

—“Nebraska Rates Tops”—

Vegetables Are Result of Research

“Present day vegetables are the result of many years of plant research study and breeding,” according to Dr. J. C. Walker.

Dr. Walker, noted plant pathologist of the University of Wisconsin, made this statement this week during a visit to Ag campus.

Dr. Walker also termed the ability to double up on nature and develop generations of plants in a few years as one of the greatest aids to research in plant pathology.

In discussing the work being done at the University, Dr. Walker said, “Nebraska rates tops. I have learned as much here as I have given.”

Dr. W. B. Allington, chairman of the University's plant pathology department, told students that one of Dr. Walker's most important contributions to the plant world has been his constant study of the fundamental aspects of how disease works in plants.

Dr. Walker termed the breeding and research on modern day plants as a search for constant information to make them better.

PLANT INSPECTION—Plant experts Dr. W. B. Allington (left) and Dr. J. C. Walker inspect several of the plants at the University department of plant pathology. Dr. Walker visited the College of Agriculture this week. Dr. Allington is chairman of the department.

EM and Physics Colloquia Set

Prof. I. I. Hirschman of Washington University in St. Louis will speak at a mathematics department colloquium Dec. 4.

He will address the group at 3 p.m. in 209 Burnett, speaking on “Variation: Diminishing Transformations Association with Hankel Transforms.”

Prof. Turgut Sarpkaya of the engineering mechanics department will speak Dec. 3 at 4:15 p.m. in Brace Laboratory. He will talk on “Magneto Hydro Dynamics” under the sponsorship of the physics department.

Sen. Humphrey May Visit Here

United States Sen. Hubert H. Humphrey has given a possible acceptance to a recent invitation from the University Young Democrats to visit the campus.

Sen. Humphrey wrote that he would ask Lt. Governor Karl Rolvaag of Minnesota, who is helping him with his Midwest schedule, to investigate possible dates for a speaking engagement.

“Brother—they ought to put that one in jail!”

Why all the carelessness, bad manners, outright law breaking? Because someone's in a hurry or just isn't thinking? Pretty silly reasons for flirring with death. Nearly 40,000 died last year in traffic accidents, many because good drivers drove recklessly just once. Keep your head!

Help stop senseless killing. Drive safely. Insist on strict law enforcement. Support your local Safety Council. Where traffic laws are strictly enforced, deaths go down.

Sears-Roebuck Grant Winners Are Announced

Twenty-five Ag College students were guests of the Sears-Roebuck Foundation at a dinner last week at the Cornhusker Hotel.

They were this year's recipients of the Sears-Roebuck scholarships. The amount of the scholarships is \$100 for freshmen women, \$200 for freshmen men and \$250 for the sophomore winner.

The sophomore award is given to the student from the men's group who receives the highest grades during his freshman year.

Mead Rogers, representing the Sears-Roebuck Foundation, presented each winner with a certificate. Freshmen winners were Sherry Bergh, Jane Fauquet, Beverly Gray, Nona Jacobitz, Marilyn Polard, Sharon Stevens, Connie Vavra, Sandra Weiher, John Anderson, Arlo Biere, Donald Blecha and Thomas Corkle.

Donald Ehlers, Jesse Felker, Paul Imm, James Jackson, Dean Jacobs, Edward Janssen, Gary Jordan, David McClatchey, Ronald Ringland, Richard Slemmons, Rudolph Svoboda and Roger Wilshusen.

John Zauha was the sophomore winner.

These awards are based on high school scholarship, high school activities and need. In order to receive the second payment, the student must maintain a 5.5 average during the first semester with no delinquency. He must be enrolled in the College of Agriculture and must take a science course and a credit course in English each semester.

Ag-Business Needs Push

The director of the University of Missouri Agricultural Extension Service says the AES should put more emphasis on working with the agri-business firms which service agriculture.

Dr. C. B. Ratchford made this comment at the 45th annual Ag Extension Service Conference at the University last week.

“Agri-business includes those firms that provide farm supplies as well as those that market agricultural products,” he said.

“Over the nation,” he added, “two million agri-business firms employ 24 million people adding \$75 billion to the economy.”

“If Extension is to work effectively with agri-business, the problem solving approach must be used. In addition, work must be done with persons actually employed in agri-business firms,” Dr. Ratchford said.

It's A Pipe Of A Contest

All college student pipe smokers will have a chance to win a scholarship.

The contest based on unusual experiences with a pipe or pipe smokers is being sponsored by the Pipe and Tobacco Council. In addition to the scholarship, the Council revealed that an additional 25 prizes will be awarded to runnersup.

The council prefers one paragraph applications including the smoking “experience.” They should be mailed directly to the Pipe and Tobacco Council, 35 West 53rd St., New York 19, N. Y.

LITTLE MAN ON CAMPUS

Contest Opens For Scholarship In Radio or TV

Entries now are being accepted for a \$1,000 scholarship open to women students in radio and television.

Sponsored by American Women in Radio and Television, Inc., the contest closes Feb. 1. The award must be used for academic study in radio and television, or for necessary expenses incurred in on-the-job training.

Applications may be obtained from the University or from American Women in Radio and Television, Inc., 75 East 55th St., New York 22, N. Y.

In addition to the cash award, the winner will receive an expense-paid trip to the annual convention of women in radio and television in Cleveland, O., May 5-8.

Competition for the scholarship is limited to junior women.

Girls Seek Enrollment At A&M

Three Bryan, Texas girls are trying to get admitted to Texas A&M University. The girls contend the courses they seek are offered at no other state institution in Texas.

Also, the three women are seeking to open A&M to females generally.

In 1958 two other women were defeated in their attempt to gain admission to the college. Their case, which did not attempt to open the college to women in general, was defeated after reaching the Texas Supreme Court.

The attorney for the girls, John M. Barron of Bryan, expressed hope that the case would take a speedy trip through the state courts and into the U.S. Supreme Court.

The three young women are seeking degrees in floriculture, entomology and biology, and architecture.

NYU Plans European Sessions

A summer session in Europe, which will offer a diversified group of courses to American and European students for graduate or undergraduate credit, has been organized by New York University.

American and European professors will teach eight courses from July 11 through Aug. 19 at the University of Leiden.

Course subjects are “The Theory of Comparative Literature,” “The Modern European Drama,” “Trends of European Thought Since 1918,” “Seventeenth-Century European Art,” “The European Common Market, Its Politics and Economics,” “Indonesian (Intensive Course),” “Secondary Education for Democracy” and “The Effective High School and Current Criticisms.”

The language of instruction is English.

Minimum cost for student transportation, student room and meals and tuition for one three-credit course is estimated at \$650.

Requests for applications and further information may be had by writing Dr. Seymour L. Flaxman, director, New York University Summer Session in Europe, University College of Arts and Sciences, New York University, Bronx 53, N. Y.
