GOLF, Nebr. vs. Creighton University.

LITTLE MAN ON CAMPUS

"SORRY ABOUT YESTERDAY MISS LATOUR—IT'S JUST THAT WE VERY SELDOM HAVE A GIRL ENROLLED IN AN ENGINEERING CLASS."

Maj. Haag To Teach Air ROTC

W.W. II Ace Is Ass't Prof.

Major George B. Haag, described by his former base as "one of the Air Force's foremost pilots," will begin teaching Air Force ROTC at the University as an assistant professor in May.

Haag has flown Air Force planes to all points on the earth, ranging from Rio de

MAJOR HAAG

Janeiro to Thule and embracing the entire Pacific and North Atlantic areas.

He holds the Distinguished Flying Cross and the Air Medal with numerous clusters.

Since entering the Air Force in 1941 Haag has had over 11,000 flying hours to his credit. This puts him in the top five per cent of Air Force pilots.

During World War II, Haag flew 30 bombing missions over France and Germany, returning unharmed from all of them. Returning to the United States in 1945, he was being trained for air rescue work when the war ended.

Stationed in Japan at the outbreak of Korean hostilities, Haag was the pilot of the plane that lifted the first casualties out of that country. He has been with MATS, the strategic airlift force, since 1948.

Table with 5 columns: No. Words, 1 da., 2 da., 3 da., 4 da. and 5 rows of data.

These low-cost rates apply to Want Ads which are placed for consecutive days and paid for within 30 days after the ad expires or is canceled. Ads to be printed in the classified section of the Daily Nebraskan must be accompanied by the name of the person placing said ad.

FOR SALE

Best part—73 Spartan trailer, 35 ft., attached 2x10 Knott's fine study room. Will sell both set up for living at just a little over the open value of trailer alone. Quality throughout. See it now—move in (lease variation for before). Bank will handle lease percentage. Contact on balance if needed. Lot 106-G, 4600 Cornhusker Hwy.

1956 Buick convertible. Fully powered. Airpump, 24,000 miles. Vogue white with blue trim. Wonderful radio, heater, tonneau. Original owner. IV 9-3333.

1959 Chevrolet Coupe—Good Mechanical Condition. \$129. Call IV 9-3349.

Dressmaking or alterations done at reasonable prices in neat-up-to-date styles. Call to Martin 416 No. 23rd.

FOR RENT

Apartment for rent. ALL NEW AND REASONABLE TOO. One bedroom with stove, refrigerator, breakfast bar and sink. Located in beautiful neighborhood. Complete van occupy now. Call GA 3-1913 after 6.

Block, Bridle Honors Dean At Banquet

Honored at the Block and Bridle Club banquet Friday night was Dr. Marvel L. Baker, assistant dean of agriculture at the University.

He is the 19th stockman selected for special recognition by the Block and Bridle Club members. His portrait will be placed in the Animal Husbandry Hall on the College of Agriculture campus.

Three guest speakers outlined Dr. Baker's contributions. They included Dr. A. D. "Dad" Weber, vice president of Kansas State University; Bruce Snyder, Paxton rancher and Dr. Keith Gregory regional coordinator of beef breeding research at the Department of Agriculture.

Dr. Baker began research work here in 1924 when he joined the faculty.

He has worked with the Agricultural Experiment Station divisions and has served as dean of the University of Nebraska faculty and Ankara and Ataturk Universities in Turkey.

He will soon leave for Turkey again to conduct an inspection of University activities.

His influence on agricultural sciences was recognized by Kansas State University when he was awarded an honorary Doctor of Science degree in 1949.

Student Health To Begin Typing Blood This Week

Student health will begin typing the blood of members of the Walking Blood Bank this week.

It will be possible to handle up to 30 persons per day in the 45 minute period from 3-3:45 p.m. which will be reserved each day specifically for the purpose of typing blood. Dr. Samuel Fuenning, director of Student Health, announced.

300 Signed Up

Fuenning said that more than 300 persons had signed up for membership in the program.

A yearly drive will be sponsored to maintain the membership in the Blood Bank program, Fuenning said.

Other Student Health programs which have been advanced from the planning stages recently include the installation of two civil defense sirens, the planning of a campus health council and a change in the Student Health insurance program.

The sirens, which are coordinated with the other warning sirens of the city, have been installed on the roof of Bancroft school on city campus and the roof of the biochemistry building located on Ag campus.

These sirens will serve as a warning against tornados

as well as for defense warning purposes.

Disaster Program

The sirens are one phase of a campus disaster program which is being put into effect by the University's Disaster Program Committee.

The proposed campus Health Council would be composed of representatives from all organized houses and other interested group, Dr. Fuenning said.

The Council, to be set up under Student Council supervision, would be important to the coordination of health programs, planning and evaluation of programing, Dr. Fuenning explained.

The new health insurance program will include a revision of insurance benefits.

Under the terms of the new policy, the aggregate coverage limit would be \$5,000 rather than the present \$1,000. However, the maternity coverage will be deleted. This is due to the fact that maternity claims have been one of the largest claims in the past years causing a loss to the insurance company.

Figures show that the premium collected for University health insurance was only about one half of the amount paid out in claims each year, Dr. Fuenning said.

He said this was true even though the number carrying the insurance had increased noticeably each year since the program was established in 1951.

The new policy will cover a 12 month period. There will be a slight change in the premium, he said, but not an unreasonable one.

B&B Award Presented To Wehrbein

Roger Wehrbein, Alpha Gamma Rho senior, was announced the outstanding Block and Bridle Club member at the club's honors banquet Friday night.

Award Basis

The award was based on scholastic ability, activities in the club and all University activities.

Farm House was announced the judging contest winner. Members on the team include: Robert Ambrosek, Mars h Kuhn, Dean Stuthman, George Ahlschwede and Mylon Filkins. Burr Hall placed second followed by Alpha Gamma Rho, Tappa Kega Day and Independents.

In the meats judging contest the individual division winners are: Don Meiergerd, meats judging, pork and beef; Rich Eberspacher, carcass grading and total points; and Leslie Cook, lambs.

Senior Division

In the senior division of the judging contest winners were: Gary McDonald, sheep; John Joyner, swine; Douglas Gustafson, cattle; Larry Williams, quarter horses; and all classes, Fernando Lagos.

Junior division contest winners were: Robert Ambrosek, sheep; Mary Daniels, swine; Frank Puls, cattle; and Robert Ambrosek, all classes.

Showmanship winners are Lloyd Langemeier, Grand Champion Showman and swine; Don Kavan, beef; and George Ahlschwede, sheep.

A statewide organization will therefore be formed Tuesday evening, according to Geis.

One of the first projects of the club will be to circulate petitions endorsing Adlai Stevenson for president. It is hoped that by the Democratic national convention in Los Angeles this summer, five million signatures from the nation will have been secured in Stevenson's behalf, Geis remarked.

Don Geis To Organize Adlai Club

An organizational meeting for a "Stevenson for President Club" will be held Tuesday night in Student Union 338 for all interested people including faculty members.

Don Geis, past president of University Young Democrats, said that although Stevenson has not declared himself as a candidate for the presidency, organizations throughout the country are supporting him.

Because of his outstanding capabilities it is felt there are many who are interested in his candidacy for presidency, Geis said.

A statewide organization will therefore be formed Tuesday evening, according to Geis.

One of the first projects of the club will be to circulate petitions endorsing Adlai Stevenson for president. It is hoped that by the Democratic national convention in Los Angeles this summer, five million signatures from the nation will have been secured in Stevenson's behalf, Geis remarked.

Agronomists Feature Dr. Kramer at Lectures

Dr. H. H. Kramer, Department of Agronomy, Purdue University, will present a series of three lectures today and Tuesday in Keim Hall.

The first lecture, "Gene Control of Endosperm Carbohydrates in Corn," will be presented Monday at 4 p.m. in Room 24.

"Travel, Genetics and Plant Breeding in the Soviet Union" is the second lecture to be presented at 7:30 p.m. Monday also in Room 24.

The last lecture "Gene Control of Endosperm Carbohydrates in Corn," will be Tuesday at 4 p.m.

Dr. Kramer obtained his Bachelor of Science degree at Colorado State University in June, 1939. His Master's

degree was granted at the University of Minnesota in 1941 and his Ph. D. at the same school in 1945.

At Purdue, Dr. Kramer established a program to survey new crops of potential industrial importance for the Midwest and initiated a plant breeding program to develop adapted varieties of plants which appear promising.

He also conducted a forage crops breeding program. Dr. Kramer is a member of Sigma Chi social fraternity and Phi Kappa Phi and Alpha Zeta honoraries.

Faculty Plans To Be Reviewed

"Is the Faculty Insurance Program Adequate?" will be the subject of a talk by Prof. Cecil Vanderzee before a dinner meeting of the University chapter of the American Assn. of University Professors tonight at 6:30 in the Pan American room of the Student Union.

Prof. Vanderzee is chairman of the Faculty Senate committee on insurance and retirement plans.

Tempero Heads Nu Med Club

Ken Temporo, junior in Arts and Sciences, has been elected president of the Nu Meds for the 1960-61 term. Temporo is a member of Theta Xi fraternity.

Byron Dilow, sophomore, was elected vice-president. Kathy Paulman, sophomore, is secretary and treasurer in Monte Novak. Al Rhoda is publicity chairman for the group.
