

For the Week of March 21-27

- MONDAY:**  
 CITY YWCA, cabinet meeting, 4 p.m., 232 Union.  
 MU EPSILON NU, luncheon meeting, 12 noon, 415 Administration.  
 LAW ENFORCEMENT SEMINAR, registration, 8:45 a.m.; meetings, 10:30 a.m., 1:30 p.m., Little Auditorium, Union.  
 PLANT SEMINAR, Dr. H. A. Borthwick, 4 p.m., 217 Bessey.
- TUESDAY:**  
 RELIGION STUDY GROUP, communism, 4 p.m., 232 Burnett.  
 LAW ENFORCEMENT SEMINAR, meetings, 8:45 a.m., 7 p.m., Little Auditorium, Union.  
 PLANT SEMINAR, Dr. Borthwick, 4 p.m., auditorium, Biochemistry Bldg.  
 ART GALLERIES TOUR, Tom Schmitt, director, 8 p.m., second floor, Morrill Hall.  
 AG YMCA-YWCA, cabinet meeting, 6:30 p.m., Food and Nutrition Bldg.  
 AG YMCA-YWCA, program meeting, 7:15 p.m., Food and Nutrition Bldg.
- WEDNESDAY:**  
 RELIGION STUDY GROUP, racial tensions, 5 p.m., Presby House.  
 CITY YWCA, community service, 4 p.m., 341 Union.  
 CITY YWCA, religion group, 5 p.m., 232 Union.  
 STUDENT COUNCIL, meeting, 4 p.m., Union.  
 LAW ENFORCEMENT SEMINAR, meetings, 8:45 a.m., 7 p.m., Little Auditorium, Union.  
 AG EXEC BOARD, meeting, 7:15 p.m., Ag Union.
- THURSDAY:**  
 PSYCHOLOGY SYMPOSIUM, Dr. David Radaport, Dr. Fritz Heider and Dr. Robert White, 9:30 a.m. and 2 p.m., 332 Union.  
 LAW ENFORCEMENT SEMINAR, meetings, 8:45 a.m., 10:15 a.m., 11:15 a.m., Little Auditorium, Union.  
 PHYSICS COLLOQUIUM, Dr. Gordon A. Gallup, 4:15 p.m., tea 3:45 p.m., 211 Brace Laboratory.  
 CITY YWCA, projects, 4 p.m., 334 Union.  
 CITY YWCA, world community, 5 p.m., 340 Union.  
 CITY YWCA, love and marriage, 5 p.m., 334 Union.  
 RELIGION STUDY GROUP, politics and evangelism, 2 p.m., Cotner School of Religion.  
 FACULTY CONCERT, Leon Lishner, vocalist, 7:30 p.m., ballroom, Union.  
 AQUAQUETTES, "Pacific Cruise," 7:45 p.m., Coliseum pool.  
 BLOCK AND BRIDLE, meeting, 7:30 p.m., Ag Union.  
 AGRONOMY CLUB, meeting, 7:30 p.m., 307 Keim Hall.
- FRIDAY:**  
 PSYCHOLOGY SYMPOSIUM, Drs. Radaport, Heider and White, 9:30 a.m., 2 p.m., 232 Union.  
 LAW SCHOOL CONVOCATION, Dean Roscoe Pound, 11 a.m., Law College, luncheon, 12 noon, Indian Suite, Union.  
 NEWS PANEL CONVOCATION, featuring William McGaffin, 2:30 p.m., Little Auditorium, Union.  
 PI MU EPSILON, business meeting, 3 p.m., room number not yet known.  
 AQUAQUETTES, "Pacific Cruise," 7:45 p.m., Coliseum pool.  
 LAW ENFORCEMENT SEMINAR, meetings, 10:15 a.m., 11:15 a.m., Little Auditorium, Union.  
 KOSMET KLUB, spring show, "Pajama Game," 8 p.m., Pershing Auditorium.  
 SIGMA DELTA CHI, spring banquet, 5:30 p.m., Cornhusker Hotel.  
 RELIGION STUDY GROUP, militant non-Christian faiths, 4 p.m., Episcopal Chapel.
- SATURDAY:**  
 KOSMET KLUB, spring show, "Pajama Game," 8 p.m., Pershing Auditorium.  
 HIGH SCHOOL PLAY DAY, 9 a.m. to 3:30 p.m., Grant Memorial Hall.  
 MU EPSILON NU, banquet, 7 p.m., Cotner Terrace.
- SUNDAY:**  
 RELIGION STUDY GROUP, Bible, 7:30 p.m., Lutheran Student House.  
 POT LUCK DINNER, Student-Faculty, 5:30 p.m., Ag Union.

### Slip of Tongue Has Clergy Give

(ACP)—From the Collegian of Kansas State University: In an English Literature class recently, students were discussing Chaucer's England. The professor explained that at that time there were three groups of people —

clergy, laity and aristocracy. Each group was about one-third of the total population. One coed, obviously impressed by this, gasped, "I certainly didn't realize the clergy 'compromised' one-third of the people."

### Booth Is Up For Yellers

A booth is open outside the Crib today and tomorrow for freshmen who wish to sign up for cheerleader. Two women and three men will be chosen for next year's squad.

Practice sessions for applicants will be held March 24, 28 and 29 in the Coliseum beginning at 4:30 p.m. Tryouts will be held at 7:30 p.m. March 30 in the Coliseum. All applicants must have a 4.5 average.

### Camp Jobs Available For Summer

Applications are now available for summer co-op recreation camps for people interested in club or community leadership.

The three sessions of the camp for students, ages 17-21, will be held in June at William Jewell College, Liberty, Mo.

Information on the function of co-operatives in business and service will be given along with instruction in leading recreation for clubs and communities.

Applications will be accepted until April 20 in the 4-H office in Ag Hall. At that time the 4-H executive board will consider the applications and select the representative from the University.

Information can be obtained from the 4-H office or from Wes Grady at LN 6-2436.

### Dr. Hiskey Heads Child Federation

Dr. Marshall S. Hiskey, University of Nebraska educational psychologist, has been elected president of the newly formed State Federation of Exceptional Children Councils.

Dr. Hiskey, who is also the Nebraska membership and promotions chairman, was elected following the introduction of two new chapters in Nebraska.

A state conference on exceptional children is being planned by the new federation for June. The needs of exceptional children, new legislation and the certification of teachers in the area of special legislation will be discussed.

## Alpha, Beta, Gamma Rays Dusted Away With Paper

Know the ABG's of radioactivity!

Keeping tabs on Alpha, Beta and Gamma rays is a task which keeps Ed Simpson, University public health engineer, busier than a geiger counter in a pile of uranium.

**Radiological Health**  
 Simpson is in charge of the University's radiological health program and is responsible for seeing that the researchers working with radioactive materials do not absorb harmful amounts of radiation — namely Alpha and Beta particles and Gamma rays.

Director of 13 different laboratories on the three University campuses which use radioactive materials, Simpson has his own method for checking radiation.

Simpson's method is similar to that which a housewife might use in her living room with one important exception — the dust is checked in a \$1,300 Internal Proportional Counter before going in the garbage can.

Circular pieces of filter paper serve as Simpson's dust cloth, which he uses to wipe the tops of lab tables. The particles collected are put in the counter which tells him whether the radioactive atoms on the "dust cloth" are throwing off a dangerous number of particles.

**Alpha Particles**  
 If the lab particles are found to contain radioactive material emitting more than 15 Alpha particles per minute in an area about as big as the palm of your hand, the lab is closed and scrubbed with water.

One of the problems which Simpson has faced was how to safely dispose of radioactive lab materials such as broken glass, specimens used in experiments and other equipment.

This problem was finally solved, said Simpson. A small concrete-block structure was built on the Ag campus which serves as the University's "garbage can" in which all radioactive waste is stored until it loses its radioactivity.

Some radioactive materials such as gold need to be

GET SET — Ed Simpson, University public health engineer, sets his Internal Proportional Counter for measuring radioactivity contained in dust from a University laboratory.

kept in the block house only about 20 days while Strontium 90, must be kept in the house for 200 years.

**Badge System**  
 In addition to monitoring the laboratories, Simpson also maintains a film badge system for measuring radiation amounts to which each researcher is exposed during a two-week period.

### Marriage Course Begun In Japan

(ACP)—The Asia Student, published by the Asia Foundation as a service to Asian students in the United States, reports that a school for Japanese prospective bridegrooms has been opened in Tokyo. The two-month course is free.

The Metropolitan Government opened the school in view of many complaints from Japanese women that their husbands were too "bossy."

Classes are held twice a week. Subjects taught include political economy, law literature, housekeeping and elementary medicine.

## Nat'l Science Foundation Awards 15

National Science Foundation graduate fellowships amounting to \$30,000 have been awarded to 15 University students.

Those receiving direct scholarships from the Foundation for the 1960-61 school year are: Alfred Witte, Robert Allington, Donald McArthur, Eldon Shuey and John Anderson.

All but Anderson will continue their studies at the University. Anderson plans to study at Harvard.

Those receiving summer fellowships are Paul Dussere, Charles Heuer, William McCrady and Robert Zey.

Those receiving cooperative fellowships by the Foundation and University are Marlin Bolen, Mildred Goss, Wayne Lang, John Park, James Swanson and Allan Vennix.

## Slam Foregone For Food's Sake

(ACP)—There are hazards to teaching in a woman's university reports the Daily Lass-O of Texas Woman's University. Take the case of Dr. Richard Hargrove, whose wife is enrolled in one of his classes.

Mrs. Hargrove, late to his lecture one morning, entered the classroom saying, "Honestly, the car wouldn't start." Giving her a skeptical glance, Dr. Hargrove remarked, "I could make a terrific slam, but I like to eat too much."

## The most difficult puzzle in the world

### Do you have a solution?

In high school, you may have thought you had the solution, only to have it vanish. In college, it may seem well within your grasp, only to vanish again. But this is not unusual. It's a very difficult puzzle.

The puzzle? How to find your life's work. The solution? It comes only with searching. It may be right under your nose or it may still be far away in the future.

But the solution will come. You will very probably find it in the work you undertake after college.

This has proved true many times at IBM. For instance, young engineers and scientists — after learning the scope of IBM activities in research, development and manufacturing — have found their interests leading them into such vital growth fields as microwaves, circuit design, solid state physics, magnetics and manufacturing research. Depending on individual talents and inclinations, a college graduate may acquire skills at IBM that lead to a variety of careers.

When a person is able to move into areas where his true interests lie, and when he has many areas to choose from, it will certainly be easier for him to find his life's work.

After all, it's easier to find the solution to The Most Difficult Puzzle in the World when you have access to all the clues.

You are invited to investigate opportunities in Research, Development, Manufacturing, Programming, and other fields. Your Placement Director can tell you when our representatives will next visit your campus. Or you may write to: Manager of Technical Employment, Dept. 873, IBM Corporation, 380 Madison Avenue, New York 22, N. Y.

Men who face wind and weather

choose the protection of...

**Old Spice**  
 AFTER SHAVE  
 LOTION

Skin protection, that is, Old Spice refreshes and stimulates, guards against the loss of vital skin moisture. Feels great, too. Brisk, bracing, with that tangy Old Spice scent. It does seem to attract female admirers, but what red-blooded man needs protection against girls? 100 fl. oz.
