

# Convenience, Service Keywords of Union

By Doug McCartney  
"Convenience and service" are the keywords in the reorganized operation of the new Union.

Immediately after popping in the main north entrance the visitor will find an information center to answer questions and provide various services.

### Functions

Some of the functions of this area include:

1) An intercom-public address paging system. A person can be paged on request in any part of the building, saving the searcher an immense amount of shoe leather in the course of a year. The system is two way, so answers can be heard.

2) Organization mail boxes at the front door, as well as a key-check out center for meeting rooms and lounges. In case you're hungry and don't think you can make it to your meeting without sustenance, "off" sales will be made on candy, as well as cigarettes, magazines and papers. A stamp machine and post card machines will also be available for use. In other words, the booth will be a "one-stop shopping center."

3) General information, con-

trol of sound and music programming (including special tapes, programs on request), small-change banks and numbered blanks for organizations selling tickets, (if you're too lazy to sell your own, the Union will do it for 5 percent

## Shapiro Named To Board

### Pamphlet Series On Writers Planned

Karl Shapiro, professor of English and editor of "Prairie Schooner," has been named to the advisory board of a series of pamphlets providing critical introductions to American writers. The series is being sponsored by the University of Minnesota Press.

The first Shapiro three pamphlets will be published next fall. They will be on Ernest Hemingway by Philip Young, on Robert Frost by Lawrence Thompson, and on William Faulkner by William Van O'Connor.

In addition to these pamphlets and others on individual authors, two entitled "The American Short Story" and "Recent Developments in American Drama" are planned.

In explaining the purpose of the series, O'Connor said that with the growth and recognition of the dominance of American literature, Americans abroad "have frequently observed the need for simple, easily got at critical introductions to American authors, similar to the British Council series on British writers."

Each pamphlet in the series will contain a brief biography, a longer critical analysis and evaluation of the writer's achievement, and a bibliography of his books and of articles and books about him. The pamphlets will be priced at \$1.

## Education, Englishmen On KUON

Three new TV series will be presented on KUON-TV this week.

A husband and wife team, Joan and Juliet Evans will conduct informal interviews with various British persons on "Topic," Tuesdays at 7:15 p.m.

"Meeting of Minds" which also begins Tuesday, at 7:30 p.m., concerns the differences in the education systems of the Soviet Union and the U.S.

The Russian group answers inquiries about the structure of their school system, selection of students, content of courses, the gifted student and future plans.

The American educators discuss teacher training, changes in education in the past four years, evaluation of extension and correspondence courses, and the elementary, intermediate and high school plan as opposed to just the primary and secondary school.

On Wednesdays at 8 p.m. a series on the exceptional child will be presented with members of the Syracuse University faculty discussing specific children's problems.

interest of the gross sale).

### Check Room

An attended check room will be available for the new entrance and the present one turned into a walk-in coat room.

On the northwest corner of the main floor will be the operations center. It will be possible to conduct all business of reservations, facilities and catering with the department heads in adjacent rooms.

Bulletin boards and ticket booths will be available and use scheduled through the main office.

### Dressing Rooms

Bashful users of the ballroom stage on the second floor will be glad to hear that new dressing rooms have been added. Also another stage entrance for the right side should cure the rather unbalanced traffic problem of the left side entrance.

For the Sunday night movie goes a 24 foot cinemascope screen and two wide angle lenses promise the latest in movies for next year. A new sound system will now make it possible to hear the movies as well as see them.

Film equipment (16 mm and slide projectors, screens, record players and tape recorders) may be borrowed from the main desk at no charge.

Last but not least is the new 500 ton air conditioning unit that promises to make the Union one of the most popular places on campus when the temperature heats up.

The new cooler will have dust filters and dehumidifiers to add to the comfort. Room temperatures may be individually controlled to suit the fancies of the occupants.

## Discussion Of Rhoades Is Planned

A meeting for discussion of the Rhodes Scholarships will be held in the Union Faculty Lounge tonight at 7:30 p.m. Deadline for the acceptance of Rhodes Scholarship applications to Oxford University in England is Oct. 5.

### December Choice

Elections to these scholarships will be held in December, 1959. Scholars-elect will enter Oxford in October, 1960.

The value of the scholarship is 750 pounds per year in English currency. In U.S. money this would be approximately \$2100.

Scholars who qualify under the G. I. Bill of Rights or other military educational funds may expect the same benefits at Oxford as at an American university.

### Two-Year Study

Appointment to a Rhodes Scholarship is made for two years in the first instance with a possible third year if the student's record at Oxford and plan of study warrants such an award. No restriction is placed on the scholarship winner's choice of study.

A candidate may apply either in the state in which he resides or in the state in which he may have received at least two years of his college education.

To be eligible a candidate must:

1. Be a male citizen of the United States, with at least five years' domicile, be unmarried and remain so for at least two years of residence at Oxford. Permission to marry without deprivation of the scholarship may be given by the Rhodes Trustees for a student's third year. Marriage before this would result in the forfeiture of the scholarship.
2. Be between the ages of 18 and 24 on Oct. 1, 1959. If a candidate has had at least 90 days of active service in the U.S. Armed Forces since June 27, 1950, he must deduct this period of service, not exceeding four years, from his age. If his age falls within 18 and 24 after this deduction, he will be eligible.
3. Have at least junior standing at some recognized degree-granting college or university by the time of application.
4. Receive official endorsement of his college or university.

## Maverick Popular As Escape Show

Ever wonder why you watch "Maverick"?

Most college students eye TV's most popular western from 6:30 to 7:30 Sunday nights because they like the show. But Dr. T. E. Hannum, professor of psychology at Iowa State, says they may like it for a specific reason.

Dr. Hannum stated that the primary motivation for watching a western show is escape, but he said he doubts that anyone has delved extensively into the subject of "Maverick" from a psychological angle.

One reason for the increased interest, Dr. Hannum speculated, is that people are attracted to the freedom that Maverick represents. He called to mind the way Maverick drifts aimlessly, gambling and spending money.

He said that another reason for the popularity of the show is obviously that it is not a stereotype western, but presents variety and humor. Dr. Hannum added that another significant reason for the success of Maverick may be that he regards his cowardliness vital to his preservation in his numerous episodes. Most people have the same opinion of themselves, Dr. Hannum said, and feel comfortable with the idea.

Perhaps the greatest reason for the success of the show, Dr. Hannum concluded, is the time at which it is held. A program doesn't have to be too exceptional before people will watch it at such a convenient time as early Sunday evening, he said.

None of these possible reasons have deep psychological implications, Dr. Hannum continued, but perhaps if someone could devote some study to the matter, some deeper implications would be found.

## Geology Exam Is Announced By Civil Service

A new examination for cartographer has been announced by the U.S. Civil Service Commission for positions in various federal agencies in the Washington, D. C. area.

Most of the positions to be filled are in the Army Map Service, the Aeronautical Chart and Information Center, the Geological Survey, the Bureau of Land Management, the Coast and Geodetic Survey, and the Navy Hydrographic Office.

To qualify for the positions, applicants must have a completed pertinent college study or have had appropriate technical experience in cartography, engineering, mathematics or physics. Written tests are also required for applicants who offer experience alone as a basis for qualification.

Positions pay from \$4,040 to \$12,770 a year.
