

Outstanding Quad Men Sought Out

Selleck Quadrangle outstanding individual nominations are now being received. Any member of Selleck may be nominated. Of these nominations, the Activities Council will narrow the candidates to 12 and a special committee will make the final selection of four.

These four outstanding individuals will be honored at an annual awards and initiation banquet on May 11. Two Selleck men will also be honored for high scholarship and next year's officers will be initiated then.

This is the fourth year the outstanding individual awards will be made in Selleck.

RAM Council OKs Two Amendments

Two constitutional amendments have been approved by the RAM executive council and will be presented to the houses of Selleck Quadrangle for ratification on May 5, Tom Eason, RAM president has announced.

One of the amendments deals with a change in the RAM executive council representation.

The president of each house in Selleck Quadrangle is currently serving as that house's representative on the RAM council.

Under the provisions of the proposed amendment, a representative other than the president would be chosen by each house to be their main council member.

Eason said the reasoning behind the amendment was that the house presidents would then have more time to devote to their job as president. At present the feeling is RAM cabinet duties often require a great deal of the president's time which results in neglect of their house responsibilities.

The proposed system of elected representatives to the RAM cabinet is patterned after the Iowa State system, Eason said.

The second amendment deals with the approval of a change of the rules-of-order reference now used by the RAM organization.

According to the rules of

the Student Council each campus organization is required to list a parliamentary reference source in its constitution.

Eason said Robert's Rules of Order, the source now used by the group, has proved inadequate and confusing concerning some questions of parliamentary procedure.

Recently the RAM has been consulting Sturgis Standard Code of Parliamentary Procedures and have found it to be more satisfactory for their use, Eason commented.

"We think the book is better organized by topics and outlines," he said, "in addition it presents the considerations of court decisions which help to clarify more completely."

In order to be adapted, the amendments must be approved by 2-3 vote by 3/4 of the Selleck houses. There are 16 houses in the Quadrangle.

If approved by the residents of Selleck, the amendments will be sent to the Student Council for final approval before they are amended to the RAM constitution.

Tribunal Seeks Law Applicants

Applications are still open for Law College students who wish to apply for positions on the Student Tribunal. The applicant must have completed at least one year of law school successfully and be a sophomore or above in the upper 50 per cent of his class.

Applicants must sign for an interview time by noon Saturday, according to Chrch Wilson, chairman of the Student Council Nominating committee. Interviews will be held Sunday afternoon.

Graduate Club Plans Party

A party for graduate students will be held tonight in the Student Union from 8 to 12 p.m. in room 232.

Special numbers on the program, sponsored by the Graduate Club, will be a classical guitar number by Clark Metcalf, piano solo by Harriet Ball, Spanish Flamingo dance, tap and ballet numbers, skit and vocal solo by Jagjit Singh.

Sororities Will Host Legacies

Panhel To Present Talent, Style Show

University sororities will host more than 240 girls this weekend as junior and senior high school legacies come to Lincoln for the annual Panhellenic Legacy Weekend.

The main feature of the weekend will be the Panhellenic style show featuring clothes appropriate for Rush Week. The show will be moderated by Gail Simon.

Three talent selections will be presented at the show including the Delta Delta Delta Coed Follies traveler act, Gamma Phi Beta pledge quartet and a modern dance, "Gay Children" by Glenda Luff and Karen Costin.

Models for the show are representatives of the sororities. They are Katy Griffith, Alpha Chi Omega; Nancy Jacobson, Alpha Omicron Pi; Kay Uehling, Alpha Phi; Rosemary Kuhl, Alpha Xi Delta; Sandy Skeer, Chi Omega; Janet Hoepfner, Delta Delta Delta; Barb Miller, Delta Gamma.

Janis Marler, Gamma Phi Beta; Barb Anderson, Kappa Alpha Theta; Yvonne Willers, Kappa Delta; Linda Harmon, Kappa Kappa Gamma; Gail Mulligan, Pi Beta Phi; Gloria Tietjen, Sigma Kappa; and Maureen Frazier, Zeta Tau Alpha.

Camera Club Will Name Poise Queen

Six coeds have been named finalists for the title of "Nebraska Poise Queen" to be selected by the Nebraska Camera Club.

The finalists are Judy Lang, Sylvia McNally, Pat Johnson, Pat Salisbury, Sandy Johnson and Yvonne Young.

The Queen will be selected by vote of the members at the Club's annual convention in Lincoln this afternoon at the Cornhusker Hotel. Photographs of the girls will be on display and the members will vote from the photos.

An engraved trophy will be presented to the winner.

Dr. Scott To Speak To Chem Society

Guest speaker at the monthly meeting of the Nebraska section of the American Chemical Society will be Dr. Scott Searles, associate professor at Kansas State University.

"Effect of Ring Size on Properties of Small Ring Heterocyclic Compounds" will be his topic. The meeting will be at 7:30 p.m. Tuesday in 324 Avery Lab.

"I ASKED WITH YOU THAT SHE ISN'T VERY BRIGHT AND I GAVE HER AN 'A', TOO."

University Awarded Grants for Research

Grants totaling \$39,706 have been awarded to the University from the Small Business Administration for four research projects concerning Nebraska business.

Dr. Harold E. Wise, deputy research administrator at the University, said the grants are:

- \$6,900 for exploration of methods of counting the number of business firms and establishments by type, size and location in Nebraska, conducted by Dr. E. Z. Palmer,
- \$5,500 for the study of operating controls utilized by selected Nebraska manufacturing firms, employing 25 to 200 persons, conducted by Dr. William G. Dick, associate professor of business organization and management.
- \$9,154 for the investigation and analysis of research activity, product diversification, and product differentiation by small manufacturers in Nebraska, conducted by Dr. Campbell R. McConnell and Dr. Wallace C. Peterson, both associate professors of economics.
- \$18,152 for a study of essential factors in the establishment of efficient vegetable processing and distribution firms in Nebraska, directed by Clarence J. Miller, associated professor of agricultural economics.

Dr. Miller said that in the past Nebraska has had a number of small business enterprises engaged in producing, processing and selling vegetables. Most of these firms, he said, "have after a period of life gone out of business or have been absorbed by other firms."

"Lack of success has been attributed to such factors as distance of major markets, inadequate access to resources such as labor and capital, erratic weather which made production unstable, and changing technology which made the older established plants outmoded."

As the environment for producing and processing of vegetables has in recent years become more favorable in Nebraska, it is obvious that a survey of the managerial problems connected with the vegetable processing industry is to be successful, Dr. Miller explained.

Rev. Pickering New Pastor Appointed For Presby Kansas Minister To Begin Aug. 1

The Rev. Alan Pickering of Lawrence, Kan. has been appointed University pastor for the United Campus Christian Fellowship.

Rev. Pickering will begin his campus ministry on Aug. 1.

The United Campus Christian Fellowship is the cooperative work of the United Presbyterian Church, Congregational Christian Churches, Evangelical and Reformed Churches and Evangelical United Brethren Church.

Rev. Pickering was graduated from the University of Kansas. He received his B.D. degree from McCormick Theological Seminary in Chicago and completed his resident work for the Ph.D. degree at Hebrew Union College in Cincinnati, Ohio.

For the past three years he was associate university pastor for the Presbyterian students at the University of Kansas.

German Student Coates Receives Curtis Award

The Scena Hansen Curtis \$50 prize for high scholarship for a senior majoring in German has been awarded to John Coates, according to Dr. Paul Schach.

Dr. Schach is the acting chairman of the department of Germanic languages. The department made the award from a grant presented by Mrs. Edwin Curtis of Minden, a former German major at the University.

Coates is a member of Delta Phi Alpha, German language honorary and Sigma Phi Epsilon social fraternity.

Social: Legacies Hold Down Functions

Sorority legacies have apparently slowed the social pace this weekend. A few date dinners and formals dominate the scant calendar.

Friday
Kappa Kappa Gamma tea honoring national president, 3-5 p.m.

Saturday
Terrace Hall formal, 6:30-12 p.m.
Fedde Hall formal, 6-12 p.m.

Sunday
Love Memorial Hall-Ag Men picnic, 4-7 p.m.
Delta Tau Delta date dinner, 7:30-9 p.m.
Phi Delta Theta date dinner, 6-8 p.m.
Sigma Nu date dinner, 5-7 p.m.

Business Ed Board Seekers File Monday

The filing date for 1960-61 Business Education Student Advisory Board election is Monday in 210 Social Science building.

The election will be held in connection with the student Council elections in May. The Board consists of two members from each class from sophomore on up with at least one woman from the junior and senior class.

To be eligible a student must be presently enrolled in the College of Business Administration, be in good standing, and have a 5.0 cumulative average or better.

YOU IS!

This airplane is actually a flying classroom. The course taught in it is Air Navigation, under real conditions. The students are young men who have been selected as possible future leaders of the Aerospace Team. Graduation after 32 weeks of training will win each of the students the honored silver wings of an Air Force Navigator and an Officer's Commission.

For certain young men, this training can open the way to a bright career of executive potential. Right now the Air Force is scoring impressive technological advances in the fields of navigation, guidance and tracking, electronics and radar. And here is where its highly trained and experienced Navigators will be expected to take over command positions of increasing responsibility.

To qualify for Navigator training as an Aviation Cadet, you must be between 19 and 26½—single, healthy and intelligent. And you must want to build an exciting, interesting career in the Aerospace Age. If you think you measure up, we'd like to talk to you at the nearest Air Force Recruiting Office. Or clip and mail this coupon.

There's a place for tomorrow's leaders on the Aerospace Team.

ECONOMY PROVED IN MOBILGAS RUN!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

- Practically flat floor . . . real foot room for the man in the middle. Fold-down rear seat gives 17.6 cu. ft. of extra storage space.
- Four-wheel independent suspension for a smoother, flatter ride.
- Rear-engine traction . . . that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobilgas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.
