Dinners Kickoff New Greek Week

By Dave Wohlfarth

Exchange and individual house dinners are planned for Monday and Tuesday nights of this year's Greek Week, April 16-22.

These dinners are part of the new activities which will be held this year. Greek Week is being planned by the Junior Interfraternity Council, in conjunction with the IFC affairs committee and Panhellenic.

The individual house dinners Monday night (April 17) will feature discussions with alums. The choice of the alums is left up to the individual house, according to Roger Myers, IFC affairs committee chairman.

The topic of the discussion will be "alum-Chapter Relations" and the talks may be either panel or group discussions, said Phil Tracy, IFC public relations chairman.

After the Monday night dinner, a fraternity may serenade the sororities from 10:30

till 12 p.m., if they desire, Myers explained.

Tuesday night's activity during Greek Week is exchange dinners among houses.

Ron Grapes, who is chairman of the committee for Tuesday of Greek Week, has set up the following dinners between houses:

- Acacia—Pi Beta Phi
- Theta Chi—Pi Beta Phi
- Alpha Gamma Sigma—Pi Beta Phi
- Delta Sigma Phi—Chi Omega
- Phi Kappa Pi—Chi Omega
- Zeta Beta Tau—Chi Omega
- Alpha Gamma Rho—Gamma Phi Beta
- Farm House—Sigma Kappa
- Sigma Chi—Delta Delta Delta
- Delta Upsilon—Alpha Xi Delta
- Sigma Alpha Mu—Delta Gamma
- Sigma Nu—Delta Gamma
- Delta Tau Delta—Zeta Tau Alpha
- Sigma Alpha Epsilon—Zeta Tau Alpha
- Kappa Sigma—Kappa Delta
- Phi Kappa Psi—Alpha Chi Omega
- Phi Delta Theta—Kappa Kappa Gamma
- Beta Theta Pi—Alpha Omicron Pi
- Alpha Tau Omega—Kappa Alpha Theta
- Theta Xi—Kappa Alpha Theta
- Phi Gamma Delta—Alpha Phi
- Beta Sigma Psi—Alpha Phi

Glee Club On Tour This Week

The University Varsity Glee Club is touring five Nebraska towns this week and will present its annual Lincoln concert Sunday at 4 p.m. in the Student Union.

The Glee Club is under the direction of Prof. Dale Ganz. No admission will be charged at the concert.

The Glee Club consists of 65 male singers and a girls' sextette. The group performed Monday evening in the Uehling auditorium. Yesterday morning the Glee Club appeared in Wahoo and appeared at 1 p.m. at Fremont High School.

Today the group will give two performances, one at 10:30 a.m. in West Point's High School and one at 3 p.m. at Tekamah High School.

Included in the concert program will be "Drinking Song from Sir John in Love," "Al-leluja," "We Be Three Poor Mariners," "Soldier's Song," "Lo, Here the Gentle Lark," "The Testament of Freedom," "Lorena," "Bonnie Eloise," "Streets of Laredo," "Wait for the Wagon," and "For Men Only."

There will also be selected solos by tenor George Killebrew, selected numbers by the girls' sextette, and ragtime piano selections by John Svoboda and Mac Johnson.

Soloists will be Susan Swift, Gary Christiansen, Glenn Dutton, Douglas Busskohl and John Svoboda.

The Glee Club consists of all non-music majors who enjoy singing. Members of the Girls Sextette are Susan Daventport, Susan Swift, Kathryn Madsen, Cheryl Jaecke, Mary Knolle and Pat Mullen.

Pre-Med Day Held in Omaha

The University's College of Medicine Pre-med Day will be held in Omaha on April 22.

The College of Medicine invites juniors and seniors interested in medicine and other students interested in medical technology, nursing, x-ray technology, their advisers and interested faculty to attend.

Registration will be handled in Conkling Hall from 8-8:30 a.m. immediately south of the Children's Hospital, 44th and Dewey.

Campus tours, displays, luncheon, medical presentations and discussions have been planned.

Students planning to attend should sign the sheet on the bulletin board at 306 Bessey Hall by Wednesday.

Degree Analysis

Any 1962 graduate who has not been checked for graduation but who desires an analysis of degree requirements before registering for the fall semester should leave his request at the Registrar's Office, Administration 208, by April 20.

Unless the request is received by the above date there is no assurance that the analysis will be ready by registration time.

HERE'S THE PITCH

Kay Hirschback 1960 Nebraska Sweetheart presents a baseball autographed by the lead players in the Kosmet Klub Spring show, Damn Yankees, to Chancellor Clifford Hardin. Miss Hirschback was chosen Nebraska Sweetheart at the KK fall show. Damn Yankees will be presented Saturday at 8:15 in Pershing Auditorium.

Dancers to Present Look into U.S. Past

This year's annual Orchesis presentation will be "That the Past May Live," a summary of the United States' history in dance form.

The show will be presented Friday night at 8 p.m. in the Howell Memorial Theater. Admission is 75 cents.

Some of the program headings and dances include Colonialism, Witchcraft, Colonial Hall, Independence Declared, Ballad of John Henry, Interpretation of Cake

Walk, The Way the Money Goes, and Women Suffrage.

The choreography for the show is being done by 25 senior members of Orchesis.

Orchesis is derived from a Greek word meaning not only to dance, but also to know movement in all its implications as a medium of expression. Modern dance groups in colleges and universities throughout the nation have organized under the name of Orchesis since 1919, when the first group was formed at the University of Wisconsin.

The University organization was organized in 1921. The purpose of the club is to further interest in creative dancing and to raise the standard for dance as a form of art.

Membership into Orchesis is by try-outs. Orchesis is open to University students who have sufficient dance experience, not only to profit by working with the group, but also to contribute to its advancement. The students in the group must also maintain high scholastic records.

The officers of Orchesis are Glenda Luff, president; Anne Sowles, vice president; Karen Costin, treasurer; Judy Howard, secretary; Ruth Read, publicity; Alma Matuza, costumes; Jo Janet Ginnich, properties; Mrs. Dorothy Hughes, faculty advisor; Mrs. Marilyn Braught, accompanist; and Mrs. Lynn Asprooth, pre-orchestration advisor.

Language School Selects NU Prof

Paul Schach, University professor of Germanic languages, has been selected to instruct German courses at the third Modern Language Institute at the University of Colorado.

Schach will be instructing pattern practice, pronunciation and applied linguistics for the second year during the June 25-Aug. 19 institute.

The project is made possible by a \$143,294 grant from the U.S. Office of Education under the National Defense Education Act.

It will be the largest of 70 such institutes and the only one to offer training in French, German and Spanish.

Awards Dessert

The Student Union awards dessert for Union chairmen, assistants, and workers will be held at 7 p.m. tonight in the Union Ballroom.

New chairmen and assistants will be announced and outstanding workers recognized. All Union workers, chairmen and assistants are invited to attend.

TODAY ON CAMPUS

Tuesday:

Faculty Senate, 4 p.m., Love Library auditorium.

KUON, 7:30, House & Home, questions for the experts; Your Unicameral.

Ottoson Named To Task Force

Dr. Howard Ottoson, department of agricultural economics chairman, has been appointed to the Federal Economic Research Service task force for studying farm credit in Washington, D.C.

Dr. Ottoson is spending a week in the nations capital as the task force studies the problems of farm credit and its relations to persons getting established in farming.

The purpose of the meeting is to make recommendations on the national level about farm credit, according to Dr. Ottoson.

Boston Art Critic Lectures Friday

Dorothy Adlow, Christian Science Monitor art critic, will lecture on contemporary art in the Union Ballroom at 11 a.m. Friday.

Miss Adlow is a graduate of Radcliff College and a regular lecturer at the Boston Museum of Fine Arts. A noted art critic, author and lecturer, she recently received the National Award in Art Criticism from the American Federation of Art.

Soviet Group En Route To University; Arrival Scheduled For April 21

By Janet Sack

The Soviet group which will come to the University campus on April 21 has arrived in the United States and is now in Milwaukee, Wis.

Friday the group will arrive in Des Moines, Ia., and from there will come to the University.

The Soviet group, sponsored by the YW-YMCA from the University, Nebraska Wesleyan University and the central YW-YMCA, will be on the campus for five days and will take part in government day, YW-YMCA day, family day, industry day and education day.

The members of the Soviet group are not students, but are working in varied occupations. Included in the group are two journalists from the Soviet press.

Group Data

The group members, their occupation and age are: Gamlet Mamed Ogly Aliev, mechanical engineer, 24; Nikolai Georgievich Baranov, history professor, sub-group leader, 39; Yuri Evgenevich Bychkov, mechanic, 29; Mavr Mkhitarovich Davtyan, lawyer, 31; Vadim Vasilevich Koptilin, lecturer, 29; Inga Sergeevna Runova, female journalist for the Pravda, 30; Gumar Garifovich Telyashev, oil industry engineer, 29; and Yannis Izidorovich Vaivod, journalist for the Soviet Youth, 32.

During the morning of government day, April 21, the group will tour the state capitol and visit the various offices and the unicameral. The legislature has asked that one of the students speak to them.

That noon the group will have lunch with members of Young Democrats and Young Republicans. In the afternoon from 2-3:30 the Soviet group will hold a press conference. The evening will be highlighted by a dinner with Gov. Frank Morrison.

During the YW-YMCA day, April 22, the group will travel to Camp Brewster for a conference. During the evening the group will be entertained by the Nebraska International Association.

Family Day

On April 23, family day, the group will have lunch with the families with whom they are staying. In the afternoon the Soviet group will tour the State Historical Society. The evening will be spent with their respective host families.

Industry day, April 24, will be spent touring the various industries in Lincoln.

The last day, education day on April 25, will be spent visiting the University, Nebraska Wesleyan, and elementary or secondary schools in Lincoln.

At 4 p.m. on education day there will be a discussion on the University and Wesleyan

campuses with three Soviet guests and three United States representatives as leaders. At 6:30 p.m. the Soviet group will be honored at a banquet.

Chairmen

Ray Preston is the overall chairman of the visit and John Sampson from Wesleyan is in charge of arrangements. Karen Long is the program chairman. Jan Hansen is the chairman of the host group which will involve many people from the University and Wesleyan, graduate and undergraduates from both institutions and various families in Lincoln. The members of the host group will accompany the Soviet group members.

Physicist Rinehart To Speak

Talks Part of Science
Foundation Meeting

Dr. John Rinehart, world-known physicist and astrophysicist, will lecture at the University this week, sponsored by the American Astronomical Society through a National Science Foundation Grant.

Dr. Rinehart, who is director of the Colorado School of Mines' Mining Engineering Research Laboratories, will discuss "Lunar Colonization" Friday at 4:15 p.m. in 210 Brace Lab.

This meeting is also part of the program of the Nebraska Academy of Science, which will hold its two-day sessions at that time.

Dr. Rinehart has been involved in the application of scientific principles of space investigation, and has designed a pilot model for the moon's first building.

While assistant director of the Smithsonian Astrophysical Observatory at Harvard University, he directed research in the field of meteorites and other high velocity bodies in gaseous medium; he also supervised much of the visual tracking of the world's satellite programs.

Although known as a physicist, Dr. Rinehart concentrates most of his research in the fields of explosive loads and material stresses and strains.

In connection with his research, he will also speak Thursday at 4:15 p.m. in the Physics Colloquium on "The Fracturing of Materials Under Impulsive Loads." The talk will be in 210 Brace Lab.

Spring Day Bosses Name Thirty Committee Workers

By Ann Moyer

Thirty University students have been named as 1961 Spring Day workers in preparation for the annual event which will be held Friday, May 5.

The workers will be in charge of the games, publicity and trophies for the afternoon of fun which will be held on the Ag campus this year. The reason for the move from the athletic practice field to Ag is due to the greater facilities offered on Ag for fun and games.

The first annual Student Council sponsored Spring Day was held in 1956 and included faculty participation in the games. Chancellor Clifford Hardin was one of the faculty winners in the baby bottle contest.

Over 1,000 students participated in the festivities of the day which included the games, a barbecue, carnival and the Student Union's 18th birthday celebration.

Big Weekend

In 1957, the Friday preceding Ivy Day was "given" to the students for their Spring Day events. The gaiety began at 8 a.m. and continued until midnight. The daytime festivities were centered on Ag campus in conjunction with the University rodeo. A caravan of city campus students lead off the day and the fun was concluded by the Union's birthday celebration and carnival.

The 1958 Spring Day plans were altered suddenly just a

few days before the day of the festival due to a legal problem involving the raffle of a 1941 Chevrolet. Original plans were to give the car to a University student who had entered the raffle. However, this plan was proved to be contrary to the state law so the car was awarded as a prize to the contestant giving it the best name.

A second incident of that year involving the law was the disappearance of six of the nine trophies to be awarded.

The car cramming contest was one of the main attractions of the 1959 and the Union's 21st birthday celebration were among the major attractions of the 1959 Spring Day celebration.

Sweatshirt Prizes

Sweatshirts replaced some of the trophies as prizes in the 1960 Spring Day competition. Among the new contests and games were the girls' tricycle contest and the greased pole contest.

This year's games will be entirely different from previous years except for the traditional tug-of-wars and the push ball event. Two mystery events will also be included among the games.

Committee members chosen are:

William Ahlschwede, Harold Bauer, Sam Coudit, Larry Garrop, Bill Eastwood, Larry Hammer, John Lahff, Gifford Lou, Steve Scholder, Robert Weber, Dave Zimmer, Jim Hansen, Gary Lacey, Dan Rosenthal, Martha Ann Dubas, Nancy Erickson, Lorr Harris, Betty Ann Harsh, Susie Irvine, Pat Kinney, Phyllis Knippling, Nelnie Larson, Sharon Meastino, Susie Pierce, Linda Reno, Ann Wahl, Sue Stewart, Karen Ramussen, Sue Hovik and Sherrill Gestlinger.

'Corkscrews' Adorn Morrill Hall

By Margy Martin

The "Devil's Corkscrews," which had paleontologists scratching their heads for many years, has been given a special area in Morrill Hall.

These spiraled fossils from Sioux County, which were the homes of primitive rodents which lived some 16 million years ago, are displayed alongside the world's largest hog and the two-horned rhinoceroses.

The "Devil's Corkscrews," were named Daimonelles in 1891 by the first major paleontological expedition of the University which was led by Dr. Erwin H. Barbour, the Museum's director from 1891 to 1941.

The Sioux County discovery greatly impressed the first field party and Dr. Barbour wrote that they possibly could be some ancient worms or sponges.

The fossilized burrows resembled a large evenly spiraled vine, six to eight feet in length. Dr. Barbour later concluded that the "Corkscrews" were fossilized plants.

Another scientist speculated that they resembled the spirally coiled lianas common in tropical forests. He said that perhaps they were buried in sand, the decayed to leave a hole which later could be occupied by animals. However, it is generally accepted now that the "Cork-

screws" were the burrows of rodents. In fact the Museum display shows the skeleton of a fossilized beaver found in the bottom, or nest, of one of the "Corkscrews." Throughout the geological times, the burrows were filled with roots, volcanic ash, lime, and water, forming a natural cast.

Dr. C. Bertrand Schultz, Museum director who has made extensive studies of the material during the past 25 years, said the strange part of the "Corkscrews" is that some spiral to the left and others to the right.

The only place the "Corkscrews" can be found in Nebraska is in Sioux County, along the Niobrara and White Rivers and along the Pine Ridge. Dr. Schultz explained that although Pine Ridge passes through Dawes and Sheridan Counties, no examples have been found there. "Corkscrews" have been observed in Wyoming near Lusk and Van Tassel in Niobrara County and near Spoon Butte in Gosheen County.

He explained that both of these Wyoming counties adjoin Sioux County and that these "Corkscrew" beds are a continuation of those in Nebraska.

The Bertha and John Agee Memorial Fund, which is given through the University Foundation is financing the display of the "Corkscrews."

Husker Interviews

Interviews for paid Cornhusker staff positions will be held today beginning at 3 p.m. in the Ogallala room of the Student Union.

Positions available are editor, two associate editors, four managing editors, business manager and two assistant business managers.

Interviews for the Cornhusker yearbook section editors will be held April 18. Application blanks for these positions are available in the Cornhusker office in the basement of the Student Union.

Moot Victors

Number Eight

Four teams survived the quarter finals of the Thomas S. Allen Moot Court competition at the University College of Law recently.

The results of the competition are as follows: Donald Treadway and Joseph Krause defeated George Moyer and Robert Varilek; Mike Levy and Jack Henley defeated Charles Roberts and John Anderson; Richard Peterson and Ben Neff defeated Charles Pellesen and Richard Shugrue; Harold Mosher and Gene Watson defeated Mac Hull and Mike Lazer.
