

Student Registers Complaint

Appeal Judgment Delay Criticized

A complaint regarding the length of time to obtain the final judgment of a Student Tribunal case was brought to the Daily Nebraskan last week by a student.

The student, who came before the Tribunal May 13, received the final notice Oct. 14, after several appeals.

He received notification that he was on conduct probation May 23. His case was decided by Dean J. P. Colbert, as the Tribunal split with three voting for conduct probation and three for conduct warning.

He appealed the decision May 28 to the sub-committee on social affairs and activities of the Faculty Senate.

Already informed He was notified by letter June 23 that his appeal had been denied, with the explanation that the committee knew that he had already been informed of the decision through his fraternity president.

The case then went back to the Student Tribunal to be reviewed in the fall. It reviewed the notes and denied the appeal.

The appeal then went back to the committee who referred it back and again denied the appeal.

Curtail Activities

The letter of Oct. 14, notifying that he would have to curtail his participation in activities, said that "the committee had information which reached them from a number of sources that indicated that you still need to consider what it means to act within the laws of the state and of the University."

The sources giving this information were not named in the letter.

Block-Bridle Initiates 5

Block and Bridle Club recently initiated five new members. The formal ceremony was held in Animal Husbandry Hall on Ag campus.

Eligibility for entrance into the club includes a 4.5 average and completion of Animal Husbandry 1.

New Block and Bridle Club initiates are: Lowell Minert, selected as the outstanding initiate; Max Keasling, runner-up in initiation activities; Dan Wehrlein, Daryl Starr and Max Houser.

They were selected by a point system in connection with several activities held during informal initiation.

Quartet Plays On KUON Nov. 6

"The Fine Arts Quartet Plays Beethoven" will be presented Nov. 6 at 7 p.m. over KUON-TV.

The members will combine their talents to present a program of discussion and concert. The selections represent the early, middle and late compositions of Beethoven and illustrate the evolution of his personality.

Cornhusker Will Shoot Rifle Club

Cornhusker pictures will be taken of the Varsity Rifle Club in the M&N Building at 12:30 p.m. Thursday.

Members of the Rifle Club who have ROTC lab from 12-1 p.m. will be excused from lab and from wearing their uniforms, according to Mike Flanigan, public information officer of the club.

TWO WOMEN & ONE MAN

One woman wished him to be less than he was. The other tried to make him more than he was. And he had to choose between them. Redbook Magazine presents Stanley Kauffmann's absorbing new novel, "The Only Place To Be," complete in the November issue.

Also read "Fallout and Your Family's Health," a comprehensive report on radioactivity... its effect upon your future, your children and all of humanity.

LITTLE MAN ON CAMPUS

"ONE CONSOLATION ABOUT TEACHING FRESHMEN— WITH ANY LUCK YOU WON'T HAVE THE SAME GROUP NEXT YEAR."

—Statewide Convention—

Young Demos Planning Active Part in Meet

Young Democrats are planning to take an active part in the Statewide Democratic Convention to be held in Lincoln Nov. 7, according to Don Geis, YD president.

Sen. Hubert Humphrey of Minnesota will be guest speaker for the event.

According to Geis, Young Democrat delegates from throughout the state will hold a meeting of their own during one of the sessions of the convention.

The group also will send a representative to each of the panel discussion groups and will sell subscriptions to the "Democratic Digest."

Other November projects planned by the Young Demos include a campus poll to determine the most popular presidential candidate.

Names to be included in the poll are Sen. Humphrey, Sen. John Kennedy of Massachusetts, Sen. Stuart Symington of Missouri, Senator Lyndon Johnson of Texas and Adlai Stevenson.

These men plus former president Harry Truman and Nebraska State Sen. Nels Jensen, will soon be contacted as tentative speakers for Young Democrat meetings and University convocations.

A membership drive, a fund raising drive, and a door to door survey of Lincoln residents are also in the offing for the Young Democrats. Another project to be undertaken is a panel discussion radio show to be given through the cooperation of the University radio station.

Don't Worry; They're Not Hunting You, Only Insects

Relax! Those little people running across campus with large white nets in hand are not from the psychiatry office.

They are out to "make a catch!" The objects of their weekly searches are insects, spiders, beetles and worms, which often must be brought back alive.

Zoology Students

These hunters are zoology students studying environment and its effects on organisms in Thomas Thorson's ecology class. They make weekly lab field trips to nearby forest, lake and plain areas to observe ecological

communities of plants and animals.

Lab and field experiments often call for live species found in these observation areas. Sweeping the brush with an insect net may seem odd, but it's the best way to obtain these live specimens.

Other unusual equipment used in ecology lab includes army surplus haversacks and trowels which were used both as bayonets and shovels by soldiers during the Custer Indian wars.

Irreplaceable

According to Thorson, the trowels are irreplaceable since they were only used by the army a few years. They must not have been sharp enough for bayonets, he said.

Trips have already been made to a Boy Scout camp southwest of Lincoln and Lake Memphis near Waverly. University cars are furnished to take the students long distances. The labs last four hours.

Civil Service Offers Position

The U.S. Civil Service Commission has announced an examination for safety representatives.

Positions pay from \$4,040 to \$9,890 a year in the Bureau of Mines of the Department of the Interior.

Full details concerning the tests and other requirements are given in civil service announcement No. 213 B.

Applications accepted must be filed with the Executive Secretary, Board of U.S. Civil Service Examiners, Bureau of Mines, Department of the Interior, Washington 25, D.C.

Hours Extended For Play Series

Closing hours for all University women will be extended on evenings of the Broadway play series.

Women will be required to be back at their house or residence hall 15 minutes after the play is over, according to Polly Doering, AWS president.

Goldenrod Stationery Store 215 North 14

Chemists Flee; Wasps Move In

Chemistry majors aren't the only ones who seem to make their home in Avery Lab.

Now, nestled carefully under the windowsills, are several wasps' nests which house hundreds of wasps. Sunny days find these visitors repeatedly disrupting lectures and experiments.

Several students have already reported to Student Health with painful stings.

Takes Times To Polish An Elephant

Have problems cleaning your room and such? Your problems might seem a little smaller after polishing the world's largest fossil elephant in Morrill Hall.

It takes approximately two hours to polish the 50,000-year-old creature. The fossil elephant stands 15 feet high and has nearly 40 ribs plus the rest of its anatomy.

The Museum has its own brand of "furniture polish" to keep the bones of the animal from becoming too dry and cracking.

Besides the elephant, there are nearly two million other items in the museum which need dusting periodically. A dust rag is used for the small varieties of animal life while a vacuum cleaner is used for the larger specimens such as the elephant.

NU To Host High School Journalists

The University will host about 900 high school journalists from schools throughout Nebraska attending the 28th annual convention of the Nebraska High School Press Association on Nov. 6 and 7.

Gov. Ralph Brooks, once editor of his own high school paper, will deliver the major speech at the convention banquet.

James Morrison, assistant professor of Journalism and convention program director, said the convention will give young journalists a good idea of career opportunities in journalism.

Speaker at career clinics will include Floyd Kalber, news director of KMTV, Omaha; Marvin Russell, editor of the "Nebraska Farmer" and Joe R. Seacrest, managing editor of the Lincoln Journal.

The high school writers will compete in 16 editorial, advertising and photographic contests to demonstrate their own skills.

Nature Film On Survival Is Scheduled

"Designs for Survival," the second in a series of five Audubon screen tours, will be presented Friday.

The film, sponsored by the University Extension Division and State Museum, presents the story of how animals adapt to cope with the environmental factors against which they must successfully compete to survive.

Narrator will be William Anderson, professional nature photographer.

The film will be shown in the Love Library auditorium at 4 and 8 p.m.

Geology Frat Initiates Twelve

Alpha Phi chapter of Gamma Theta Upsilon, professional geology fraternity initiated 12 members Oct. 22.

Those initiated were: Donald Ballas, Douglas Bereuter, Roger Barnard, John Chipman, Jerry Docekal, Pierce Hereford, Allan Kolbo, Dean Stoneman, William Stanley, Alex Hoy, David Prokesh, and Goron Norstrom.

During the business meeting, Ronald Nelson was elected vice president. They also planned a field trip in the Lincoln area for Friday afternoon.

Special Show Will Honor KUON-TV

On Nov. 3 and again on Nov. 6 a special program will be given on KUON-TV in observance of the station's fifth anniversary.

The Nov. 3 program will be at 7 p.m. while the second showing will be at 9 p.m.

The program will feature

interviews with key figures in the development of this educational channel tracing the history of the University station.

Already scheduled to be on the program are Byron Dunn, who was trustee for the channel when it was first assigned to the University.

A. James Ebel, representing John Fetzer, the original owner of the station, also will appear on the program.

Night Class Enrollment Shows Gain

Fourteen more persons have enrolled in University evening classes this semester than first semester of last year.

A breakdown of the 1,457 total shows 632 full-time University students and 825 adult students who are not taking other University courses. Of the total, 881 are male and 576 are female students.

This year 55 evening courses are being offered. The 10 courses with the highest enrollment are:

English composition, 90; survey of American history, 75; introduction to sociology, 59; calculus, 52; public school music, 48; modern government, 46; algebra, 44; business organization, 43; marriage and home relationships, 43; and elemental psychology, 39.

Scholarships Go To Two Students

Marlow Anderson and Sam Scheidegger have won \$300 scholarships from Vita Craft Mid-Continent Sales.

Scheidegger won his scholarship as a result of more than \$14,000 in total sales this summer, and Anderson qualified with sales of \$10,000 for the same period of time.

These scholarships are in addition to commissions and allowances earned on those same sales.

Faculty Recital To Be Thursday

The first faculty recital of the season will be presented Thursday at 7:30 p.m. in the Nebraska Union ballroom.

Dr. Thoma Fritz, visiting assistant professor of piano, and Arnold Schastz, instructor in violin, will present the program.

Alumni Buffet Planned For Homecoming

Homecoming activities for alumni will be limited to a luncheon buffet Saturday, according to Arnold Magnuson, executive secretary of the Alumni Association.

Magnuson said that Homecoming is a comparatively "small function" as far as the Association is concerned because of the class reunions and main alumni activities occurring the weekend of graduation in June.

According to Magnuson, class reunions are not held during Homecoming because more alumni come in June.

The buffet luncheon, to be held at the Cornhusker Hotel at 11:30 a.m. Saturday, will have a brief program at which Alan Williams of Scottsbluff, president of the Association, will preside.

The annual luncheon and business meeting for the association board of directors will be held Friday.

In addition to the business meeting on Friday, there will be a dinner and social hour for the board and their wives.

Wildlife Meeting Set Nov. 23-24

The first annual Land, Water and Wildlife Conference will be held at the University Nov. 23-24.

The conference will be sponsored by the department of poultry husbandry and the University Extension Division.

The purpose of the conference is to bring farmers, sportsmen and other interested persons together to discuss some current fish and wildlife problems, according to Prof. Howard Wieggers of the poultry department.

zery donated the station to the University and also gave equipment.

From the campus, George Round and Dr. K. O. Broady, both past chairmen of the television advisory committee, will be interviewed. Chancellor Clifford Hardin also will appear on the program.

For the second half of the 30-minute program, John F. White, president of the National Educational Television and Radio Network, will talk on the future of educational television.

In addition to the interviews, several pictures will be shown depicting the growth and development of the station from when the broadcast came from Channel 10 in Lincoln to its present position.

The week of Nov. 1-7 is anniversary week for the station.

Geography Group Takes 12 Members

Twelve students have been initiated into Alpha Phi chapter of Gamma Theta Upsilon, national professional geography fraternity.

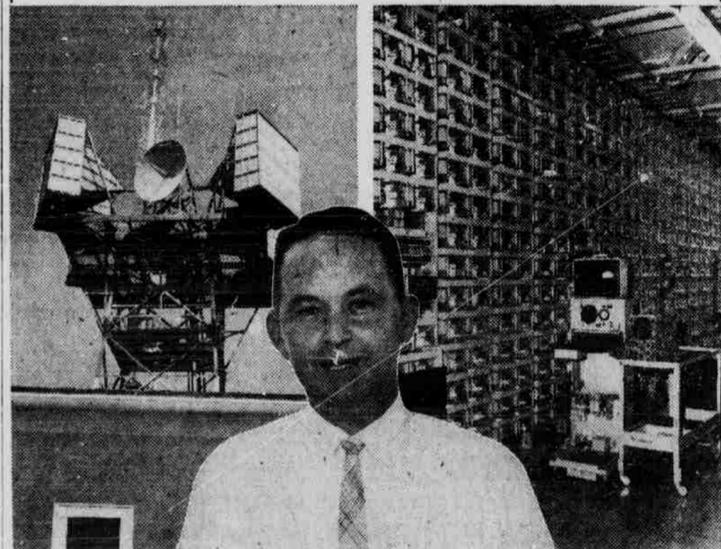

New members are Donald Ballas, Douglas Bereuter, Roger Barnard, John Chipman, Jerry Docekal, Pierce Hereford, Allan Kolbo, Dean Alex Hoy, David Prokesh and Goron Norstrom.

At the initiation ceremony, Ronald Nelson was elected vice president of the organization.

To be eligible for membership, a student must have completed at least six semester hours in geography, provided that the average grade is higher than the median for the college in which he is enrolled and that he has signified his intention of completing 12 semester hours.

A Campus-to-Career Case History

Engineering of microwave relay and carrier systems keeps Bryan Clinton's job interesting and challenging.

"I got the engineering career I wanted ... and right in my own home state"

In 1955, William Bryan Clinton, Jr., got his B.S. in Mechanical Engineering at Clemson College. Now Bryan's with Southern Bell Telephone and Telegraph Company at Columbia, South Carolina. He's doing specific planning of long distance communications projects involving cable carrier facilities and microwave radio relay systems.

Bryan chose a career with Southern Bell over several other offers. "There were three things that were most important to me," he says. "First, I wanted to go with an established, growing company where I could grow, too. Second, I wanted thorough basic training to get started off right, plus participation in development programs to keep me moving ahead. And, third, I wanted to stay in the South."

After 15 months of on-the-job training in various phases of company operations, Bryan was assigned to the Engineering Department at Columbia, S. C. His work with carrier systems and microwave radio projects has involved him directly in the growth of the company. And he's broadened his experience through development courses in management, general engineering, engineering economy, and microwave relay systems.

"I know I'm with a fast-growing company in its growth," Bryan says. "What's more, I'm getting the training I need to keep me abreast of new communications developments and take better advantage of advancement opportunities when they come along."

Bryan Clinton earned a B.S. degree in Mechanical Engineering. He's one of many young college men pursuing rewarding careers with the Bell Telephone Companies. Find out about opportunities for you. Talk with the Bell interviewer when he visits your campus—and read the Bell Telephone booklet on file in your Placement Office.
