practices."

Panel members were: Dr. Floyd Hoover, University registrar; Lee Chatfield, director of the University's Junior Division and Counseling Service; William Bogar, Principal of Lincoln High; Ray Meyers, principal of Schuyler High; and Noel Lawrence, principal of Grand Island High.

Alumnus Article

An article by Marcia Ray, senior in Agriculture, is appearing in this issue of the Nebraska Alumnus.

Entitled P. T., the article concerns the University physical therapy department.

CANOE TRIPS

Personal service for wilderness canoe trips into the Quetico-Superior wilderness. Camping equipment, Grumman aluminum canoes and choice food supplies only \$6.00 per person per day. For complete information, write Bill Rom, CANOE COUNTRY OUTFITTERS—Box 717 C, Ely, Minn.
