

Glenny Proposals

(Continued from Page 1) the number of specialized and professional courses in the lower division by shifting them to upper division (2) designate clearly the classification of each course level of instruction (3) continue to set a definite number of units (the present 54 seems sufficient) which a student must have earned before he may be permitted entry into upper-division courses, (4) establish a definite number (40 or more) of upper division credits necessary for graduation.

—The University conduct a continuing educational program among its faculties and students on the function of the University Counseling Service and the ways in which it can be useful to the troubled student.

—The chancellor delegate to the deans of colleges and directors of services greater power and authority than is now allowed over budgeting, personnel and other administrative matters.

(Committee: This recommendation be "stricken from the report.")

—The University give serious consideration to creating a new position staffed by a dean to whom directors of service agencies, such as museums, television, and ROTC would report.

(The committee neither accepted nor disapproved this recommendation.)

Academic Dean

—The University consider appointment of an academic dean to whom all deans of colleges would report except the graduate dean and perhaps the deans of the medical college and agricultural college.

—The University create a position of dean for student affairs to direct admissions, registrations, counseling and guidance, housing, discipline, health service, loans and scholarships, testing service, placement service and not to exclude any other student activity.

LITTLE MAN ON CAMPUS

'PUT TH' COACH TOLD US TO START MAKIN' MORE USE OF TH' LIBERRY.'

—Meet The Frosh— Steele Holds New England Prep Crown at 1,000 Yards

By Janet Sack
Richard Steele, better known as Andy, holds the New England prep school championship for the 1000-yd. run in 2:21.4.

Steele graduated from Beverly, Mass., High School in 1959. He then attended Huntington Prep in Boston for one year as a post graduate.

The first time Steele went out for track he was a high school sophomore. He started by broad jumping and running the 220. He won a few races and began to get interested in track. Steele also played football and basketball during his sophomore year.

During his junior year Steele began to think seriously about track. In the state outdoor meet he placed second in the 440 with a :51.6, and broke his high school record for the 440.

In his senior year Steele decided to drop football and go out for cross country. He finished seventh in Class A in the state cross country meet.

holds the Essex County record in the 440 with a :50.8 and the 880 with a 2:00.2.

During his last year Steele was a double winner in nine dual meets. He doubled in the 440 and broad jump or the 880 and the broad jump.

At the state outdoor meet Steele placed third in the broad jump with a leap of a little over 21 feet. In the same meet Steele lowered his own high school record in the 440 to :51.4 when he won the race in Class B.

At an open meet Steele ran the 880 in 1:56.1 which broke the school record held by Doug Raymond, University of Boston track coach. This record gave Steele a sweep of the middle distance records at Beverly High in the 440, 600, and 880.

The summer after he was graduated from Beverly High, Steele did a great deal of running. In August he went to the Buffalo Firemen Meet sponsored by the AAU. In this meet Steele ran the lead leg on the mile relay team in :50.2, his best time for the 440.

"Top Condition"

"When I entered Huntington Prep that fall, I was in great shape," Steele said. "I had been running all summer and felt that I should have a fairly good cross country season."

Steele captained the Huntington Prep cross country team and won three dual meets.

Captain Steele anchored the winning indoor mile relay team in the BAA meet in the Boston Gardens. Their time of 3:26.4 set a New England record.

Later in the indoor season Steele won several 600-yard races in dual competition. He lowered his best 600 time to 1:16.0.

Steele said, "My biggest day in track was when I became the New England prep school champ in the 1000-yard run with a 2:21.4. I missed breaking the New England record by one-tenth of a second."

After the indoor season, Steele started practicing for the Penn Relays, the largest track meet in the United States. The Huntington team was the defending champion in the mile relay event.

Steele ran the lead leg for his team that won with a 3:29. In winning this race the Huntington Prep relay team became the mile relay champions of America.

Determination to make good his athletic ability is Steele's desire. "I know the Big Eight has great competition, and boys in the conference have better times, but I intend to work hard and give them good competition," he said.

Petsch Is Top Scorer For Frosh

Husker Yearlings Set for Opener

Daryl Petsch, Marysville, Kan., sharpshooter, is leading the freshman basketball scorers as the Huskers prepare for their first intercollegiate clash with Fairbury Junior College.

The two teams will meet in a preliminary to the Nebraska-Kansas game Saturday at the Coliseum. Petsch is scoring at an 18.0 per game average in eight contests thus far.

The eight games were intrasquad games and games against the Dental College all-stars. The Nebraska frosh will play a four-game slate meeting Iowa State at Ames, and Luther Junior College and Kansas State at the Coliseum.

Petsch amassed his total of 144 points on 60 field goals and 24 of 30 free throw attempts for a mark of 80 per cent from the charity stripe, scoring chart with a 15.0 per game average. Vincent is hitting 83 per cent from the free throw line with 24 of 29 attempts.

Sharpe may be without the services of his third and fourth leading scorers in Charles Jones and Chuck Sladovnik. Both are reportedly in scholastic difficulty.

Jones is averaging 11.0 Holy Hame, is scoring at a 9.0 pace.

Wins 600 Title

During his senior year Steele played basketball as well as competing in indoor track. He took the 600-yard title in the state indoor meet in Class B with a 1:17.2.

Steele captained the Beverly High track team to an undefeated outdoor season in the Essex County League. He

Science Grant Awarded To NU Research Team

The National Science Foundation has awarded a \$67,200 grant to a University research team for basic studies on the relationship between viruses and the cells.

University Regents accepted the grant Saturday.

The three member team from the dept. of plant pathology in the College of Agriculture includes Dr. William B. Allington, chairman of the department, Dr. Ellen Ball and Dr. M. K. Brakke.

"The research will represent a new approach to the study of viruses," said Dr. Allington. "Up to now the main emphasis in virus research has been placed on isolating viruses and studying their characteristics and composition."

"Although we will work with plant viruses, the studies will be basic enough so that the findings could apply to viruses attacking man, other animals and plants," he said.

"Through this research, we hope to get a rational idea of how the virus grows in the cell and how the virus affects plants," Allington said.

"We know that there are other materials in the cell which are there because the cell is infected with a virus. We do not know the function and nature of these other materials," he added.

A native Nebraskan, Dr. Allington holds a degree from the University and the University of Wisconsin.

Dr. Brakke is recognized internationally for having developed the density-gradient method of purifying plant viruses. A graduate of the University of Minnesota, Dr. Brakke joined the Nebraska staff in 1955.

Dr. Ball is a former member of Dr. Jonas Salk's laboratory where the Salk polio vaccine was developed. She is a graduate of the University of Pittsburgh.
