

Lab Food Program Offers Many Benefits for Coeds

Eight University coeds find that earning their board is no problem when they get paid for eating.

These eight students are participating in a pantothenic acid study project and have all their meals prepared for them in the lab.

The coeds find that between meal snacks are economical as all snacks must be specified at the lab.

Coeds that are subjects in the pantothenic study are Gay Nelson, Carolyn Cheney, Karen Leach, Suna Goksu, Janet Peterson, Mildred Svitak, Sharon Bruns and Lella Phandis.

During the next 50 days, these coeds will act as subjects and will consume a diet of natural food designed to find the pantothenic acid requirement of the body. Pantothenic acid is one of the complex B vitamins, said Dr. Hazel Fox, professor of home economics. It appears to be associated with other B vitamins in utilization of foods by the body.

Other Advantages
This study is good for more than one purpose for the eight coeds as specified meals seem to have a great

advantage. Karen Leach remarked that, "We're the most economical dates on campus with no snacks afterwards."

Results of the study may be another link in the chain leading to a better understanding of body needs.

Mrs. Fox said that the coeds are finding the study enlightening. She said that one of the coeds, Suna Goksu, a Turkish graduate student, felt that the project had three advantages. They are 1) you get a Sunday night meal, 2) you never have to wait in line to be served and 3) you receive payment for your time.

Fascinating
Another of the coeds commented that it was fascinating to find out what your body does with certain nutrients.

Summing up the whole study was Janet Peterson who said

that it's fun and exciting to eat from beakers and test tubes when you realize you are contributing to research.

YW Backs AFSC Talk In Union

World traveler, Cecil E. Hinshaw, will discuss American Friends Service Committee projects in the field of community relations Tuesday at the Student Union.

The 5 p.m. meeting in Room 338 is sponsored by the YWCA Christian Witness group and is open to all interested persons.

Hinshaw, who has been described as a world-renowned teacher, minister, author and traveler, has visited peace makers Vinoba Bhave of India, Kagawa of Japan, Pastor Mensching of Germany and Abbe Pierre of France.

The AFSC projects he will discuss include overseas neighborhood centers, the uprooted peoples of the world, the need for relief services and the technical assistance and creative solutions to international affairs.

Warren Witte, an AFSC student interne, will be available for interviews with students interested in AFSC work projects from 1-5 p.m. Tuesday in 335 Union.

Social Workers Discuss Alcohol

Statistics of alcoholism were discussed at the 17th annual Nebraska Social Work Institute last week.

These statistics show that well over one million gallons of hard liquor was consumed in Nebraska in 1955.

This represents part of the \$10 billion spent annually for the consumption of liquor in the United States, according to Robert Jorlin of Grand Island, director of the Douglas County Division of Public Health.

Add the taxes of \$3 billion to the total spent for alcoholic beverages and it adds to more than the total amount spent by the United States for foreign aid, Jorlin said.

More than 250 representatives have been sent to the institute to study subjects ranging from alcoholism to the problems of illegitimacy and the dependency of the aged.

Highlighting the conference today will be speeches by both John Cooper and Frank Morrison, gubernatorial candidates. Both will give their views on the social welfare policy of the state.

Strobe Lamp Used For 'Sight' of Music

The "world of ultra-high speed electronics" is being put to use at the University to provide the "sight" of music.

The movement of a bow drawn in legato stroke across the strings of a violin; the rhythmic, piercing snap of an arm creating staccato; the intricate pattern of fundamental and partial harmonics, may all be "seen" with a new electric device.

The instrument, a multiple speed stroboscopic lamp is being used by assistant professor of music, Louis Trzcinski, to illustrate a new text in which he hopes to show what a good stroke and a harmonic actually are.

The instrument, a gift to the department of electrical engineering from one of its world famous alumnus, Dr. Harold Edgerton of Massachusetts Institute of Technology, was originally designed for industrial use.

Trzcinski got his idea for adapting the instrument to teaching after watching the strobe light appear to stop a cooling fan operating at high speed.

"For years the music department has been using drawings to get these important points across to students. Now the intricate movements can be shown by photography," Trzcinski said.

The special strobe equipment works by setting off variable high speed light at a frequency equal to the number of oscillations at which the moving object is operating. The eye thus sees fast moving objects in only one place during a revolution.

The stroboscope can also be used with a camera to take a time exposure by breaking up a motion into many separate images.

Travel Tickets Go on Sale Today

Tickets for the World Travel and Adventure Travelogue Series will be on sale in the Union today through Friday.

Campus ticket sales will be conducted by the Union Talks and Topics committee. The series is sponsored by the Lincoln Chamber of Commerce.

Students will have the chance to see travelogues of America, Spain, the Scandinavian countries and Japan.

Each program will consist of two 45 minute reels with an intermission of 15 minutes. The travelogues will be personally narrated by the persons who filmed them.

The programs are scheduled for November 8, 15, 22 and 29. Each will be shown in the Nebraska Theatre at 7:30 p.m.

Prices for tickets are students, \$1.50 and adults, \$3.00.

Phi Beta Kappa Meet Thursday

Phi Beta Kappa will meet Thursday with a discussion "The Political Decisions of 1960."

Professor J. B. Shannon of the political science department will be the speaker for the 6:30 p.m. event which will be held in the Student Union.

Reservations may be made by calling HE 2-22783, extension 3128.

campus character:

BLACKSTONE TORT

Pride of the law school, Blackstone has never lost a moot trial. But there's nothing about his preferences in dress. He finds that when he's comfortable, he can trap a witness and sway a jury like Clarence Darrow.

So he always wears Jockey brand briefs while preparing his briefs. Exclusive Jockey tailoring gives him a bonus of comfort he gets in no other underwear. Fine Jockey combed cotton is more absorbent, smoother fitting, too.

Follow your best, feel your best, take a tip from Tort. Always insist on Jockey brand briefs. \$1.25. Your campus store has them now!

Music Hall In Omaha Hosts Shelley

Comedian Shelley Berman will present "All Sides of Shelley Berman" Oct. 28 in the Music Hall in Omaha.

Berman has appeared in cities from coast to coast as well as on television and in recordings such as "Inside Shelley Berman," "Outside Shelley Berman," and more recently, "The Edge of Shelley Berman."

Not Guilty

(Con't from Page 2)
left holding the milk. Maybe it was because we weren't organized. Anyway, we might have gotten out of the trouble like some of our friends, except, we cannot tell a lie.

Out of twenty-seven boys and thirteen girls in our class there was only one expelled. He was caught and used as an example for the rest of us. We were very good boys and girls the rest of the year (we were careful not to get caught). We don't know what he did after being expelled. We heard he attended under a different name — we're not sure. Well, it was fun to think back to the "good old days", but we are grown and mature now, and must only think about our immature rebelling. After all, we are college men and the times have changed.

Parks, Wilson Named to Scrip

New officers for Scrip, campus literary magazine, have been named recently:

They are: Lee Parks and Barbara Wilson, associate editors; Beth Dering, assistant business manager; Larry Reger, public relations manager; Paul Johns, assistant PR manager;

Joe Dasovic and Bob Kuzelka, members of the business staff; Thelma Christensen, art editor and Steve Wilson, assistant art editor.

Returning officers are Bill Johnson, editor and Mary Stastny, business manager. Deadline for the next issue of Scrip will be 5 p.m. Nov. 11.

Poems, criticisms, essays and short stories for the issue may be left in Room 205 Andrews Hall.

Theatre Presents Originals

Experimental Plays Set This Weekend

The first series of experimental laboratory theatre plays will be presented by the University Theatre on Friday and Saturday nights.

Two one act original plays will be produced in the arena theatre in Temple Building, followed by an audience participation critique of the new plays.

"A Home For Grandma," directed by the author, Opal Y. Palmer, will start at 8 p.m.

The play concerns the fate of a senile grandmother who is living with one of her daughters. It becomes imperative that another daughter take care of her. The complication is which one.

Linda Levine will be seen as the grandmother, Jenise Burmood as Clarissa, Mary Teale as Elizabeth and Linda Fixmer as Julia.

The rest of the cast includes Kathy Burkhart as Dr. Erikson, Myrna Ems as Mrs. Murphy, Linda Purbaugh as Kitty and Bob Rawson as Jack.

The second play will be "An Act of Kindness" by James W. Baker, directed by Sam Gossage.

It is the story of a faded actress, who gives her support to a young playwright only to be neglected by him.

Alan Donahue is played by Dan Rosenthal, Marian Loris Andrews by Jeanne Thorough and Joe Rydel by Gordon Trousdale.

Careers Day Will Feature Economist

Randall T. Klemme, vice-president of Northern Natural Gas Co., will be featured speaker at the Business Administration Careers Day banquet.

The banquet and presentation of awards and scholarships is scheduled for 6 p.m. tonight in the Student Union Pan American Room, according to Frank May, president of the Biz. Ad. Exec. Council.

Klemme will be the featured speaker of the all-day conference which will present 11 separate sessions. He will speak on "TGT Career of a Professional Economist."

Klemme, well-known in the fields of economics, education and area development, has traveled widely and has authored many technical articles.

Klemme was elected vice-president of Northern in 1959 and is responsible for the gas transmission company's broad marketing activities, which include economic and market research, sales promotion, customer relations and area development. He is also a member of Northern's Operating Committee.

The U.S. State Department selected Klemme in 1952 to establish the first Point Four program in Pakistan. The following year he assumed the direction of the Ford Foundation philanthropic activities in Karachi Pakistan.

A native of Belmont, Ia, Klemme was graduated from Grinnell College with a Bachelor of Arts Degree in economics. He continued his studies at the University of Chicago and Iowa State University earning a doctor's degree in agricultural economics from Iowa State.

- ◆ A K Q

Dear Dr. Frood: Here is a controversial bridge hand played at a recent college tournament. The contract was six no-trump. Some say declarer should have played the Fiskill Convention, squeezing West while end-playing East. Others, however, say a straight dummy reversal and a trump coup would bring home the contract. What would you do with a hand like this?

No Trump

DEAR NO TRUMP: In our club, successful play would require slapping the Jack, whistling at the Queen and quickly saying "Sir Hinkum Dinkum Fuzzy Duster" when the one-eyed King is played.

Dear Dr. Frood: How can a nice girl tell whether a boy is sincere—or just a wolf—when he asks for a kiss?

Nice Girl

DEAR NICE: Ask to see his teeth.

Dear Dr. Frood: Everybody laughed when I brought my mother to the Homecoming Dance. What's so funny about that?

Freshman

DEAR FRESHMAN: She's probably a very funny woman.

Dear Dr. Frood: Like every normal college man, I smoke Luckies. The other day I met this character who smoked something else. I want to know how a guy can be stupid as that and still get into college.

Lucky Fan

DEAR LUCKY: Obviously your college is very easy to get into.

"IF YOU DON'T SMOKE LUCKIES," SAYS FROOD, "YOU OUGHT TO HAVE YOUR HEAD EXAMINED!" And Frood ought to know. His head has been examined seventy-three times. (And phenologists are still wondering where he got the good sense to smoke Luckies.)

CHANGE TO LUCKIES and get some taste for a change!
