

# Battered Huskers Happy After Damming Beavers

By Herb Probasco  
Bill Jennings' Cornhuskers were too battered to do much back-slapping in the dressing room after Saturday's win, but there was no mistaking that the boys were mighty happy.

Center Darrell Cooper just about summed it up for the fans and team alike when he looked up at the score board and said, "7-6, but I'll take that score any day."

Jennings praised the squad for a "tremendous effort."

**Ball 'Moved Well'**  
"We moved the ball pretty well," he pointed out. Refusing to single out any individual, the Husker mentor said he felt that the Nebraska ends contained the single wing "pretty well."

"Our kicking game sure helped us," he added.

Line coach Don Strasheim said the Huskers played "real good football. Oregon State is a helluva football team," he added. "They were hard hitting, hard nosed and good hustlers."

Center Jim Moore, whose rugged tackling was a highlight of the game, gave the Beavers plenty of credit.

"They were pretty good," he said. "They hit harder than Texas and Minnesota." The senior lineman added, "If we keep up the hustle, we're going to have a good season."

**Tolly Has Long Game**  
Harry Tolly, who played all but two or three plays at quarterback, felt "we played pretty good. We're really trying," he added.

"They were tough, but they're all tough," was junior halfback Pat Fischer's reaction to the Beavers. "But we're gonna beat 'em all," the Husker speedster cracked.

Carroll "Papa" Zaruba, who caught the pass for Nebraska's only touchdown and played one of his finest games for the Scarlet and Cream, didn't hesitate when asked about the game against Kansas next week. "We're gonna win, of course," the Extra Point Club recruiter shot back.

### Physical Status

Uppermost in Jennings' mind besides the victory, was the physical status of several members of the squad. Quarterback Tom Kramer, guard Don Olson and fullback Don Fricke, all starters, were sidelined for the entire game due to earlier injuries. Fricke and Kramer, and possibly Olson, should be ready for the Kansas game.

Sophomore fullback Noel Martin, who started in place of Fricke, was hurt in the second half, but is on the "hopeful" list for next week's contest with Kansas.

The spunky Kansan managed a smile for congratulators. "They were hitting pretty hard," he said, "but I didn't get hit, I got smashed."

It was reported that Martin had suffered a pulled chest muscle, but X-rays showed that his ribs were bruised.

### No Serious Hurts

Otherwise, the Huskers came out of the rugged contest, with plenty of cuts and bruises, but nothing serious.

The team had plenty of backing from the stands Saturday afternoon.

Junior cheerleader Kay Hirschbach called the spirit "tremendous." She added that the Chant is "sounding better" after the cheerleaders had placed mimeographed copies in the stands.

They also went around to the sorority houses teaching the Chant, and next week she said that the band is going to sing, too.

## Breckenridge Says Plans For Elgin Are Not Definite

Any University plans for the former Elgin building are subject to change at the present time, Dr. Adam C. Breckenridge, chairman of the Building Committee, said Saturday.

Dr. Breckenridge earlier announced that the Conservation and survey Division would be the first to occupy the six-story building with nearly seven acres of floor space located at 16th and X.

He said tentative moving date would be late 1960 or early 1961.

**No Plans**  
Breckenridge, also the Dean of Faculties, said that his committee has not discussed any definite plans to use the building for all freshman classes.

"Right now we're studying needs of all the activities and departments on the city campus and trying to decide which would most conveniently and appropriately be placed," he continued.

**No Date**  
"We cannot set a definite date for the actual relocation of any one department," he said.

He did say there would be no mass move and that changes would be made at different stages, according to architects' specifications and needs.

He said basic questions of committee are future needs of each department and congestion in now overcrowded city campus buildings.

"We hope to have architects' plans for the first step in renovating the lead-in wiring by Dec. 1," Breckenridge said.

**In Spring**  
Plans for remodeling construction are expected in the spring, he added.

The committee has decided most of the basement in the 380 by 142 former site of the Elgin National Watch Co., would be used for storage. According to Breckenridge, ceilings are too low to be suitable for classrooms.

Present plans call for transferring the University printing plant now located in the West Stadium to the basement.

Heating lines from the University's steam plant were installed in the building this summer.

Breckenridge said progress will be determined by appropriations from the Nebraska Legislature.

## Winner To Be Decided at Saturday Dance 'Hello Boy' Finalists Are Named

FIRST REIGN—One of these candidates will be the first to reign as Hello Boy Saturday. Standing left to right are Don Bruegman, Jim Glather, Fred Rickers, Ron McKnight and Allen Wellman.

Five independent men were selected as finalists for the newly created title of Hello Boy.

One of the five will be selected for the title by a vote of those attending the Hello Girl-Hello Boy dance Saturday night.

The five finalists picked from 15 representatives from residence houses and co-ops are Don Bruegman, Jim Glather, Ron McKnight, Fred Rickers and Allen Wellman.

Bruegman representing Burr Hall, is a sophomore ag economics major. He is a counselor, takes part in the intramural bowling and is a member of Ag Economics Club.

Glather is president of MacLean House of the Men's Residence Halls and is a junior in Chemical Engineering. He is active in RAM Council and AICHE.

McKnight is a senior in Electrical Engineering and is president of Brown Palace. He is a member of Pi Mu Epsilon, Eta Kappa Nu honoraries and the student branch of the IRE and the Inter-coop Council.

Rickers a sophomore in the College of Arts and Sciences is president of Benton House of the Residence Halls. He is a member of Alpha Phi Omega, scout leader honorary; sings in the University Chorus and Presby House choir; teaches swimming classes; was manager for the freshman basketball team; participates in intramurals and is a member of the student Union bowling league. Rickers had the highest scholastic average of all contestants, an 8.647.

Wellman, who represents Gustavson II, is a junior in the College of Agriculture. He is a member of the varsity squads and Alpha Tau Alpha.

Judges making the selections were Tom Eason, president of RAM Council; Dorothy Glade, representative of Independent Women's Association; Jane Savenor of Mortar Board; Norm Rohlfing of Innocents; Karen Long of the Daily Nebraskan and Miss Frances Davis, faculty adviser of IWA.

## Producer Campaign Underway

### Houses Compete For Trophies

Fifteen women's and nine men's houses are competing for "Honorary Producer" trophies in University Theatre's 1959-60 season ticket sales campaign.

Competition opened last Monday and lasts until Oct. 15. The trophies will be presented to the winners on the opening night of the first play of the season, Shakespeare's "Henry IV, Part I," Oct. 28.

Nebraska Masquers, honorary theatre organization, has organized the Honorary Producer campaign by sending letters to all organized houses inviting them to compete.

Women's houses competing are: Alpha Omicron Pi, Alpha Phi, Alpha Chi Omega, Delta Delta Delta, Delta Gamma, Fedde Hall, Kappa Alpha Theta, Pi Beta Phi, Sigma Kappa, Zeta Tau Alpha, Kappa Delta and Towne Club.

Men's houses competing are: Avery House, Sigma Alpha Epsilon, Theta Xi, Delta Sigma Phi, Kappa Sigma, Phi Gamma Delta, Sigma Phi Epsilon, Theta Chi and Sigma Alpha Mu.

The \$5 season ticket provides admission to four plays and an opera for the 1959-60 season.

## Regents Accept Grants, Buy Forburger Corner

University Regents accepted more than a half million dollars in grants Friday evening and took steps to purchase new property directly west of the football stadium.

The five Regents who met with Chancellor Clifford M. Hardin authorized Carl Donaldson, business manager, to sign a \$30,000 agreement for the purchase of the northwest corner at 10th and Avery, the Forburger Stone Co.

**Grants Breakdown**  
A break-down of the grants showed \$330,346 in research grants, \$232,722 in training grants and \$3,500 in fellowship grants, for a total of \$566,568.

Included in the training grants was \$116,863 to establish a counselling and guidance training institute under the National Defense Education Act.

Chancellor Hardin told Regents the 18-week institute will be one of seven established in the nation.

He told the Regents that \$77,000 alone would be stipends, tuitions and extra grants for the expected 45 participants. Counselors from secondary schools in Nebraska, Kansas, Colorado, Wyoming, Montana and North and South Dakota will attend.

**Arterials Opposed**  
The Regents also directed the University business manager to inform the Lincoln City Council by letter that it would "strongly oppose" any move to take 16th and 17th Sts. major arterials to the proposed Interstate Spur.

They went on record recommending that the two streets become internal parts of the campus, if the diagonal was established east of 17th St.

The Regents first had submitted the recommendations to the Council in May, 1958. In addition to accepting routine resignations and appointments, the Regents approved the purchase of a series to enlarge the graphic arts collection for the Frank M. Hall collection.

They also made plans to charter a plane to attend their next meeting, Oct. 21, in Scottsbluff.

**Other Grants**  
Other grants accepted included—\$37,837 from the National Institutes of Health for a training course for physicians under the direction of Dr. C. L. Strough of the department of neurology and psychiatry. The course will train general practitioners in the treatment of the alcoholic and to use their facilities as clinics in which these patients may be treated.

—\$11,756 from the Small Business Administration for research by Prof. Robert M. Cole of the department of business organization and management for a retail store hour survey. The survey will determine the present retail stores' hours in Beatrice, Columbus, Fremont, Kearney, Norfolk, North Platte and Scottsbluff and to discover what the retailers of these towns believe these hours should be to produce the greatest net profit from their operations.

—\$3,636 from the Small Business Administration for research by Prof. Clifford M. Hicks of the department of business organization and management, concerning problems in the sale of an interest in a small business proprietorship as influenced by the federal income tax laws.

Regents who attended were Clarence Swanson, Lincoln, president; Dr. B. N. Greenburg, York; J. Le Roy Welsh, Omaha; Richard Adkins, Osmond; and Frank Foote, Axtell. J. G. Elliott of Scottsbluff, who is vice-president, was absent.

**Fall Roundup To Be Friday**  
The Fall Roundup, Ag Union's largest event of the year, is scheduled for Friday. Displays by all Ag Campus organizations, a reception line including Ag College department chairman and staff members, movies, refreshments and a dance will be featured.

Activity begins at 7:30 p.m. with John Marshall and his combo playing from 8:30-11:30. The event is sponsored by the Ag Union Student Faculty Committee headed by Judy Griffin and Fran Johnson.

### KK Skitmasters Meet Tomorrow

Skitmasters for the Kosmet Klub Fall Review will meet Tuesday at 4 p.m. in 349 Student Union.

## E.E. Group To Host Convention

### Eta Kappa Nu Expects 250

The local chapter of Eta Kappa Nu, electrical engineering honor society, will host the fifth annual convention of the nation-wide society on the University campus Friday and Saturday.

### Convention Speakers

Approximately 250 delegates are expected to attend. Speakers at the convention will include Larry Dwon, manager of engineering manpower, American Electric Power Service Corp., New York; Prof. Albrecht Naeter of the School of Electrical Engineering, Oklahoma State University; C. Holmes Macdonald of Philadelphia, plant extension engineer of Bell Telephone Co., and Paul K. Hudson, assistant professor of electrical engineering at the University of Illinois.

Other speakers will include: the Rev. Rex H. Knowles, Presbyterian and Congregational pastor; Prof. F. W. Norris, chairman of the department of electrical engineering, and Dr. Albin T. Anderson, associate professor of history.

All are members of the University faculty.

### Witte Heads Chapter

The local chapter of Eta Kappa Nu is headed by Alfred Witte Jr., and Dr. Clyde Hyde is faculty adviser.

Members are chosen from juniors in the upper one-fourth of their class and seniors in the upper one-third of their class. Each year the group presents the Eta Kappa Nu scholarship award to the most outstanding junior in electrical engineering.

"A number of people were unrealistic in terms of true interest," Hobson said.

### Few Transfers

He pointed out that the number of entering freshmen has remained fairly stable, and that this year "perhaps we were not getting as many transfers as usual."

**Drop-outs have remained about the same percentage-wise since 1956, according to the Dean. He thought that about half drop out because of scholastic difficulties in science and many of the rest because of a change in interest that is "typical of 18- or 19-year-olds."**

Some of the reasons for drop-outs are the more demanding scholastic load and "emphasis on theory rather than application."

"Part of the problem is in the area of teaching," he continued. "We try to encourage rather than discourage. We are trying new techniques to stimulate curiosity."

Belor, ar, the Dean's unofficial totals for the Engineering College for this year.

| Dept.                  | Fr.  | So.  | Junior | Total |
|------------------------|------|------|--------|-------|
| Ag.                    | 15   | 11   | 17     | 43    |
| Arch.                  | 27   | 28   | 20     | 75    |
| Chem.                  | 19   | 21   | 22     | 62    |
| Civil                  | 26   | 40   | 72     | 138   |
| Elec.                  | 87   | 67   | 112    | 266   |
| Mech.                  | 72   | 67   | 78     | 217   |
| Physics                | 207  | 228  | 248    | 683   |
| Pre-engineering        | 410  | 390  | 390    | 1190  |
| Total Enrollment, 1959 | 1000 | 1000 | 1000   | 3000  |

## Spirit Gets Thorough Analysis at Rag Lunch

Everything from Saturday noon rallies to abolishing game functions was hashed over at a noon luncheon Friday sponsored by the Daily Nebraskan.

Concentrated discussion centered around school songs, pep organization efforts and spirit in the stands.

### Demonstrate Chant

The cheerleaders demonstrated the Nebraska Chant. Popular back in the 30's the Chant has been restored at the requests of some alums. It was felt that the chant has been downgraded before when presented because the atmosphere had been shattered each time in various ways.

The Sigma Alpha Mu's are promoting the idea of the Nebraska Alma Mater, written

## Pub Board Applicants Cut to Six

The Student Council Nominating Committee has announced the selection of six finalists for Pub Board positions.

The two senior candidates are Gretchen Sides and Carroll Novicki. Juniors are Kitz Lee and Renny Ashleman and sophomores are Bob Geisler and Al Plummer.

The six finalists will be interviewed by the Council at its regular meeting Wednesday. One student will be selected from each class to represent the student body on the publications board.

## Young GOP Seeks Recruits

A two-week membership drive will open today for political minded students to become Young Republicans.

Members of the organization will go to each organized house to recruit members.

Young Republicans meet every Thursday at 7:30 p.m. in the Student Union.

## Engineering Decline Follows Trend

The yearly decline in engineering students is following a national trend, said Mark Hobson, dean of the College of Engineering.

He said he feels the number will continue to decline until it matches the number of students the University would have had without the scarce engineer publicity of 1956, then will slowly rise again.

But he added he didn't know the reason for the large number of drop-outs in last year's junior class that affected the College's enrollment.

Total enrollment for the Engineering College last year was 1,466 and an unofficial tabulation this year shows

1,584, a drop of 82. By department the greatest reduction came in electrical engineering, where 55 fewer students are enrolled than last year.

Hobson said he wasn't overly concerned about the situation, and there hadn't been enough time to make a thorough study.

He emphasized the College's largest enrollment was in 1956, when there was a great deal of national publicity on the shortage of engineers.

| Year      | Enrollment        |
|-----------|-------------------|
| 1955      | 442 freshmen      |
| 1956      | 586 freshmen      |
| 1957      | 517 freshmen      |
| 1958      | 480 freshmen      |
| This year | 508 freshmen      |
| 1955      | 702 upperclassmen |
| 1956      | 613 upperclassmen |
| 1957      | 563 upperclassmen |
| 1958      | 503 upperclassmen |
| This year | 551 upperclassmen |
