

Determination Helps To Net Job

... Miss Jodais Employed in 'Man's' Field

Some girls work part time as secretaries while in college. Others work as typists, clerks or waitresses.

But when a girl doesn't know typing or shorthand and has become thoroughly tired of working in restaurants, she has to use a combination of determination and luck to get a job that is satisfying to her.

Such a girl is Velta Jodais, junior in Teachers College, majoring in art.

When she was looking for a summer job after her first year at the University she heard of a job opening with the Soil Conservation Service that she wanted very much. But it was a drafting job, not usually filled by women. And Miss Jodais knew very

little about drafting.

But because she was so determined to get the job, she applied and had a friend teach her the night before the application test what a ruling pen was and how to use it.

Dam Building

During the test she was "quite nervous" but did well enough to get the job. Her first week on the job was spent reading books that explained the building of dams.

The books didn't mean much to Miss Jodais and were rather confusing. She did understand a few of the structural terms because of a few introductory courses to architecture she had taken.

She said she feels her many math courses in high school helped her get the job as did the courses that she had taken in art and architecture. But she had never made an inked engineering drawing in her life.

Language Difficulty

The same determination that drove her to apply and get a job that she really wanted has helped Miss Jodais progress from the day she entered the sixth grade at York, able to speak very little English.

She had studied only one semester of English before coming to the United States as an immigrant. She was born in Latvia and left there for Germany when she was six. Miss Jodais arrived with her family in the United States 10 years ago and moved to York where her father was employed on a farm.

She later moved to Lincoln and enrolled in the 10th grade in Lincoln High. Her father is working now as a carpenter for the University.

Enjoyable Job

She said she thoroughly enjoys her job as a draftsman at which she works part-time during school and full-time during the summer.

"I get a satisfaction out of working toward a goal by seeing something form with my hands that someday will emerge as a substantial, worthwhile and lasting thing," she said.

Management Homes Give Experience

Various areas of home economics and other fields must be studied by a University student before she may reside at one of the home management houses.

The houses are located at 1600 R and 3220 Starr Sts.

Prerequisites for the home management course include the following classes: foods, interior decoration, design, housing and equipment, psychology and child development.

Girls live in each house for four weeks. One house has modern equipment, while the other is more conventional. The two houses also have budgets related to high and low incomes.

Various household jobs are rotated in each house. The duties include those of: cook, assistant cook, launderer, assistant launderer, second floor housekeeper, first floor housekeeper and hostess.

In addition to these duties, the girls must complete readings and a project on work simplification, according to Nancy Beall.

LITTLE MAN ON CAMPUS

"WELL, LOOKS LIKE HE'S FINALLY GOT THAT 'POP QUIZ' GRADED & READY TO HAND BACK."

NU 'Stores' Furnishes Pencils, Ink

Red pencils, paper, ink. How do the instructors get their supplies?

They come from a campus "store" called West Stadium. The section which supplies clerical materials is a Stationery Store and another store furnishes other commonly needed supplies at the University. Then there is a Photo Lab where photos are reproduced for University organizations.

The supplies are in West Stadium, but does the instructor go in and buy just as if it were a downtown store?

Not generally. Most times the departmental secretary orders in large lots and keeps supplies in the office. They are given to instructors when they need them.

The secretary writes a requisition (order form) signed by herself and the head of the department. This is sent through campus mail and in a day or two a deliveryman from West Stadium brings the needed supplies.

They are then credited on the departmental bill in the Comptroller's Office and subtracted from the total money allowed for the department's use.

Furnishing supplies for the University campus is a big job and West Stadium does a thriving business.

Postman Brings Goodies To Residence Hall Coeds

Six days a week 541 coeds skip down to the front office of the Residence Halls For Women for a quick peek at the mailboxes.

"The mail comes in big regular mail sacks. About 9:30 a.m. Monday through Thursday the mail carrier dumps it out in that trough over there," said Mrs. Grey Cone, pointing to a huge wooden trough near the back of the office.

Big Bundles

Mrs. Cone, who distributes the mail, is in charge of the front office at the dorm.

"Letters come in bundles tightly tied with twine," she explained.

Mrs. Cone said that there are approximately 100 letters per bundle.

"The letters are sorted according to room number and hall," Mrs. Cone continued.

Several Deliveries

"The girl who is on the switchboard at 10 a.m. marks newspapers and magazines for distribution," Mrs. Cone added.

She said that two or three special deliveries come each day.

"Wednesday, Thursday and Friday are our heaviest days for mail. Some girls get as many as eight or nine letters a day," Mrs. Cone estimated.

She said that the postman picks up the outgoing mail as he leaves.

"Of course there is a separate university postman who delivers campus mail. We receive campus mail twice a day, once in the morning and once in the afternoon," Mrs. Cone explained.

"Regular parcel post packages are delivered at 11:30 a.m. Then the girls sign slips to pick up their packages," Mrs. Cone said.

Releases Sent Preps By Builders

"To help high school students understand the importance of further education is the purpose of Builders new press release service," according to Larry Kilstrup, new Builders president and former publicity committee chairman.

The press release service was started to, in addition to the above, familiarize Nebraska high school students with college life and the University's (1) service and educational opportunities, (2) activities, both on the collegiate and high school level, (3) social life and (4) daily news events.

The service will be printed by the University in a newsletter form and mailed directly to the high school newspapers once or twice monthly.

High school editors may use the material either directly as released, under a special "college news" column head or rewritten in any matter.

Articles are written for the service by members of the publicity committee and edited and compiled by a special sub-committee headed by Journalism School students Ginger Frazier and Don Ferguson.

Union Library Lends Paintings

Originals in oil and water colors will be available this semester as well as prints from the lending library of art works in the Student Union.

The originals will have a rental fee of \$1 a semester while the prints are rent free.

Students may obtain the pictures Feb. 8-10 by showing their student identification cards.

The library headquarters will be on the ground floor of the Union.

Main Feature Clock

Stuart: "Never So Few," 1:40, 4:20, 7:00, 9:40.

Lincoln: "Operation Petticoat," 1:45, 4:20, 6:50, 9:25.

Nebraska: "Alexander The Great," 1:00, 3:03, 9:06. "I'd Climb The Highest Mountain," 3:24, 7:27.

Jays: "Joe Butterfly," 7:50. "Third Man on the Mountain," 6:00, 9:20.

Varsity: "The Miracle," 1:32, 4:11, 6:50, 9:29.

State: "The Mouse Roared," 1:34, 3:33, 5:32, 7:31, 9:30.

Auto Safety 'Shock' Film Gains Fame

A film designed to shock automobile drivers distributed by the Nebraska State Medical Association in Lincoln is achieving national prominence in the field of automobile safety education.

The film entitled "Gravity of Death" came about because of the popularity of a talk given by Dr. Ralph Moore, professor of radiology and graduate of the University College of Medicine, and the late Dr. Charles Marsh, also a graduate of the University Medical College.

The 26-minute color film was produced for the express purpose of shocking the automobile driver into understanding what can happen to the human body under various speed conditions when accidents occur.

Many requests have been made to view the film.

Economist To Take Eastern Trip

University professor and economist Dr. Everett E. Peterson is being selected to make a market development survey of Far Eastern countries by the U.S. Department of Agriculture.

He will spend six weeks in Pakistan, India, Thailand, Indonesia, Australia, the Philippines and Japan.

Dr. Peterson said his interest in the trip is to better understand the problems of modern export marketing and the impact of surplus disposal on the economy of the underdeveloped areas of the world.

He has been doing research and teaching in agricultural economics at the University since 1953.

Dr. Peterson also is helping to spearhead the "Great Decisions" program aimed at educating and informing the Nebraska citizen and to aid foreign policy officials.

Sigma Xi Lecture

"Iron Metabolism in Pregnancy" will be discussed by Dr. Roy Holly, professor and chairman of the department of obstetrics, at the Sigma Xi lecture at 7:30 tonight.

The lecture will be held in Bessey Hall Auditorium.

The Captain's SALE is still going strong.

Do You Think for Yourself?

(BUZZ THIS QUIZ AND SEE WHERE YOU LAND!)

"A little learning is a dangerous thing" means (A) it's better to leave your mind alone; (B) people who act on half-knowledge often make mistakes; (C) beware of sophomores. A B C

"Never look a gift horse in the mouth" is good advice because (A) he'll bite; (B) even if his teeth show he's old, what can you do about it? (C) there's nothing in there anyway. A B C

Assuming the starting salary is the same, would you rather have (A) a job with an assured income for life, but with no chance to increase it? (B) a job where you'll always be paid according to your abilities? (C) a job where you have to advance rapidly or be fired? A B C

"The finer the filter strands, the finer the filter action" is a way of saying (A) don't use chicken wire in a window screen; (B) Viceroy gives you finest filter action because it has the finest filter strands; (C) the finer the filters, the finer the smoking. A B C

When you depend on judgment, not chance, in your choice of cigarettes, you're apt to be a Viceroy smoker. You

The Men Who Think for Himself Knows— ONLY VICEROY HAS A THINKING MAN'S FILTER...A SMOKING MAN'S TASTE!
