

Huskers Snap Loss String IM Cage Tempo

Wall Paces Victory Over Sooners, 83-61

By Hal Brown

Nebraska looked like anything but a seventh-place team in taking an 83-61 victory over Oklahoma Monday night at the Coliseum to break a seven-game losing streak before 1,500 fans.

Jan Wall, hitting on long jump and set shots, sparked the Husker scoring attack with 22 points. Ivan Grupe, making his first start of the campaign, added 15 points to the Husker total. Tom Russell chipped in 13.

"The boys really played good ball tonight. And how about that Grupe? Where has he been all season," asked Coach Jerry Bush.

The loss dropped Oklahoma into sole possession of the Big Eight basement with a 2-8 mark and leaves Nebraska with a 3-7 record. The Huskers meet Kansas at Lawrence Saturday and return home to face Kansas State Monday.

Bush's cagers led from the beginning after Bill Bowers' layin and a long set shot by Wall gave the Huskers a 4-0 lead.

10-Point Lead

The closest Oklahoma came was at 6-5 on a jump shot by Eddie Evans with 16 minutes left in the first period. The Huskers then spurred to a 40-30 halftime advantage.

The Sooners went scoreless for four minutes at the beginning of the second half as Nebraska built a 17-point lead on a layin and three free throws by Wall and a jump shot by Grupe.

The largest Husker margin of the contest was 25 points at 73-48 and 75-70. A layin by Rex Swett gave Nebraska the 73-48 lead and after Oklahoma's Tom Hedrick connected with a layin, Swett

came back with a corner jump shot to make it 75-70.

At this point with 5:35 left in the game, Bush cleared his bench and Jim Huge, Jim Yates, Berni Elle, Elmer Walin and Al Buuck held their own against the tallest team in the Big Eight.

Yates hit two jump shots and a hooker to please the sparse crowd in the closing minutes.

Roots Returns

Al Roots, who was reinstated after a conversation with Bush Monday afternoon, scored eight points for the winners. Roots had been boot-ed from the team last week-end for insubordination.

Nebraska hit a sizzling 64 per cent from the field in the first half on 16 of 25 attempts and finished the game with 30 of 59 for 50.8 per cent.

Frosh Win Again; Vincent Hits 20

By Norm Beatty

The Nebraska freshmen kept their momentum last night after a Saturday night victory to swamp the Dental College, 74-62.

Coach Tony Sharpe was able to strengthen his bench by using the previously absent Chuck Sladovnik and Neil Nannen, both ineligible for intercollegiate play, to overcome the Dents.

The freshmen, although never behind in the contest, had to prove their worth by using a late scoring spree and hustle to come out on top. The scoring story was the same last night as it was Saturday night — an overall team effort.

Big Bill Vincent gave indications that he has outlasted the flu by pumping in 20 points to lead the frosh. He was followed by Daryl Pelsch, Dennis Puelz and Roger Denesia who contributed 19, 16 and 11 counters respectively.

Top scorer of the night was Bob Prokop of the losing Dental College with 21 points. Former Husker star Don Smidt added 12 tallies and Larry Lytle had 11.

The usually consistent Charles Jones hit a bad night and played a small portion of the game. Although he displayed his usual consistency off the boards when he played, Jones was not able

to find the range and ended the evening with only two points on a single field goal.

Larry Lytle teamed with Jim Killinger and Don Smidt to keep the score down to a six-point deficit at the half-way mark.

Vincent's sweeping hooks and long jumpers immediately after the second stanza started, however, sent the frosh on their way.

The Dents made a futile attempt to catch up with 9:46 remaining when Prokop hit five straight field goals. The result was a 58-51 score.

But the younger and taller frosh used their stamina to quench the brief rally and moved to the victory.

Riley Tops In Billiards Tournament

Bob Riley won all three events in the campus billiards tournament in the Nebraska Union Sunday.

He defeated Bob Wollston in straight-rail billiards, dethroned Ray Smith in three-cushion billiards and edged Gary Hoge in 14-1 continuous billiards.

The combined scores of the champion and runner-up in each event will be entered as Nebraska's team scores in the national intercollegiate billiards tournament, according to Ron Gould, chairman of the Union games committee.

DU Dominating IM Paddle Ball

Delta Upsilon again dominates the paddle ball scene as they are rolling to a repeat performance of last year's all-University championship.

The DUs have qualified two doubles teams and three single competitors in the semi-finals of the tourney.

Delta Upsilon qualifiers in doubles are Myron Papadakis and Dean Prazak, Steve Cass and Wayne Hastings. Singles qualifiers are Papadakis, Hastings and Bob Kaif.

IM Cage Tempo Increases Today

By Cloyd Clark

Action will resume on all five courts tonight as the all-University basketball tournament steps up to full tilt after a weekend lull.

Twenty-two games will be played tonight compared with the 6 played both Friday and Monday nights.

One of the top games in tonight's court action will be the Dents vs. Navy ROTC in the independent division.

The two teams tied for the lead of League 7-A at the end of regular season play with 7-1 records. Navy ROTC defeated the Dents in an early season league game.

Two other independent league teams, the Play Boys and the Pacers will also meet tonight.

The Playboys, Pacers, Dents and Navy ROTC teams are the only teams in the independent division undefeated in tournament play.

The first round losers begin play tonight as Sigma Chi-A and Phi Kappa Psi-A meet on PE Court 1 at five o'clock.

Wednesday, Kappa Sigma will meet Beta Theta Pi and Ag Men will face Beta Sigma Psi in the Fraternity-A division playoffs.

Al Olsen will lead Burnett's A squad against Gus II-A in the third round of the Burr-Selleck tournament Wednesday.

The schedule

- Tuesday:
 - Ag College
 - 6:30—Zeta Beta Tau vs. Theta Chi
 - 7:30—Smith vs. Gooding
 - 8:30—Alpha Gamma Rho-A vs. Cornhusker-A
- PE Court 1
 - 5:00—Sigma Chi-A vs. Phi

Kappa Psi-A

- 6:30—Phi Delta Theta-A vs. Pioneer-A
- 7:30—Playboys vs. Pacers
- 8:30—Delta Sigma Pi-A vs. Farm House

PE Court 2

- 5:00—Gus I-A vs. Manatt-A
- 6:30—Sigma Alpha Mu-A vs. Pi Kappa Phi-A
- 7:30—Dents vs. Navy ROTC
- 8:30—Canfield-A vs. Seaton II-A

Varsity Court

- 6:30—Farmhouse-B vs. Theta Xi-B
- 8:30—Bessey-A vs. Fairfield-A

Frosh Court

- 6:30—Manatt-B vs. MacLean-B
- 7:30—Seaton II-B vs. Boucher-B
- 8:30—Renegades vs. Notionals

Wednesday:

- PE Court 1
 - 5:00—Hitchcock-A vs. Andrews-A
 - 7:30—Burnett-A vs. Gus II-A
 - 8:30—Selleck-A vs. Burr-Selleck-A

PE Court 2

- 5:00—Kappa Sigma-A vs. Beta Theta Pi-A
- 6:30—Ag Men vs. Beta Sigma Psi-A
- 7:30—Alpha Tau Omega-A vs. Delta Sigma Phi-A
- 8:30—Acacia vs. Theta Xi-A

Three Defending Champs Advance

Defending champions Myron Papadakis of Delta Upsilon in singles and Al Cummings and Dick Chamberlain of Phi Delta Theta in doubles have advanced to the third round of the all-University handball tournament.

Papadakis will face Cummings, and Chamberlain will play Art Blackman of Alpha Tau Omega in this week's flight one and two competition.

Don Fricke of Dent College has advanced to the semifinal round in flight four competition without playing a match. Fricke drew a bye in his first round match and won his second game by forfeit.

The doubles competition is now in the second round.

Baseball Meeting

A meeting for all students interested in participating in freshman baseball will be held at 7 p.m. March 2 at the Fieldhouse, according to baseball coach Tony Sharpe.

"I'VE GOT NEWS FOR YOU"

I know all of you have important things to do in the morning—like getting down to breakfast before your roommate eats all the marmalade—so you really cannot be blamed for not keeping up with all the news in the morning papers. In today's column, therefore, I have prepared a run-up of news highlights from campuses the country over.

SOUTHERN RESERVE UNIVERSITY

Dr. Willard Hale Sigatogs, head of the department of anthropology at Southern Reserve University, and internationally known as an authority on primitive peoples, returned yesterday from a four-year scientific expedition to the headwaters of the Amazon River. Among the many interesting mementos of his journey is his own head, shrunk to the size of a kumquat. He refused to reveal how his head shrinking was accomplished. "That's for me to know and you to find out," he said with a tiny, but saucy grin.

NORTHERN RESERVE UNIVERSITY

Dr. Mandrill Gibbon, head of the department of zoology at Northern Reserve University, and known to young and old for his work on primates, announced yesterday that he had received a grant of \$80,000,000 for a twelve-year study to determine precisely how much fun there is in a barrel of monkeys. Whatever the results of Dr. Gibbon's researches, this much is already known: What's more fun than a barrel of monkeys is

To determine precisely how much fun there is...

a pack of Marlboro. There is zest and cheer in every puff, delight in every draw, content and well-being in every fleecy, flavorful cloudlet. And what's more, this merriest of cigarettes comes to you both in soft pack and flip-top box wherever cigarettes are sold at prices that do no violence to the slimmest of purses. So why don't you settle back soon and enjoy Marlboro, the filtered cigarette with the unfiltered taste.

EASTERN RESERVE UNIVERSITY

The annual meeting of the American Philological Institute, held last week at Eastern Reserve University, was enlivened by the reading of two divergent monographs concerning the origins of early Gothic "runes," as letters of primitive alphabets are called.

Dr. Tristrom Lathrop Spleen, famed far and wide as the discoverer of the High German Consonant Shift, read a paper in which he traced the origins of the Old Wendish rune "pt" (pronounced "krahtz") to the middle Lettic rune "gr" (pronounced "albert"). On the other hand, Dr. Richard Cumberbund Twonkey, who, as the whole world knows, translated "The Pajama Game" into Middle High Baetrician, contended in his paper that the Old Wendish rune "pt" derives from the Low Erse rune "nil" (pronounced "ar").

Well, sir the discussion grew so heated that Dr. Twonkey finally asked Dr. Spleen if he would like to step into the gymnasium and put on the gloves. Dr. Spleen accepted the challenge promptly, but the contest was never held because there were no gloves in the gymnasium that would fit Dr. Twonkey.

(The reader is doubtless finding this hard to believe as Eastern Reserve University is celebrated the length and breadth of the land for the size of its glove collection. However, the reader is asked to remember that Dr. Twonkey has extraordinary small hands and arms. In fact, he spent the last year working in a small-arms plant, where he received two Navy "E" Awards and was widely hailed as a "mummy little chup.")

PIONEERING IN SPACE RESEARCH VIA SPACECRAFT

PLAN YOUR FUTURE WITH THE LEADER IN SPACE SCIENCE

Since the beginning of his intellectual awareness, Man has looked upward to the outer void surrounding his planet Earth. He has watched the twinkling stars and wondered at the never-ending dance of the planets around the Sun. He has dreamed and written of the possibility of exploring outer space and speculated endlessly on what he might find could be but explore those silent spheres.

A practical beginning to these century long yearnings has already been accomplished with man-made satellites already girdling the Earth. Now, the next stage is under way—the daring attempt to explore the Moon and the planets of our Solar System and their environments.

The National Aeronautics and Space Administration has assigned Caltech's Jet Propulsion Laboratory (JPL) the responsibility for the Nation's program of unmanned lunar, planetary, and interplanetary exploration. The objectives of this program are to contribute to mankind's fundamental knowledge of space and the space environment and to the development of the technology of space exploration. For the next ten years, as larger booster vehicles become available, spacecraft with ever-increasing scientific instrument payloads will be developed.

JPL will conduct the missions, utilizing these spacecraft to orbit and land on the Moon, to probe interplanetary space, and to orbit and land on the near and far planets.

Earliest of these spacecraft will be the "Ranger" series now being designed, developed and tested at JPL. The mission of this particular series will include first, exploration of the environment and later the landing of instrument capsules on the Moon.

Subsequent steps will continue a constant probing for the knowledge of what is beyond and will require all the skills, ingenuity, courage, endurance, perception and imagination that men can bring to the task.

Never before has such a wide vista of opportunity, or a greater incentive been open to men trained in all fields of modern science and engineering. Every day at JPL new problems arise, new theories are advanced, new methods tried, new materials used, and new principles discovered. Wouldn't you like to be part of this exciting activity?
