

Ag YW-YMCA Elect Officers; City YWCA Initiates Project

New officers of the Ag YWCA and YMCA have been elected for 1961 and a new Community Service has been started, according to Jan Hansen, president of the city campus YWCA.

Sharon Stevens is the new Richard Bringelson, the Ag YMCA, president.

Other new officers of the Ag YWCA are Sandy Clark, vice president; Beverly Gray, secretary; Carol Berndt, treasurer; Sara Springer, district representative; Gayle Blank, worship; Jane Price, membership; Jane Fauquet, program; Ruth Bishop, community service and Gwen Smith, publicity.

Other officers for the Ag YMCA are Bob Mason, vice president, Neil Grothen, secretary-treasurer; Walt Russell, district representative; George Bastead, worship; Bruce Myers, program; Don

Waddel, community service; Bill Garton, fellowship and Lyle Wright, publicity.

Cynthia Holmquist will head a new Community Service Project at the Orthopedic Hospital, said Miss Hansen.

Miss Holmquist said, "There is a need for group activity in the toddler age group and with the teenagers. Other organizations serve individual needs, but all children have to have social activities with one another. I believe the YWCA can fulfill this need through a new community service."

Students interested in this new community service will meet Feb. 16 at 4 p.m. to discuss plans for service. Students wishing to sign up for this activity should contact their house YWCA representative or the YWCA for more information.

Other new appointments made by Miss Hansen are

Jane Struve, chairman, and Karen Boesiger, assistant, of the love and marriage discussion group; Joan Sandall, chairman, and Marcia Hahn, assistant, of the 'world community discussion group; and Barbara Bakker and Marilyn Waybright, co-chairmen of the YWCA conference.

Miss Hansen also appointed Kim Pohlman, assistant to Christian Witness; Judy Hansen, assistant to Religion; Lee Brashear, assistant to Worship; and Nancy Sorenson, assistant to special projects.

Dr. Baller Appointed Chairman

The Board of Regents has named Dr. Warren R. Baller as acting chairman of the Department of Educational Psychology and Measurements.

A member of the staff since 1934, Dr. Baller will succeed Dr. Charles O. Neidt, who resigned this month. A sum of \$137,616 for research and training grants was also approved as was the contract with the Health, Education and Welfare department to establish a Language Institute. This institute includes a study for French and Spanish high school teachers during the summer.

The resignation of Ernest Feder, associate professor of agricultural economics, was accepted, effective March 1. Feder, a member of the staff since 1954, has taken a position with the International Cooperation Administration in Bogota, Colombia.

Dr. E. Crosby Howe, associate professor of entomology and a member of the staff since 1957, also resigned. He will head U.S. Department of Agriculture's new grain insect research laboratory at Brookings, S.D.

The Board also voted to change the name of the department of bacteriology to the department of microbiology.

Math Course On KUON-TV

A University mathematics department course in probability and statistics is currently being carried over NBC-TV. The course began Jan. 30 and is shown at 6:30 a.m.

Properly qualified individuals may obtain three hours credit through the Extension Division for the course.

Three years of high school mathematics including three semesters of algebra or one semester of college algebra is required to take the course for credit.

Those interested should contact the University Extension Division for further details.

Stations KHAS-TV, Hastings; KMTV, Omaha; and KTIV, Sioux City will carry the program from 6:30 to 7:30 a.m., and KUON-TV began showing the Continental Classroom course at 5:30 p.m. each weekday on Monday, one week later than the NBC telecasts.

Dr. Bernard Harris, assistant professor of mathematics, is the University coordinator for the course.

LITTLE MAN ON CAMPUS

—Cupid Comes Early— New Classes, Pins, Rings For Seven

Seven girls on campus will be starting off the second semester with new rings and pins in addition to new classes, books and instructors.

Pinings

Kathy Snyder, Chi Omega junior in home economics from Paxton, to Steve McMillan, Sigma Alpha Epsilon senior in Architecture from Scottsbluff.

Nancy Wilson, Alpha Xi Delta junior in Arts and Sciences and Teachers from Omaha, to Jim Panzer, Alpha Tau Omega junior in Pre-Med from Bassett.

Engagements

Sandy Morgan, Kappa Delta sophomore in Medical Technology from Wauneta, to Jack Fiala, University alum from Seward.

Jeanette Osborne, Fedde Hall senior in home economics from Atkinson, to Richard Sweet, senior in Agricultural economics from Stuart.

Jerda Thompson, Fedde Hall senior in Home Economics, to Angus Garey, senior in agriculture from Beaver City. Valerie Vavak, Fedde Hall junior in Home Economics from Mead, to Wellard

Witte, University alum in Agriculture from Yutan.

Sondra Peterson from Omaha to Chuck Beerman, Alpha Gamma Rho senior in Agriculture from Dakota City.

Engaged or Pinned?

Announcements of pinings or engagements for Wednesday's social column should be turned in to the Daily Nebraskan office by 2 p.m. on Tuesdays.

French Comedy Shown Tonight

"The Law is the Law," a French comedy, will be the film society feature to be shown tonight at 8 in the Nebraska Theater.

The story involves a French customs official and an Italian smuggler who becomes mixed up in bureaucratic red tape.

The critics have acclaimed the film as a "hilarious carnival in which two of Europe's funniest comedians, Fernandel and Teto, combine their talents."

Physics Grants Made Available For Grad Study

A \$9,500 grant from the National Science Foundation has been awarded to the University. These funds will be available to four graduate students in physics.

Deadlines for applications from holders of master's degrees is Feb. 24, according to Dr. John W. Weymouth, assistant professor of physics and administrator of the program.

A stipend of \$75 per week, plus allowances for travel and dependents will be awarded to each of the recipients of the grants.

The University was among 40 universities in the United States selected to receive the National Science Foundation grants this year.

Number of Guided Tours At Museum Increases

Nebraskans have shown a substantial increase in the interest of their state by the number of tours through the University of Nebraska State Museum at Morrill Hall, said C. Bertrand Schultz, director.

He released a three-month statistical report which showed that during the past month 2,500 school children and adults took guided tours through Morrill Hall.

During January, 75 groups of youths and adults were given tours by the museum's guide service through the hall of pre-historic exhibits of artifacts and Nebraska animal life.

This figure represents a 1,000 per cent increase over the number of persons who saw the exhibits during the same time last year.

One of the biggest attractions is Ceres, the transparent plastic woman being exhibited for the health education of young people and adults. Ceres, named after

the Greek goddess of agriculture, can be controlled manually or automatically.

The viewer sees the internal structure and function of the human body while a voice explains the internal organs. Three different taped audio discussions are used for different groups viewing the \$14,000 educational display. The one most commonly used is geared for the general public. A tape especially made for children and one for scientists are also used.

Ceres presentations can be seen on Saturdays at 10:30 a.m. and 3:45 p.m. and on Sundays at 2:30, 3:30, and 4:30 p.m.

Nebraskan Want Ads

CLASSIFIED AD POLICY
Ads to be printed in the Classified section of the Daily Nebraskan must be accompanied by the name of the person placing said ad.

PERSONAL

Would like to exchange four 7:00 Brothers 4 tickets for four 9:00 Brothers 4 tickets. Call TV 5-0409.

LOST

Cat and house keys on Vine St. 14-17. License tag attached. GA 3-2960. Reward.

NURSERY

Licensed nursery has vacancy for boy 3-8 years old. Day or boarding care. HE 5-2060.

APARTMENTS

Modern furnished apartments; utilities, automatic washer and dryer. Close to school, reasonable—HE 2-1929.

Cancellation for YR's
Young Republicans will not have a mass meeting Thursday evening due to the Brothers 4 performance. The Exec Board will meet at 5 p.m. Thursday in the Union.

"GIVE A MAN A TOUGH JOB AND A CHANCE TO GO SOMEWHERE ...AND HE'LL BREAK HIS NECK TO DO IT"

In 1958 when Bill Ebben was only a few months away from his engineering degree at the University of Detroit, he was in touch with 15 prospective employers.

He chose the Michigan Bell Telephone Company because: "This company offered the kind of engineering management opportunity I wanted—and they weren't kidding."

One of Bill's first assignments was a survey of Michigan Bell's big Central District to find out how long available building space could accommodate the switching equipment required by rapid telephone growth. "I wasn't given any instructions," Bill says, "I was just told to do the job."

So Bill did. His report became the guide for planning and budgeting future construction.

On his next move, Bill proved he could handle supervisory responsibility. He was sent to head up

a group of seven engineers to design a new long distance switching center for Saginaw, Michigan—a \$4,000,000 engineering project.

Today, Bill is on the staff of Michigan Bell's Program Engineer. He's working on a system for mechanized control of telephone construction costs.

How does Bill feel about his job? "Give a man a tough job and a chance to go somewhere—and he'll break his neck to do it. Of course, I don't think I'm going to be running the business next year—but I'm getting every opportunity to hit the top. You don't worry about opportunity here—you worry about whether you're as big as the job."

If you're a man like Bill Ebben, a man who can size up a job, figure out what needs to be done, and then do it—then you should get in touch with one of the Bell Companies. Visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK E. KAPPEL, President American Telephone & Telegraph Co.
