

### NU Matmen in Home Meet

Nebraska's wrestlers can achieve the best dual record for a Husker team since 1929 with a win over Missouri at 7:30 p.m. Saturday on the Coliseum mats.

Coach Mickey Sparano's grapplers have a 4-3 record. The 1929 team under John Kellogg won five and lost three. Saturday's match will be the final tuneup before the Big Eight championships at Norman, Okla., Mar. 10-11.

The probably Husker lineup will be Faber Jenkins, 123; Mike Nissen, 130; Jim Falmon, 137; Larry Lebruska, 147; Harold Thompson, 157; Stan Fraley, 167; Pat Fitzgerald, 177 and Raschke, heavyweight.

## Seven Teams Entered In All College Gym Meet

By Hal Brown

Seven teams are entered in the 15th annual All College Invitational Gymnastics meet to be held today and Saturday in the Physical Education Building.

Preliminaries will start at 2 p.m. and 7:30 p.m. today with the finals set for 2 p.m. Saturday. The top ten in each event in the preliminaries will qualify for the finals.

Teams competing will be Nebraska, Kansas State, Air Force Academy, Colorado, Fort Hays State, Mankato State and Colorado State College.

Nebraska's undefeated team has beaten each of the teams with the exception of the Air Force during the past season. The Huskers did not meet the Falcons.

The Air Force is defending

champion with Colorado State finishing second and Nebraska third in last year's meet held at the Air Force Academy. Nebraska has won the meet seven of the 14 years it has been held.

Husker coach Jake Geier tabs the Air Force as the favorite again with Nebraska, Colorado State and Mankato State battling for the second spot.

Friday afternoon's preliminaries will include free exercise, rope climb, side horse, horizontal bar, tumbling, rebound tumbling, parallel bars, flying rings and still rings.

Nebraska juniors Jan Wall and Tom Russell are honorable mention choices on the Associated Press all-Big Eight basketball team.

Kansas placed two on the AP first team. Jayhawkers Wayne Hightower and Bill Bridges were joined by Henry Whitney of Iowa State, Larry Comley of Kansas State and Charles Henke of Missouri.

The second five includes Kansas State's Ced Price and Al Peithman, Colorado's Roger Voss and Wilky Gilmore and Oklahoma State's Fritz Greer.

### AP Mentions Wall, Russell

Nebraska juniors Jan Wall and Tom Russell are honorable mention choices on the Associated Press all-Big Eight basketball team.

Kansas placed two on the AP first team. Jayhawkers Wayne Hightower and Bill Bridges were joined by Henry Whitney of Iowa State, Larry Comley of Kansas State and Charles Henke of Missouri.

The second five includes Kansas State's Ced Price and Al Peithman, Colorado's Roger Voss and Wilky Gilmore and Oklahoma State's Fritz Greer.

## Discover secret of making Muscle Power last longer

Now for the first time, science has discovered an easy way to increase muscle endurance. Anyone who wants to do better at sports or exercise can give their muscles longer-lasting power with Absorbine Jr. WARM-UP—the new pre-exercise rub.

Now rub on WARM-UP before you exercise to help you keep stronger longer. Think of how much better you can do at sports like bowling, basketball, football and hockey with extra endurance. WARM-UP helps muscles fight fatigue—use it any time you want extra stamina. Available at all drugstores.

## Sevigne Says 3rd Place Possible in Big 8 Meet

By Janet Sack

The Nebraska cindermen take a 3-1 record with them into the Big Eight indoor championships at Kansas City, Mo., today and Saturday.

"The Huskers should score in 10 to 12 events," said Coach Frank Sevigne. "We will have no real big winner, but the team should do no worse than fourth or fifth and possibly land third."

In the high hurdles Bill Fasano will attempt to catch a blue ribbon over Rex Stucker of Kansas State and Curtis McClinton of Kansas. All have times of :07.4.

Steve Pfister will represent the Scarlet and Cream in the 60-yard dash. Pfister has a time of :06.3 in dual competition.

Fred Wilke, sophomore, will be a main contender in the 60 lows with his :07.0, in the high jump with a 6-2 effort, and in the broad jump with a 23-2 leap. Team mate Bob Knaub, with a 23-8½ in the broad jump, should place in the top five.

Husker soph Ray Stevens, with a 4:20.8 mile effort, will give Bill Dotson of Kansas and Bob Hanneken of Missouri competition in that event. Stevens will double in the two-mile in which he has a 9:46.4.

In the two-mile Billy Mills of Kansas and Hanneken will battle for the top positions.

Sevigne says the Huskers should score in 10 to 12 events, but the team should do no worse than fourth or fifth and possibly land third.

## NU-Wildcat Rematch Set

Nebraska will face Kansas State Saturday night at Manhattan in a rematch of their contest here Monday which the Wildcats won, 77-67, after being pressed all the way.

The Kansas State win over Nebraska clinched an NCAA berth for the Wildcats but Kansas still has a chance to win the Big Eight title. The Jayhawks are ineligible for the NCAA tourney.

"We have an NCAA berth, now we want the Big Eight championship," says Tex Winter, Kansas State basketball coach. "This doesn't mean we are selfish. So far as we are concerned, and so far as most of our fans are concerned, the conference title is the big thing."

Winter isn't taking the Huskers lightly. He says, "Nebraska is big, rugged and considerably improved over early season. On the basis of their last few games the Cornhuskers would have to be rated among the best teams in the Big Eight."

The games Winter is speaking of are the last three in which Nebraska broke a seven-game losing streak with a win over Oklahoma, then upset Kansas at Lawrence and nearly upset the Wildcats Monday.

Husker coach Jerry Bush plans to start Rex Swett and Al Roots at guards with Tommy Russell at forward. The other two spots will be up for grabs among Jan Wall, Bill Bowers, Ivan Grupe and Jim Kowalke.

## Four Move To Finals

Four teams have secured tickets to the finals of the all-University tournament as intramural basketball action is nearing the end.

Kappa Sigma, Navy ROTC, Gus II and Phi Delta Theta have advanced to the finals of Fraternity, Independent, Burr-Selleck and C-team competition respectively.

Sigma Chi and Manatt lead the B-team tournament with positions in the quarter-finals. B-team competition will be at full tilt next week after a lay off this week end because of the gymnastics meet.

Results:

Fraternity A	Theta Xi 33	Alpha Tau Omega 22
Beta Theta Pi 47	Beta Sigma Psi 37	
Wednesday:	Beta Theta Pi 45	Theta Xi 32

### What's it take to make the right connection?

Plenty! Consider the problem. Western Electric manufactures the switching systems which connect some 60-million Bell telephones throughout the U. S. The average call over today's electromechanical system requires 420 relay operations. All together, this interconnecting equipment makes up the heart of what is, in effect, the world's largest machine.

That's where Western Electric and you come in. The switching equipment for this "machine" involves an enormous manufacturing job carried on by our plants throughout the country. Because of the size and service requirements involved, we require quality standards far exceeding those of ordinary manufacturing. The size of this job presents an unusual challenge to the engineer who may save the Bell System many thousands of dollars by even a small cost-reduction step.

While today's switching calls for a priority on engineering, tomorrow's will be even more exciting. For even now the revolutionary Electronic Central Office is under field trial and promises to remake the world of telephony. Future Western Electric engineers, working closely with their counterparts at Bell Telephone Laboratories, will concentrate heavily on developing manufacturing methods for this ECO equipment.

Your Western Electric assignments may cover many of our other responsibilities as the world's leading communications manufacturer. Perhaps you'll work on advances in microwave transmission, or even on satellite communications.

Joining Western Electric may well be your right connection.

Opportunities exist for electrical, mechanical, industrial, civil and chemical engineers, as well as physical science, liberal arts, and business majors. For more information, get your copy of "Western Electric and Your Career" from your Placement Officer. Or write College Relations, Room 6106, Western Electric Company, 195 Broadway, New York 7, N. Y. And be sure to arrange for a Western Electric interview when the Bell System recruiting team visits your campus.

## GET ACQUAINTED WITH YOUR FUTURE

Graduating scientists and engineers should know far in advance where their greatest opportunities are for professional development, personal achievement, and job security.

It is important, too, that graduates choose the environment that contributes best to their career requirements . . . association with outstanding leaders . . . assignments to highly diversified research and development programs . . . access to modern facilities.

Naval weapons laboratories are well known for scientific achievements. In California, they provide the environment and the challenge to attract the young scientist or engineer to a more rewarding future.
