EATON'S CORRASABLE BOND

Typewriter Paper

Whatever your typing talents, you can turn out neat, clean-looking work the first time, with Eaton's Corrasable Bond Paper. Reason why: Corrasable has a special surface-it erases without a trace. Just the flick of an ordinary pencil eraser and typographical errors disappear. No smears, no smudges. Saves time, temper and money!

Corresable is available in several weights - from onion skin to heavy bond. In handy 100-sheet packets and 500theel next boxes. A fine quality paper for all your typed assignments. Only Eaton makes erasable Corraxable.

Engineers and scientists who will achieve Bachelor of Science of higher degrees by January or June of 1961 are invited to ON CAMPUS INTERVIEWS with an engineering representative of the DOUGLAS AIRCRAFT COMPANY on

Monday, Oct. 31

America's most exciting space and defense projects, including SATURN, SKYBOLT and MISSILEER - and others of like importance have created outstanding long range opportunities at Douglas in the following fields:

Electrical	Welding	
Electronics	Engineering Mach	
Mechanical	Physics	
Chemical	Mathematics -	
Aeronautical	Astronomy	
Metallurgical	Astro-Physics	

nics

Openings exist at Douglas locations in Santa Monica and El Segando, California and Charlotte, North Carolina.

If you are a U.S. citizen who will earn a qualifying degree, please contact your placement office for an appointment. If unable to do so, write to Mr. C. C. LaVene,

STU'S EXPLAINING HOW MACHINES WILL SOME DAY "OUTTALK" PEOPLE

"Shu" Smith graduated from Southern Cal with a powerful yen for excitement. His kind of excitement-Engineering.

He got what he hargained for (and a little more) when he joined Pacific Telephone. One of Stu's early assignments was to find out how existing Long Distance networks could be used to pipeline high speed "conversations" between computers in distant cities.

The fact that he did a fine job did not go unnoticed.

Today, four years after starting his telephone career, Senior Engineer Stuart Smith heads a staff of people responsible for telegraph and data transmission engineering in the huge transmission field Stu predicts data processing machines will some day do more Long Distance "talking" than people.

Los Angeles area. As a pioneer in this new data

Stu contacted 12 other companies before joining Pacific Telephone. "I don't think there's any limit to where a man can go in the telephone business today. Of course, this isn't the place for a guy looking for a soft touch. A man gets all the opportunity he can handle right from the start. He's limited only by how well and how fast he can cut it."

If Stu's talking about the kind of opportunity you're looking for, just visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."
