The physical plant of the University will be altered in several instances when students return in the fall.

Among the changes is the plan to move the Regents Bookstore into the basement of the Student Union.

The move should be completed enough by fall to allow students to do all their book and supply purchasing in the Union.

Location of the bookstore will be in the space now devoted to the commuters lunchroom.

Business manager Carl Donaldson explained the move as a gradual one with part of the bookstore remaining in its present location in he basement of old Administration Hall until that building is torn down in the next year or two.
