

NU To Face Buffs On TV

By Hal Brown
Saturday's game with Colorado at Boulder will be the first TV appearance of the season for Jerry Bush's Nebraska cagers. The afternoon game will be televised regionally.
It will also be a revenge match as far as the Husker:

are concerned as they will be out to avenge a defeat suffered at the hands of the Buffs in the first round of the Big Eight pre-season tourney.
The Buffaloes fortunes rest to a considerable extent on the shoulders of their sophomores. Nine of the 15 members of the Colorado roster are sophomores.

Among the top sophomore on the Colorado squad are Grayal Gilkey, Maurice (Wilky) Gilmore, Wayne Millies and Roger Voss. Each of the above quartet stands 6-4 or better with Voss being the tallest at 6-7.
Gilkey is a 6-4, 181-pounder from Aurora, Ill. He is considered to be a good shooter

with an intense desire to play ball. He was an all-conference forward in high school.
Gilmore, who stands 6-5 and weighs 206 pounds, hails from New Canaan, Conn. where he was an all-state performer on a state championship quintet. He can play outside, in the corner or in the post for Sox Walseth.
Millies is a rugged rebounder at 6-4 and 214 pounds. He was an all-city center at York high in Chicago but will play forward for the Buffs. He was also a high jumper and sprinter in high school.
Voss at 6-7 and 212 pounds is one of the biggest men on the Colorado squad. He was a three-sport star at Austin, Minn. High School starring in basketball, football and track. Voss was coached in high school by Ove Verven, who discovered Burdette Halldorson, Colorado's greatest scorer.

THE BIG STRETCH—Al Maxey (20) of Nebraska and Kansas' Bob Hickman (20) and Dee Ketchum (3) reach for the ball with Maxey in control during action in the Kansas-Nebraska basketball game. Number 42 is Jim Kowalke of Nebraska and number 54 is the Huskers' Bob Harry. Kansas won the game 60-47.

NEBRASKAN SPORTS

WRESTLING ACTION — Wayne Reeves, 137-pound Husker grappler, forces Mankato State's John Lindeman to the canvas during their match last Friday night. Reeves will be in action against Minnesota and Iowa State Teachers this weekend. Lindeman won a 7-5 decision over the Nebraska sophomore.

Third Place
Sox Walseth, beginning his fourth year at the Buffalo helm, has four returning lettermen from last year's team which finished in a tie for third place in the Big Eight with an 8-6 record. The Buffs had a 14-10 overall mark.
Returning lettermen are Frank Javernick, Billy Lewis, Russ Lind and Glen Piper. Javernick, Lewis and Lind are seniors, Piper is a junior.
Lind is the only returning regular although Lewis started a few games. Lind is a 6-1 guard and was third leading scorer on last year's team with 243 points for a 10.1 points per game average.
Lewis was the team's fifth leading scorer with a 5.9 average and was the fourth leading rebounder with 93.
Colorado and Nebraska have met 34 times since the series began in 1903. The Buffs have won 18 while Nebraska has come out on top in 16 contests.

Titles Are 'Old Stuff' To Jim Frank

nothing new to Jim Frank, Nebraska diver.
The sophomore diver on Dick Klaas' swimming team was state diving champion two years (1957-'58) as a member of the Lincoln Southeast team. He was also selected to the high school all-american swimming team both those years.
The 5-11 1/2, 145-pounder lettered three years in swimming and twice in baseball at Southeast. He was a second baseman on the 1958 state baseball championship. Frank's team defeated Lincoln Northeast 4-2 in a 14-

inning game to capture the crown.
He lists winning the state diving title two years in succession and playing on the state championship baseball team as his two greatest sports thrills.
Frank is majoring in Dentistry and works as a life-guard in Lincoln during the summer months.
He finished third in Diving in Saturday's dual match against the Kansas Jayhawks.

Senior Captains Form Backbone Of 1959 Nebraska Tankers

By Dave Woharth
The captains of the Husker swimming team this year are Frank Tomson and Ron Bucklin. These two finners were instrumental in Nebraska's opening win over Kansas State, 61-33, Dec. 17.
Varsity Record
Tomson swims the 200-yard backstroke plus being a member of the 400-yard medley relay team. His best time in the backstroke is 2:21.8, the varsity record which he set against Grinnell last year. He also turned in a 2:24.2 to set a dual meet record at Kansas last year.
Tomson, an Omaha Benson product, took first in the backstroke against K-State with a time of 2:26.9 and swam on the 1st place medley relay team.
The 5'10", 21-year old veteran is a Business Administration student, secretary-treasurer of the N Club, vice president of Phi Delta Theta Theta fraternity, a finalist for Prince Kosmet, former AUF officer and a member of Beta Gamma Sigma, Biz Ad Scholastic fraternity.
Tomson, who currently has a 7.3 overall average, plans

to be married in June.
He feels that "the Husker first men are ahead of last year's pace, but the Husker swimmers lack depth. We should finish 4th in the Big 8."
The other Nebraska captain, Ron Bucklin, had a busy day when the Huskers topped K-State. He swam on the winning 400-yard medley relay team, and took 2nd in the 200-yard breaststroke.
Earlier he had won the 200-yard individual medley but was disqualified. Besides these events Bucklin also swims the 200-yard butterfly and 100-yard freestyle when he is needed.
"Buck" thinks that Nebraska should knock off Colorado and Kansas State. He predicts a 3rd or 4th place finish for the Husker tankmen in the conference.
Top Thrill
The 21-year old, 6-0 grad of Lincoln Northeast recalls his top thrill at Nebraska as a sophomore when he won two events against Colorado State in the opening meet. Bucklin is married and has one son. He is a member of the N Club and Beta Theta Pi fraternity and is enrolled in Business Administration. Besides sports he is also in-

terested in art.
In high school he lettered three times in swimming and once in football. He was Midwest AAU Champion in the 200-yard breaststroke and runner-up in the Junior National AAU Meet in the 220-yard breaststroke in 1957.
Buck's best times include a 2:28 in the individual medley, a 2:40.0 in the breaststroke, a 2:33.5 in the butterfly and a :58.5 in the freestyle.
Fashion School Offers Grants
Tobe-Coburn School for Fashion Careers in New York City has announced that up to four fashion fellowships will be awarded this year to senior college women.
Each fellowship covers the full tuition of \$1,350 for the one-year course.
Graduates of the school hold jobs in buying, advertising, styling, radio and television, and magazine editorial work.
Senior women may secure registration blanks from the Fashion Fellowship Secretary, Tobe-Coburn School for Fashion Careers, 851 Madison Avenue, New York 21, New York. Registration closes Jan. 27th.

Dick Ernsdorff studies a microwave site-layout chart atop a mountain near Orting, in western Washington state. On assignments like this, he often carries \$25,000 worth of equipment with him.

Here, Dick checks line-of-sight with a distant repeater station by mirror-flashing and confirms reception by portable radio. Using this technique, reflections of the sun's rays can be seen as far as 50 miles.

He wears two kinds of work togs

For engineer Richard A. Ernsdorff, the "uniform of the day" changes frequently. A Monday might find him in a checkered wool shirt on a Washington or Idaho mountain top. Wednesday could be a collar-and-tie day.
Dick is a transmission engineer with the Pacific Telephone and Telegraph Company in Seattle, Washington. He joined the company in June, 1956, after getting his B.S.E.E. degree from Washington State University. "I wanted to work in Washington," he says, "with an established, growing company where I could find a variety of engineering opportunities and could use some imagination in my work."
Dick spent 2 1/2 years in rotational, on-the-job training, doing power and equipment engineering and "learning the business." Since April, 1959, he has worked with microwave radio relay systems in the Washington-Idaho area.
When Dick breaks out his checkered shirt, he's headed for the mountains. He makes field studies involving micro-

wave systems and SAGE radars and trouble-shoots any problem that arises. He also engineers "radar remoting" facilities which provide a vital communications link between radar sites and Air Force Operations.
A current assignment is a new 11,000 mc radio route from central Washington into Canada, utilizing reflectors on mountains and repeaters (amplifiers) in valleys. It's a million-dollar-plus project.
"I don't know where an engineer could find more interesting work," says Dick.
* * *
You might also find an interesting, rewarding career with the Bell Telephone Companies. See the Bell interviewer when he visits your campus.
BELL TELEPHONE COMPANIES

Dick stops by the East Central Office building in Seattle to look at some microwave terminating equipment. It's involved in a 4000 megacycle radio relay system between Seattle and Portland, Oregon.

In the Engineering Lab in downtown Seattle, Dick calibrates and aligns transmitting and receiving equipment prior to making a path-loss test of microwave circuits between Orting and Seattle.

Holstrom Tops Series, Game Marks

Stradler's 210 First In Women's Bowl
Ralph Holstrom topped the Student Union Men's League last week with the highest series and game bowled in leagues this year.
His series was a 638 with a high game of 255. Holstrom is a member of the Big Eight bowling team sponsored by the Union. In women's leagues, Connie Stradler bowled the high game of 210, and the high series of 460.
