

Hospitality Days Continue on Ag

Two-Day Attendance May Reach 900

A FEDDE HALL sign attracts two Plattsmouth high school girls, Shirley Lutz (left) and Martha Haase, who attended the 10th Annual Ag Campus Hospitality Day. The girls were part of 900 who were expected to attend the two-day meetings which

started Tuesday and end today. "Headlines in Home Economics" is the theme of this year's meet which is intended to acquaint the girls with careers and advantages open in home ec.

Library Dollars Here Fewer Than Neighbors'

The University of Nebraska is spending less on its library than neighboring universities such as Colorado, Kansas, Iowa, Missouri and Oklahoma. This statement was made by Prof. Frank A. Lundy, director of University Libraries, at a meeting of the Faculty Senate Tuesday.

Lundy also pointed out that Nebraska is spending less on

its library than it did 5 years ago.

"During the 1954-55 term, 3.3 per cent of our budget was used for books, periodicals and library services, but during 1957-58 this amount decreased to 3.1 per cent," Lundy said.

He also pointed out the need for a research library for graduate students and faculty research.

Pharmacy Grads Will Be Honored

Seventeen members of the 1959 College of Pharmacy graduating class will be honored at their annual banquet, sponsored by the Student Branch of the American Pharmaceutical Association, to be held at the University Club at 6:30 p.m. May 23.

Awards to be presented to outstanding members include the Lehn and Fink Medal, the Merck and Co. Awards, the Bristol Laboratories Award and the Rexall Trophy. The College of Pharmacy Annual School Picnic will be held April 26th.

Prof. William Dick, chairman of the committee on student suspension appeals, reported that since April, 1958, three suspension appeals were made, but all were sustained.

The final report of the Board of University Publications, which was dissolved in December, 1958, was given.

Prof. Lundy reported that outside of other publications, the Board of University Publications published 81 books during its 18 years of existence.

The Faculty Senate approved a syllabus of Committee Charters presented by the Committee on Committees.

Union to Show 'The Wild One'

Marlon Brando is starred in "The Wild One" at 7:30 p.m. Sunday in the Union Ballroom.

"The Wild One" is a story of crime and violence as a youthful motorcycle gang invades a small town.

The technicolor cartoon is "How Now Boing Boing." Admission to the movie is free with University ID cards.

Poynter Talks Begin Today

The 7th annual Spring Post-graduate Assembly and Poynter Lectures are being held at the University College of Medicine in Omaha today and Thursday.

The course is conducted in cooperation with the Nebraska Division of the American Cancer Society and Merck, Sharp and Dohme.

On the Social Side:

Engagements Number Six, Pinnings Five

By Mary Anderson
Five pinnings and six engagements head the list of the social announcements for this week.

Pinnings

Mary Lou Magnuson, a sophomore in Arts and Sciences from Colon, to Duane Stokeland, an Alpha Gamma Rho senior in Agriculture from DeWitt.

Pat Scharmann, a Kappa Delta sophomore in Arts and Sciences from North Platte, to Roger Meyer, a Beta Sigma Psi junior in Arts and Sciences from Upland.

Mary Ann Ryan, a Pi Beta Phi sophomore in Teachers from Plattsmouth, to John Higgins, a Delta Tau Delta sophomore in Business Administration from Schuyler.

Peggy Shaner from Geneva, to Dick Oliva, a Delta Sigma Pi junior in Business Administration from Milligan.

Jan Hawley, an Alpha Phi sophomore in Speech from Omaha, to Bob Clapham, a Sigma Nu graduate student in Engineering from Cedar Bluffs.

Engagements

Lucy Webster, a Kappa Kappa Gamma junior in Teachers from Lincoln, to Wayne Robertson, an Alpha Tau Omega junior in Arts and Science from Norfolk.

Kay Stewart, a Chi Omega junior in Teachers from Grand Island, to Sam Grimminger, a Kappa Sigma junior in Arts and Science from Grand Island.

Diane Russel, a junior in Home Economics from Chester, to Elmer Holmes from Davenport.

Sandra Shoup, an Alpha Phi senior in Zoology from Sutherland, to Herb Meisner, a Phi Delta Theta alum from Omaha.

Barbara Mandel, a Chi Omega junior in Arts and Sciences from Omaha, to Jack Justice, a Sigma Nu sophomore in Dentistry from Central City.

Blanche Miskowsky, a Chi Omega senior in Teachers College from Omaha, to Lt. Allen Lang from Alexandria, Minn.

4H to Hold Mich. Camp

2 Ag Students Awarded Trip

Two University 4-H members will attend a 4-H leadership camp at Stoney Lake, Mich., in August.

Jeanene Markussen, a freshman in Ag College and Allen Heine, also a freshman in Ag College, have been awarded a trip to Camp Minnawanka.

Those attending the camp receive training in personal, development, life planning, leadership and service-oriented outlook.

Miss Markussen, who was one of eight 4-H members in the nation to receive a repeat trip to the 4-H Club Congress, has been in 4-H for eight years.

Heine, a 4-H member for 7 years, has done work in rural electrification.

HARRY LAWTON, JR., received his B.S. in Physics at Union College, Schenectady, N. Y., in 1950, joining General Electric that same year. He received an M.S. degree in Management Engineering from Rensselaer Polytechnic Institute in 1958.

"Long-range programs are important — for both men and missiles"

"In a company dedicated to research and development, a young man's opportunities to learn more—to increase his technical skills—are almost unlimited," says 31-year-old Harry Lawton, Jr., a General Electric engineer engaged in the development of inertial guidance and fire-control systems for ballistic missiles. "And to maintain America's scientific leadership, we're going to need all the technical training and skills we can produce."

"An important aspect of my job at General Electric is the continuing opportunity to learn more. I've been able to continue my education in the company's Physics Program for college graduates. And I also have the advantage of association with top technical experts in my work. Opportunities like this have helped me realize that long-range programs are important—for both men and missiles."

Harry Lawton is one of several hundred technical graduates who are devoting their skills to the develop-

ment of 14 government missile projects to which General Electric is a major contributor. More and more our scientific progress and our national security depend on men like this—men who bring high qualifications to their work and who continue their quest for knowledge, both on and off the job.

General Electric believes that individual initiative and career growth are essential to America's continued technological leadership. To this end, the company encourages all of its employees—including more than 30,000 college graduates—to develop to their fullest capabilities by providing opportunities for increasing knowledge and working skills.

Progress Is Our Most Important Product
