past week as National Pharmacy Week.

Today at 1 p.m. in Lyman Hall the students will hear a discussion of the American Pharmaceutical Convention which two students attended this summer in Washington, D.C.

### Better Health

The slogan for the week-long observance is "Your Pharmacist Works for Better Community Health." The goal is to inform others of the opportunities in pharmacy and of the duties of a pharmacist.

"The opportunities for jobs are very good, especially here in Nebraska," student Pat Wells explained. Besides

working in community and hospital pharmacies, graduate pharmacists work for drug wholesalers, in the laboratories and manufacturing plants of pharmaceutical industry, as teachers and in government service.

Here at the University, a degree in Pharmacy takes two years of pre-pharmacy, three years of pharmacy, and one year of internship under the supervision of a registered pharmacist.

To be licensed, the pharmacist must pass an examination given by the State Board of Pharmacy.

This year there are students from Latvia, India, Formosa and Texas doing graduate study.

### Specialist

About 90 per cent of the pharmacists in this country are professionally engaged in 54,600 community pharmacies. The pharmacist is basically a specialist in the science of drugs and medicines.

He has an understanding of the composition and uses of drugs and is required to dispense them according to rigid federal and state laws. He provides a major deterrent against the unauthorized use and distribution of drugs that could impair public health.

At this time there are over 12,500 men and women enrolled in colleges of pharmacy in their final three years. About 4,000 pharmacy graduates are required each year to maintain and improve the effectiveness of retail pharmacies and pharmaceutical research.

### Student Teachers Need Application

Elementary Education majors who wish to do student teaching during the second semester of the 1960-61 school year must make application to do so.

The application forms are available in the Elementary Education office, 202 Teachers College. The completed forms are to be returned to Room 202 Teachers College not later than November 1, 1960.

### LIKE, WAY OUT MAN

Man, like dig these crazy "Beats". They're so cool they're cold. But for being far out, no Joe. Right over at Howell Theater is their bistro, for these cats are Masquers, preparing their talent show for like 9 p.m. Sunday. The honorary theatre

group will "cue in" students and public at a theater open house from 7:30 to 10:30 p.m. Refreshments will be provided and leave your scratch (money) at home, it's all free.

### 'BEST SOUND AROUND'

## Residences to Receive KNUS From Musac

KNUS, the University's radio station, goes on the air Monday with a new program format designed to make it the "Best Sound Around."

Newest feature this year will be that the station's programs will be piped into the dorm and the fraternities and sororities by the facilities of Musac, Lincoln's program service.

A request program with Speech 75 students as announcers starts the day's broadcast and goes until 8 p.m. At 10 p.m. the program resumes with more requests.

Students wishing to request numbers should call the University extension 3268. The format for the show is to alternate a song from an LP album with a popular record.

From 8 to 10 p.m. each week night KNUS will feature their five top disc jockeys, Rog Dodson, Vern Killion, Dennis Larson, Bruce McGrath, and another not yet selected, in a program of the top 40 popular records.

These four have all had previous radio experience at

commercial stations. Killion is an engineer at KLIN, Dodson worked for KNCY, Nebraska City, Larson for KOGA, Ogallala, and McGrath at KHAS, Hastings.

This year, KNUS is broadcasting all home games. With Gary D'Angelo and Ken Fouts at the microphone, broadcast start with a pre-game warmup at 1:50.

KNUS, which was the first intercollegiate station in the nation, is completely run and operated by University students. Larry Roderick is the general manager, Jim Rhea, station manager, and Ken Fouts is the program director.

## Cheerleader Yell Clinic To Host 420

Cheerleaders from Nebraska high schools will converge on campus this Saturday for a cheerleader clinic sponsored by NU's Yell Squad. Registration for the expected 420 cheerleaders from across the state will start at 9 a.m.

After registering, the high school cheerleaders will watch an exhibition of Cornhusker yells and the use of the spring board in the indoor track of the East Stadium. A group discussion, which will include information on how the Yell Squad is selected, is also scheduled.

At 11:30 the group will be taken on a tour of the campus ending at the Student Union for a luncheon hosted by the Yell Squad. Chancellor Clifford Hardin will be the featured speaker.

### Main Feature Clock

State: "The Hound That Thought He Was a Raccoon," 1:00, 3:06, 5:12, 7:18, 9:24, "Jungle Cat," 1:46, 3:54, 6:00, 8:06, 10:12.

Varsity: "Ocean's 11," 1:40, 4:12, 6:44, 9:16.

Nebraska: "Once More With Love," 1:05, 5:20, 9:30, "Home From the Hill," 2:40, 6:50.

Lincoln: "Under Ten Flags," 1:35, 3:35, 5:40, 7:40, 9:40.

LUCKY STRIKE PRESENTS:  
**DEAR DR. FROOD:**  
DR. FROOD'S THOUGHT FOR THE DAY: 'Tis better to have loved and lost than to have spent the whole weekend studying.

Dear Dr. Frood: My roommate is a good guy, but there's one thing about him I can't stand. He wears button-down collars but never buttons the little lapel buttons. Why is this?  
*Clothes Conscious*  
DEAR CLOTHES: Don't let this worry you. It's just that his thumbs are too big.

Dear Dr. Frood: Once and for all—is it right or wrong for a man to marry a girl for her money?  
*Righteous*  
DEAR RIGHTEOUS: Nowadays this isn't simply a matter of right or wrong. There are the tax angles to consider.

Dear Dr. Frood: I don't understand my boy friend. When we are all alone and the moon is full, he tells me he worships me. But during the day, he crosses the street when he sees me coming. What is wrong?  
*Lovelorn*  
DEAR LOVELORN: Did it ever occur to you that he may be a werewolf?

Dear Dr. Frood: The other day my roommate and I had an argument about the difference between traditional art and modern art. What, in your opinion, is the basic difference between these two forms?  
*Art Major*  
DEAR ART: The examples above should settle your argument. The portrait at left is traditional. The artist has drawn Lincoln as he actually appeared. The portrait at right is modern. As you can see, the modern artist has drawn Lincoln's great-great-grandson.

Dear Dr. Frood: My favorite brand is Lucky Strike. But unfortunately I am left-handed. Why doesn't Lucky Strike come out with cigarettes for left-handed people?  
*Lefty*  
DEAR LEFTY: Left-handed Luckies are available. Simply ask for "Left-handed Luckies." They come in a white pack with a red bull's-eye. The only difference between these and ordinary Luckies is that you must always smoke them while facing a mirror.

"LUCKIES ARE BETTER THAN MONEY," says Dr. Frood (who gets paid in Luckies). It's a fact that college students smoke more Luckies than any other regular. This cigarette is all cigarette—the cigarette that still tastes great. Try a pack today—it's the only thing you and Dr. Frood will ever have in common.

CHANGE TO LUCKIES and get some taste for a change!

# New Clinical Research Proves You Can Almost Double Muscle Endurance

## WARM-UP—the Pre-Exercise Rub that Makes Muscle Power Last Longer

Now, people who participate in sports or exercise can make their muscle power last longer by using Absorbine Jr. WARM-UP—the invigorating rub you use before exercise—now available at all drugstores. Over a year of clinical research proved the application of WARM-UP before exercise almost doubles the endurance and stamina of the muscle.

In a recent report to top scientists, the results of research conducted with the Electromyograph—electronics' newest medical tool—revealed the time required to fatigue a muscle which had been treated by an application of WARM-UP is almost double that of an equivalent untreated muscle.

Get more out of your muscles  
No matter what sport you like; football, basketball, bowling, handball, track, hockey, volleyball, you can increase the stamina and endurance of your muscles by rubbing them with WARM-UP before you start.

Even if you just want to do more work like snow shoveling, house painting, paper

hanging, yard work, you can start out feeling in top shape and keep going longer if you rub on WARM-UP before you start.

Prove it yourself  
Try WARM-UP on the muscles you'll be using most—before you start a game or exercise. See for yourself if your muscle power doesn't last longer—if you don't do better in sports because you don't tire out as fast.

For overexertion  
Also revealed in the research on "Muscle Power and Fatigue" was the fact that the application of WARM-UP to sore, tired muscles can bring them back twice as fast as nature can. Don't put up with tired, aching muscles—rub on WARM-UP and see how fast it makes them feel better. WARM-UP actually dilates peripheral blood vessel walls and speeds up local blood flow—it helps you get better faster than when nature takes its course.

Ask your physician:  
Since scientific data on this Electromyographic Research has been sent to physicians, trainers, coaches, they are familiar with the clinical findings that show how WARM-UP increases muscle endurance and fights fatigue.

Electronics' newest medical tool, the Electromyograph, was used to prove how much longer muscle power would last after an application of WARM-UP. Case after case revealed the muscles treated with WARM-UP took almost twice as long to fatigue as untreated muscles.
