

Student Council Issues Final Warning to Organizations

The Student Council judiciary committee gave final warning Wednesday that it intends to enforce the following regulations of the Student Council as set forth in the Student Activities Handbook:

To be in good standing the organization must:

1. Have an approved copy of their constitution on file at the Division of Student Affairs.
2. Have an approved copy of their constitution on file at the Student Council Office.
3. Have on file at the Student Council Office a copy of the Standard Activities report form.
4. Unless excused, keep their funds in the Student Activities office.
5. A copy of the organization report showing names and addresses of officers on file at the Division of Student Affairs.
6. Have a copy of the organization report form showing names and addresses of officers on file at the Student Council Office.
7. Have on file at the Council office a complete list of active members.

The Council has the power to remove from office any student executive who refuses to carry its legislation into effect.

However, the judiciary committee stated that it intended to enforce regulations primarily through denial of University facilities to organizations not in good standing and freezing of an organization's funds in the Student Activities office.

Removal of any student officers would only be a last and final resort if he refused to follow the Council's rules. John Hoerner, chairman of the judiciary committee stated.

Only six organizations met the Council requirements at the time of the Council meeting Wednesday. They are Ag Economics Club, Alpha Phi Omega, Associated Women

Students, Independent Women's Association, Interservice Christian Fellowship and the Student Council.

The Council intends to publish its first official list of "Organizations in Good Standing" on Nov. 2, Hoerner stated. Any organization desiring information as to why they are not on the good standing list can obtain it in the Council office, Hoerner added.

The following chart shows the situation of each organization as of Wednesday as presented to the Student Council. The numbers following the organization name correspond to the above rulings of the Council with which they have complied:

American National Red Cross	125
American Institute of Architects	24
American Guild of Organists	24

Irish 'Informer' Is Foreign Film

"The Informer" is the second in the foreign film series which will be shown at the Nebraska Theatre, Wednesday at 8 p.m.

The movie is noted for its unusual photography as well as its story. It was shot entirely in the fog.

The story evolves around an Irish giant portrayed by Victor McLagen. Having been dismissed from the revolutionary forces of Ireland, he betrays his friend for the love of his sweetheart.

Union Workers Attend Jamboree

Union committee workers will be given a chance to get acquainted with each other at the "Know How Jamboree" on Tuesday.

Workers are to meet in front of the old entrance to the Student Union at 4:50 p.m. A bus will take them to the Boy Scout camp for supper and entertainment.

Cars will wait for late comers until 5:15 p.m. The buses will return to the campus by 7 p.m.

Flying High Retiring Col. Atwell Honored with Parade

The professor of air science, Colonel W. B. Atwell, was honored Thursday afternoon with a parade in recognition of his retirement from the Air Force.

Col. Atwell, a combat veteran of World War II and the Korean War will retire after 25 years of active duty.

Recognition Plaque The detachment at the University also presented him with a plaque in recognition of his service.

Col. Atwell entered the Army as a private and gained his commission through an appointment to West Point.

Two cadets were also presented with certificates indicating that they were distinguished AFROTC cadets. These certificates will eventually result in regular commissions in the Air Force.

Major Winton W. Ault is transferring to Grand Forks Air Force Base in Grand Forks, N.D. He served here as administrative officer.

AFROTC Flight The AFROTC Flight Instruction Program began this week with 20 AFROTC cadets participating. This program provides all interested seniors in the Advanced Air Force ROTC program with pilot training at government expense.

The program offers 36 1/2 hours of flying instruction from civilian pilots certified by the CAA. 35 hours of ground school including instruction in navigation, weather, CAA regulations, theory of flight and a private pilot's license upon completion of the program.

Approximately 15 cadets

TURNPIKE

Engineers and scientists who will achieve Bachelor of Science or higher degrees by January or June of 1961 are invited to ON CAMPUS INTERVIEWS with an engineering representative of the DOUGLAS AIRCRAFT COMPANY on

Monday, October 31

America's most exciting space and defense projects, including SATURN, SKYBOLT and MISSILEER—and others of like importance—have created outstanding long range opportunities at Douglas in the following fields:

Electrical	Welding
Electronics	Engineering Mechanics
Mechanical	Physics
Chemical	Mathematics
Aeronautical	Astronomy
Metallurgical	Astro-Physics

Openings exist at Douglas locations in Santa Monica and El Segundo, California and Charlotte, North Carolina.

If you are a U.S. citizen who will earn a qualifying degree, please contact your placement office for an appointment. If unable to do so, write to Mr. C. C. LaVene,

DOUGLAS AIRCRAFT COMPANY, INC.

3000 Ocean Park Blvd., Santa Monica, California

Education Keystone To Agriculture Power

Education is the key stone of seven rocks of hope to build an arch of strength for agriculture, said Dr. H. M. Briggs at a rural development workshop.

Dr. Briggs, president of South Dakota State College, projected the mental image of an archway to the future as he presented seven opportunity rocks.

The other opportunity rocks are improved technology, enterprise emphasis, business size, part-time farming, recreational opportunities and group action.

The education rock is the leader of the rest, said Dr. Briggs, because through education the other six have greater possibilities and values.

Improved technology has strengthened agriculture through development of such things as fertilizers, new seeds, machinery and irrigation equipment.

A third rock was enterprise emphasis, said Dr. Briggs. The emphasis allows the possibility of many farms to shift from one activity to another such as dairy farms to beet production.

Business size has changed through the years, Dr. Briggs said. Farms have become much larger and many South Dakota farms average about 750 acres per farm unit. Each farm unit had about 439 acres in 1930, he said. Part-time farming has also become important, he said.

Second Semester Exams Feature No Changes

Final exams times for second semester will be set up almost the same as final exam hours for this semester, according to Roy Arnold of the Student Council.

They are set up so that the morning classes will not have exams in succession. The order by hours are 8-2-3-9-1-10-4-11 o'clocks.

The second semester exams will start May 31 and run through June 8. The last day of classes is May 27.

Arnold, chairman of the Final Exams committee added that Dr. Floyd Hoover has several proposals regarding final exam scheduling and a plan for a new schedule book.

70 Per Cent Efficient Arnold said Hoover reported

ed that the present class schedule book is only "70 per cent efficient," when it was expected to be 90 to 95 per cent efficient.

Arnold hinted that the new schedule book would list hours of classes in the "army fashion" starting with 1 to 24 and the prerequisites would be eliminated.

It was moved and passed that the council invite Dr. Hoover to attend a Council meeting to explain his proposed changes.

Miller Heads Chicago Trip

James E. Miller Jr., of the University of Nebraska will speak on "Putting Literary Scholarship to Work in the Classroom" at the golden anniversary convention of the National Council of Teachers of English Nov. 24-26 in Chicago.

Nebraska panelists will include Irene Moerer and Bonnie Owens of Grand Island and Frank M. Rice of Omaha Central High School.

Comedy Opens Theater Season

"Six Characters in Search of an Author," a rough hewn but highly sensitive drama, will open the University Theater season Wednesday night.

A combination of documentary and comedy the play will describe the emotions of man in his search for self understanding. Comedy will be brought in a typical Italian theater revolt against author and director who insists on playing out the "truth in their lives" instead of a canned plot that has been arranged for them.

The central six characters will be played by Zeff Bernstein, Margery Coffey, Sharon Purbough, Stan Rice, Bill Raecke and Kay Steiner.

WEDNESDAY, NOV 2., 8 P.M.

Filters for flavor

—finest flavor by far!

Tareyton

DUAL FILTER

THE TAREYTON RING MARKS THE REAL THING

Tareyton has the taste—Dual Filter does it!

Here's how the DUAL FILTER DOES IT:

1. It combines a unique inner filter of ACTIVATED CHARCOAL... definitely proved to make the taste of a cigarette mild and smooth...
2. with a pure white outer filter. Together they select and balance the flavor elements in the smoke. Tareyton's flavor-balance gives you the best taste of the best tobacco.

NEW DUAL FILTER Tareyton
