Burton Letter Text

Following is an abbreviated text of the letter submitted by Herbert Burton, general manager of radio station KFMQ, to the Board of Regents, criticizing the purchasing practices of the University. The letter was dated Oct. 24.

"I would like to call your attention to a matater which has caused me great concern. It is with regard to the matter in which the Purchasing Departmemnt of the Uninversity conducts its buying of services or products. It is my opinion that as a result of an experience I've just had, that a little soul searching might be in order. I would like to suggest that the letting of small bids might be handled in conformity with standard practices . . . Here is what has happened in my situation;

"Radio KFMQ is a broadcasting station whose purpose and policy is to provide as much service as possible to the community. In order to do this it is necessary for us to search out another source of income. We have chosen to provide background music to stores and institutions for a monthly fee as the source of income.

"Recently I received a phone call from Mr. (Eugene) Ingram of your Purchasing Department. He asked me to send him or Al Bennett (managing director) of the Student Union. a bid or proposal for Background Music (sic) to be broadcast into the Student Union. He told me he had already received a bid from Muzak and would like to get one from us

"I brought my bid or proposal addressed to Al Bennett, and brought a copy to Mr. Ingram's office. Our bid was \$45.00 plus federal tax, at which time I was informed the Muzak proposal called for a substantially higher rate. After a week had passed, I spoke to Mr. Ingram and he informed me that Muzak had reduced their bid to \$49 plus federal tax-for FM Broadcast (sic) music.

"But they also offered about \$500 worth of advertising over their bid which he felt warranted the contract going to them. We at KFMQ have given the U of N (sic) over \$1.000 in air time at no cost and felt we did it as a public service, and it didn't occur to usto send the U of N a bill.

'This service we feel is the responsibility of all radio stations and furthermore we are totally unable to conceive of the nature of commercial enterprise conducted by the Student Union which necessitates paid advertising! (sic) Also, if Mr. Ingram had told us it was to include advertising we would have told him we would do as we had in the past, give it to the U of N as a public service.

"We can assume only that the Student Union was not interested in getting the lowest and best bid for the service, on the contrary I feel that the management was simply us-Contestants include: Verna ing the KFMQ-Sonics proposal as a target for "bait bid" with the intention at all times of preferring its competitor. Either pha Omicron Pi; Lou Ann situation I thhink to be equally reprehensible,

."I expect and anticipate that hereafter the statutory procedure for bidding by public contract will be followed.

Very truly yours, Herbert W. Burton General Manager Radio Station KFMQ
