The Outside . . .*

ONCE INDUSTRY-The Elgin Building once was the

center of one of Lincoln's largest industries, but now

stands vacant at its 16th St. location. But indications are

that it may soon be a center of activity once again, not

of manufacture, but of classes.

VACANT NOW-The inside of the Elgin Building is now

vacant for the most part, but the wide halls may be a

boon in helping relieve crowded entering and leaving

of classes. It has not been decided what classes for which

the building will be used.

Last Year 250

She noted last year's enrollment of foreign students was only 250

Already campus organizations and campus religious groups have begun more extensive programs to include the international students.

"Efforts used to be haphazard, but I really believe organizations and students themselves are beginning to show a gratifying amount of interest," the adviser and former instructor in the University Extension division stated.

Mrs. Steele says she also has plans to promote the relationship between international students and the local community. Several civic groups have asked students to speak at their meetings. Individual Conferences

Students appreciate this link with American life, Mrs. Steele says.
