

Waring Will Highlight Lincoln Concert Series

Fred Waring and the Pennsylvanians will highlight this year's Lincoln Community Concert presentations.

A student membership drive is underway this week to sell memberships good for attendance at all of the performances.

Memberships
The memberships will cost \$4 and will be sold Oct. 3-7, according to Paul Scheele, student membership drive chairman.

Students may purchase memberships by presenting their ID cards at the ticket booth at the entrance of the Crib this week.

A workers' coffee is slated for 4:00 today in the Student Union Pan American room to kick off the campaign.

Lou Roper, president of the Lincoln Community Concerts, will speak at the meeting to-

Dixie Waring, Fred Waring, Jr. and Fred Waring, Sr., will appear in Lincoln Dec. 2 for the "Stereo Festival" at Pershing Auditorium.

day. Scheele urged that any students interested in selling and not previously contacted should attend.

Workers
"All workers must attend the meeting in order to receive their membership kits and to register," Scheele said.

Workers will receive a free membership for each ten they sell.

The prize for the top seller will be a hi-fi record-player.

At the performances, all scheduled for Pershing Auditorium, there will be no reserve seats. "First come, first served," Scheele said.

Programs
Besides Waring, who will be featured in the "Stereo Festival" Dec. 2, also appearing will be the Spanish Ballet group, Oct. 26, the Vienna Choir Boys, Mar. 6 and the Dallas Symphony Orchestra with Leonard Pennario, Mar. 28.

The Spanish Ballet is considered the "spectacular cavalcade of the Spanish theatre." Included in the Ximenez-Vargas Ballet are 14 dancers, flamenco singers and guitarists.

The Vienna Choir Boys will present a concert of sacred music, folk songs and costume operettas.

World-famous Dallas Symphony Orchestra will feature Pennario at the piano. He has won laurels with many orchestras and is considered

one of the outstanding concert pianists today.

Scheele added that the Community Concerts organization is popular nationally and "this is due to greater student interest and better programs."

Scheele said that any adult moving to Lincoln since March (including new faculty members) may buy a membership for \$7.50.

Iowa Governor to Address Fund Dinner Oct. 15

Governor Herschell Loveless of Iowa, prominent Democratic leader, is expected in Lincoln Oct. 15, according to Don Ferguson, president of the Young Democrats.

He will appear that night to address a special fund raising dinner at Cotner Terrace for Frank B. Morrison, Democratic candidate for governor.

Ferguson said that any student wishing to attend the dinner may buy their \$3 tickets at the Tuesday night YD meeting.

"Depending upon his ar-

rival in Lincoln, Loveless may spend the morning on campus and then attend the Nebraska-Army football game in the afternoon," Ferguson said.

KUON-TV Presents 'Marriage' Program

The pressures and tensions of marriage will be discussed in a new weekly TV series sponsored by KUON, channel 12.

The program on "Your Marriage" begins Tuesday at 9:30 p.m.

History Department Uses New Depth Problem Book

A new dimension has been added to history courses at the University.

According to American history professor, David E. Cronin, added depth is being accomplished by an unique problem book which exposes the student to the "raw materials of history."

"Students tend to believe the events of history were inevitable. By studying the original source materials in this problem book, they come to realize a number of alternatives existed, and are exposed to the arguments of the group who lost," Cronin said.

The purpose of the book is not to give definite answers to the problems of history, but to enable the student to view the complexities and underlying forces involved, Cronin emphasized.

Same Debates
"This enables the student to realize preceding generations went through many of the same debates we are discussing now, such as the issue of how much government control is in agreement with the principle of local and individual freedom," he explained.

The program is designed to supercede "outside reading assignments" which were often not integrated with regular course material, and

frequently regarded as a "chore."

Difficulties of the project include trying to cover one problem in a single quiz session, and familiarizing students with the new type of instruction.

"Too many people regard the study of history as merely memorizing a number of dates and occurrences from one point of time to another," Cronin observed.

Yale Project
Developed by the history department at Yale University while Cronin was teaching there, the project proved

so successful that the original mimeographed sheets were published in booklet form under the title, "Nationalism and Sectionalism in America, 1775-1877."

The booklets are being used at Nebraska for the first time this year as a complement to the regular text for History 9.

A series on the growth of government in the economy, development by the NU history department, will be used for History 10.

If successful, the project will be extended to cover additional history courses.

STAR GAZERS ALERT! Sky's Seven Wonders Now At Planetarium

Star gazers and heaven searchers will have a treat in store when they attend the "Seven Wonders of the Universe" sky show in the Mueller Planetarium between Oct. 3 and Nov. 24.

The sky show will be shown publicly at 8 p.m. Wednesdays, 2:45 p.m. Saturdays (except during home football games) and 2:30 and 3:45 p.m. Sundays.

The sky show will feature seven wonders of the sky.

The first wonder is the moon which has been man's most recent goal. The telescope will point out many ways in which the moon is unique.

Saturn Unique

The second wonder is Saturn. This wonder will be the typical example of a planet, even though its ring makes it unique.

The sky show focuses on two fuzzy stars which are really not stars at all. One is the great gas cloud Orion which contains enough gas to make 10,000 suns. The second is really the Andromeda galaxy, a great pinwheel of 100 billion stars slowly turning in space.

The show will enable its viewers to locate the important parts of our universe

and see them in their pattern in the sky.

In this space age, everyone is becoming interested in the sky. The sky calendar and the planet charts will tell sky searchers when and where to find the various wonders.

Sky Calendar

Tuesday, 4: Full moon. Harvest moon.
Tuesday, 11: The moon and Mars occupy the same portion of the sky.
Wednesday, 12: The moon is at apogee point in its orbit farthest from the earth at a distance of 251,200 miles and is in last quarter.
Saturday, 15: Mercury is at its greatest elongation and will be 23 degrees above the horizon at sunset.
Thursday, 20: The Orion meteor shower will reach a maximum of 25 meteors per hour radiating from a point above and to the east of Orion in the early morning sky. The moon is new.
Friday, 21: Mercury and the moon occupy the same portion of the sky.
Saturday, 22: Venus and the moon occupy the same portion of the sky.
Monday, 24: The moon is at perigee (point in its orbit closest to the earth) at a distance of 228,000 miles. Jupiter and the moon occupy the same portion of the sky.
Tuesday, 25: Saturn and the moon occupy the same portion of the sky.
Thursday, 27: The moon is in first quarter.

The Planets

Mercury is at its greatest elongation on the 15th and so for a few evenings time it may be seen very low in the southwest just after sunset. It will be very difficult to see, however.
Venus is an evening star which may be seen low in the southwest for about an hour after sunset.
Mars is in Gemini. It rises in the late evening and is prominently seen the rest of the night.
Jupiter is in Sagittarius. It will pass the meridian at sunset and set about three hours later.
Saturn is in Sagittarius, east of Jupiter. It is about on the meridian at sunset and sets before midnight.
Uranus is in Leo. Neptune is in Libra and Pluto is in Leo, but all require a telescope for good observation.

Elementary Ed Sets Open House

Freshmen and new student elementary education majors will be entertained at a special open house Tuesday from 7 to 8 p.m. in Teachers College Room 200. Sponsored by the Association of Childhood Education, the reception will give students an opportunity to meet officers and members as well as the faculty of Teachers College.

its personnel. Any businessman realizes that you obtain and keep competent and highly trained personnel only when compensation is commensurate with their ability and training. The University of Nebraska should be in a position to offer salaries which are equal to those offered by the other large Universities in the Great Lakes and Plains Region. Right now we are about average and this is not good enough.

Above and beyond these things is America's need for the results of higher education. Our position among the nations of the world depends directly upon our institutions of higher learning and what they are doing right now — today.

If I am elected Governor, the University and the Colleges, and all other segments of our educational system will receive the complete support of my State Administration.

Main Feature Clock
State: "Night Fighters," 1:32, 3:32, 5:32, 7:32, 9:32.
Varsity: "Ocean's 11," 1:40, 4:12, 6:44, 9:16.
Nebraska: "The Nuns Story," 1:25, 6:10, "The Miracle," 4:00, 8:45.
Lincoln: "The Angel Wore Red," 1:25, 3:25, 5:25, 7:25, 9:25.
Stuart: "High Time," 1:15, 3:15, 5:15, 7:20, 9:20.

Wes Roberts can tell you:
"THERE'S NO CEILING FOR A SELF-STARTER IN THE TELEPHONE BUSINESS"

When Wes Roberts was nearing the end of his senior year at San Jose State College, he was looking for a job with a wide open future. He found it when he joined Pacific Telephone in San Francisco.

Here's how Wes tells it: "I remember one of my first jobs. The boss said, 'Wes, I want you to work out a plan showing where we'll need new field operating centers to keep up with Northern California's growth over the next 10 years.' I didn't know whether I was more happy or scared."

Wes didn't tell us (but his boss did) that he handled the report like a pro. And today, as a

division supervisor, he's holding down a key telephone job.

Wes Roberts' story is not unique in the Bell Telephone Companies. The telephone business is growing fast—and men are needed who can grow just as fast.

Wes can tell you: "We get good training. But no one nurses you along. We hire managers—not errand boys. So far as I can see, there's no ceiling for a self-starter in this business."

If you're a guy like Wes Roberts—if you like to bite off more than you can chew and then chew it—you'll want to visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."
FREDERICK R. KAPPEL, President
American Telephone & Telegraph Co.
