

Ag Teachers Forum Stresses Application Of Principles

Principles rather than technique in Ag College courses was emphasized by the Ag curriculum review committee Friday.

Eldridge pointed out that the objectives of the curriculum review committee is to find what other schools have done in improving their curriculums, what can be done here at the Ag campus to improve the curriculums, to study course reviews and to evaluate present curriculum programs.

It is hoped that these reviews will strengthen the undergraduate advising system and that it will find the purpose of various course programs at the College of Agriculture, Eldridge said.

Each of the members of the committee criticized the present curriculum for providing too many techniques and not enough principles. Techniques are of little value if the student does not know the principles behind them, the committee said. The student that learns the principles, should have the initiative to also learn the techniques on his own without wasting considerable class time, said the committee.

Three Objectives

J. M. Daly, professor of botany and one of the members of the review committee, said college student must accomplish three objectives in the four years of education. These three are the mastering of physical, biological and a social education.

In the physical matter, Daly said that the student should learn the composition and structure of matter, the interactions of matter and the distribution and organization of matter.

Biological matter taught should include the kinds and history of biological, the interactions of the biological world and the form and functions that it develops. Socially, the student should learn the history of man and institutions.

The production of educated men and women and the training of professional men and women in a more specialized field should be the

Science Teachers Examine System

"Spotlight on Excellence in Elementary Science" is the name of a study to be conducted by the National Science Teachers Association.

Working under a grant from the Shell Companies Foundation, Inc., Dr. Joe Zaffaroni, associate professor of elementary education at the University, will conduct the investigation and compile a report of the findings.

According to Dr. Zaffaroni, only elementary science programs which have provided evidence of success in planning curriculums from kindergarten through sixth grade will be studied.

Also helping lead the investigation will be Dr. Mildred Ballou of Muncie, Ind.; Dr. Orville Aftreth of Minneapolis, Minn.; Dr. Paul Blackwood, Dr. Margaret McKibben and Dr. John Renner, all of Washington, D.C.

perspective of the Ag campus, Daly concluded.

Curriculum Needs

Another member of the committee, Loyd K. Fisher, and agricultural economist, said that what the College of Agriculture needs in its curriculum programs is the proper balance of depth and breadth in its courses. He then said that good courses make good teaching programs and each professor should consider why that course is offered, to whom it is offered and what information it gives to the student.

A third member of the committee compared the University curriculum with that of other similar Ag college curriculums.

Frederick G. Teubner, professor of horticulture, stated many of the other colleges have the first year as required orientation courses with no emphasis on the Ag program. The only courses taught that year may be an introductory seminar to the freshman.

Teubner said that many colleges have increased the semester hours to complete a more thorough education program. Some require 138 semester hours excluding ROTC, Teubner said.

Treasurer To Speak To YD's

Larsen Will Contrast His Term to Past

State Treasurer Richard Larsen is the scheduled speaker for the Young Democrat meeting Tuesday night in room 332 Student Union, according to Don Ferguson, president of the YD's.

Larsen, who took office in 1959, said he will speak on the "past 20 years in the office of the State Treasurer as contrasted to my two years in office in the light of accomplishments."

Since his election, Larsen's primary accomplishment that has benefited the state the most has been the investment of idle state funds, Ferguson said.

Larsen said one of his most recent and important proposals concerns the twice a month payment to state employees.

"I am under the opinion that the state can save thousands of dollars per year by reducing personal turnover caused partly by monthly payments," Larsen said.

He also noted that he plans to promote, through proper channels, the establishment of a state civil service program for state employees. Another aid to the State Treasurer's office would be a "moderation of the account," Larsen said.

Ferguson said the Tuesday night meeting will be primarily devoted to working out a work schedule for all members. This sheet will be sent to the state Democratic headquarters.

"Students will work as headquarters needs them. They will work in the office typing and doing office work."

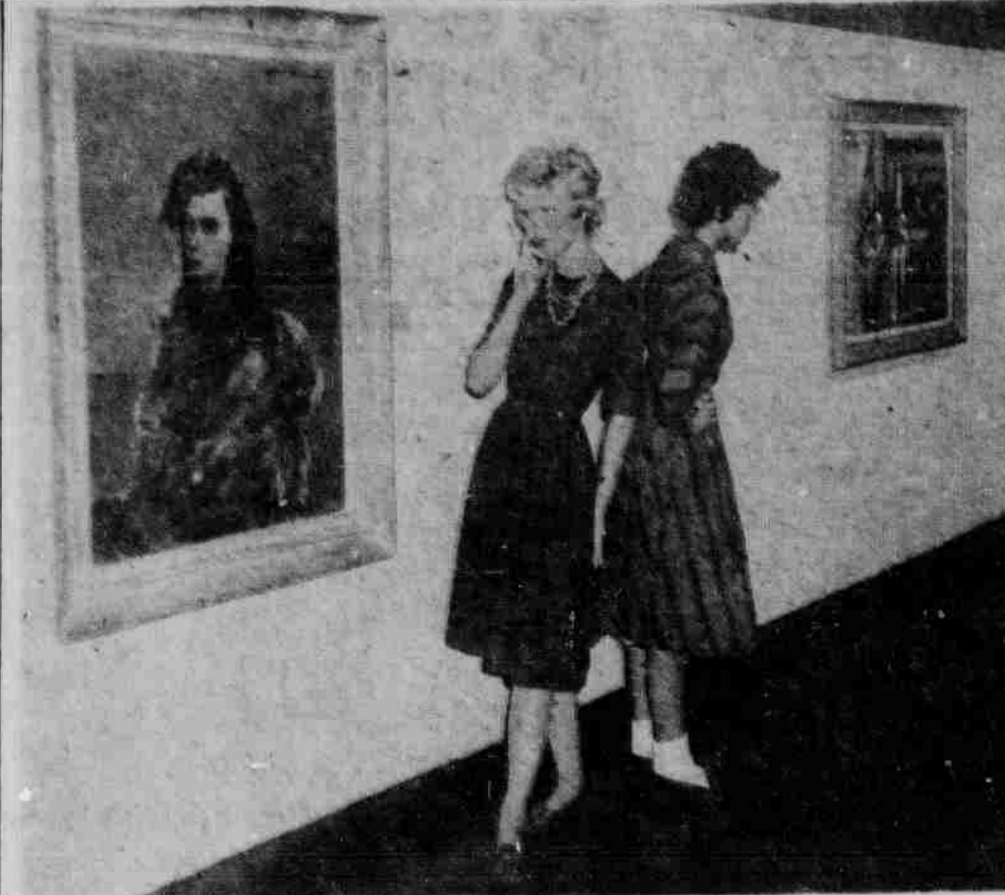

"We feel the members have had an adequate chance to pick the candidates they would like to work for so we are going to ask them to get into the thick of the different campaigns," Ferguson explained.

'Advanced' Takes AF Officer Test

The Air Force officers qualifying test will be given at 7:30 a.m. October 22 in room 203 of the Military and Naval Science Building.

This test is required of all students who are interested in becoming officers in the USAF through the advanced AFROTC program.

The test will last eight hours. Anyone who plans to be graduated in June 1963 or afterwards is eligible.

I LIKE THIS ONE

Art students Gail Bucholz and Sandy Casey show different tastes in styles at the 14th annual Missouri Valley exhibition of oil paintings. The University Art Gallery show which started Oct. 2 lasts for 28 days. It features the works of painters from Nebraska and nearby states. All this and its free too!

NEBRASKA DEBATE INSTITUTE Colgate-NU To Discuss High School 'Question'

The annual Debate Institute, designed especially for high school students of social studies and debate, will be held on October 22.

A debate between Colgate University and University of Nebraska on the high school question will take place. Debating for the University will be Sue Moffitt and Tom Cooper.

A demonstration discussion directed by Professor Robert Smith, director of forensics at Colgate University, will introduce the topic to the students.

They will discuss the topics: What threats exist to the security of the free world from without? What weaknesses exist in the free world which impair its security? What solution or combination of solutions could be offered to maintain the security of the free world?

Chairmen for these rounds will be University of Nebraska debate students.

The purpose of this institute is to study and discuss a vital national problem, world governments; to familiarize high school debate students with this year's high school debate topic; Resolved: That the United Nations should be significantly strengthened?

World government will be discussed by Dr. Norman L. Hill, Professor of Political Science, and Dr. Alex T. Edelmann, Associate Professor of Political Science.

"This institute is being sponsored by the Department of Speech in cooperation with the Nebraska High School Activities Association," stated Dr. Donald Olson, Director of Debate. Students are expected from all parts of Nebraska.

Flying High AF Federal Inspectors Will Arrive This Week

By Steve Lough

A team of federal inspectors from Maxwell Air Force Base, Ala., will be here this week to inspect the Air Force ROTC Cadet Wing.

The team will be headed by Colonel William J. Davitt, Assistant Commandant of the nationwide ROTC program. His headquarters are located at Maxwell Air Force Base.

Cadet Colonel Bill Wells and his staff are busy getting things in shape. Each member of Mr. Wells' staff is required to address the inspectors and tell them what his position is, what he is required to do in that position and what methods he uses to fulfill his requirements.

New Uniforms

Most of the junior cadets have received their uniforms and are now wearing them to class.

Billiard Aspirant Get Free Lessons

Attention, all billiards aspirants!

Free lessons will be given in the games areas of the Student Union starting tomorrow. They will run for 4 weeks, an hour a week.

Instructed by Merle Reiling, the girls' lesson is held at 4 p.m., while the boys' is held at 5 p.m. The last week's lesson will be co-educational.

Everyone wishing to participate should sign up today before 1 p.m. at the games area desk.

Ak-Sar-Ben Picks Eight NU Coeds

Eight University women will be in the 1960 Court of Ak-Sar-Ben at the Coronation ceremonies October 21-22.

They are Pam Davis, senior and member of Delta Gamma sorority; Sue Healey, senior, Kappa Kappa Gamma; Mary Anderson, Kappa Kappa Gamma senior; Sue Burton, Pi Beta Phi junior;

Maureen McGinley, senior, Kappa Kappa Gamma; Gail Milligan, senior, Pi Beta Phi; Judy Pokorny, senior, Gamma Phi Beta, and Mitzi Lee, senior, Kappa Kappa Gamma.

Two University graduates will also participate in the ceremonies. They are Elizabeth Anne James, Kitz Lee and Janet Warrick.

Lishner Accepts Don Alfonso Role

Professor Leon Lishner of the University music department has added another role to his total of nearly 60 singing roles with leading opera companies.

Prof. Lishner has accepted an invitation to sing the part of Don Alfonso in Mozart's opera "Così fan tutte" with the Chattanooga, Tenn., Opera Association Oct. 25.

The opera will be performed in English under the title of "Women Are Like That."

If you are one of the many men that has not decided as yet what kind of work you should go into after graduation, THIS NOTICE APPLIES TO YOU.

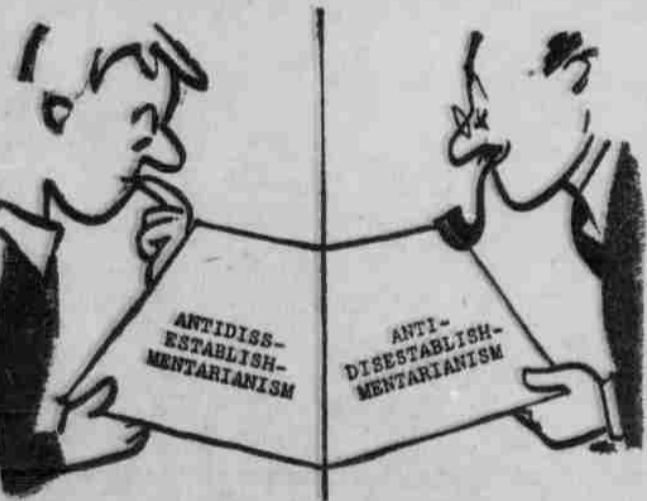

The Mutual Benefit Life Insurance Co. and William N. Lundy, Campus Unit Supervisor, are offering FREE OF CHARGE, a vocational guidance series of tests for the interested student to help him determine his mental ability, temperament-personality, vocational interests and sales and executive ability.

The testing will be conducted in Room 338 of the Student Union, October 12, at 7:30 P.M.

LITTLE MAN ON CAMPUS

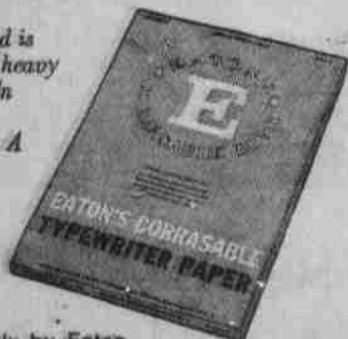

AFTER LOOKING OVER THESE TEST PAPERS - I'D SAY SOME OF YOU COULD WELL AFFORD TO PAY MORE ATTENTION IN CLASS.

NOT A SIGN OF A SLIP-UP!

Typing errors disappear like magic when you use Eaton's Corrasable Bond. Never a trace of the word that was erased; errors can be flicked off Corrasable's special surface with an ordinary pencil eraser. Saves re-typing, time and money. And the sparkling new whiteness gives all typing a new brilliance. You can't make a mistake getting Eaton's Corrasable. (Rhymes with erasable.)

Eaton's Corrasable Bond is available in light, medium, heavy and onion skin weights. In convenient 100-sheet packets and 500-sheet ream boxes. A Berkshire Typewriter Paper, backed by the famous Eaton name.

Captured BY ESCAPED CONVICTS!

Dr. Jekylls Bob and Pete have just been captured by escaped convicts. SURE, I'LL GET A COUPLE OF ROCKS FROM THE LAKE TO COOK ON. I'LL GO WITH YA - ANY NO FUNNY BUSINESS!

A short time later... Pete puts a rock at each side of the fire. CRACK! CRACK! SHOTS!

When the state troopers arrive... EXPLODING ROCKS... YOU SURE THINK FOR YOURSELVES! I'LL BET THAT'S WHY YOU'RE VICEROY SNAKERS!

THE RIGHT TASTE BECAUSE Viceroy's got it... at both ends

GOT THE FILTER... GOT THE BLEND!

RIGHT! VICEROY'S GOT IT... AT BOTH ENDS! GOT THE FILTER, GOT THE BLEND!

Note: Bob and Pete knew that rocks in a stream often take up water; when these rocks are heated, the water turns to steam - and the rocks explode!
