

Lincoln's 22 Parks, Pools Supply Variety of Summertime Recreation

Editor's note: The following article on recreation facilities is the third story in a series on what to do in Summertime Lincoln.

By Tim Gartner

Whether you're old or young, the city supplies park and recreation facilities for everyone, according to James Ager, superintendent of parks.

Lincoln's 22 operating parks range in size from scenic Pioneer's 610 acres to American Legion park, which is only one and a half acres.

Some of the parks serve specific functions, such as playgrounds, while others are aimed at more diversified activities that include all age groups.

"But," Ager adds quickly, "the majority of the parks are complete. That is, they have picnic tables, fire places and shelter houses in addition to playground equipment for the children."

"Of particular interest to the oldesters might be the beautiful Sunken Gardens at 27th and D St. or the Rose Garden adjacent to it. Also there is a floral center in Woods Park at 33rd and O St.

Plants for the floral centers are grown in the Antelope Park nursery. "Our greenhouse grows 150,000 plants each year," Ager said.

Of a special interest to the Antelope and Pioneer park visitors are the animal zoos. Housed at Antelope are the different types of birds, monkeys, and other small animals.

Water buffalo, llamas, guanacoes, deer, elk, buffalos, and Texas Long Horn cattle, among others, range on the open land of Pioneer Park. Future plans of the park department include the completion of Children's Zoo, the Antelope Dam Project and improvement of existing facilities.

The Children's Zoo, which is being financed by private concerns on city property, will enable children to have actual contact with birds and animals. A miniature rep-

PINEWOOD BOWL — Spacious Pioneer Park, the largest of Lincoln's city parks, contains the Pinewood Bowl outdoor amphitheater where musicals and plays are produced during the summer months. Last week "South Pacific" was presented here.

lica of an early Nebraska town will be the setting. Completion is scheduled for the spring of 1962.

"By next summer, boating facilities should be ready at the Antelope Dam project," Ager said. "This project will cover 400 acres, with 100 acres being the lake. The remaining 300 acres will have complete picnic facilities."

The sports-minded individual has not been overlooked by the city.

"For those who like their outdoor activity more vigorous, the city recreation department maintains three swimming pools, 8 tennis sites, Pioneer's 18-hole grass-greens golf course and facilities for ice-skating at the Pershing Auditorium," said James Lewis, superintendent of recreation.

The following is a list of city recreation facilities.

City Parks

Pioneer, 610 acres, 1/2 mile south of Burlington Ave. and West Van Dorn.

Antelope, 175 acres, 27th and B St.

Woods, 50 acres, 33rd and O St.

Oak Lake, 275 acres, 4th and Charleston.

Van Dorn, 19 1/2 acres, 10th and Van Dorn.

Irvingdale, 22 acres, 17th and Van Dorn.

Cooper, 11 1/2 acres, 8th and F St.

Belmont, 10 acres, 12th and Judson.

Pentzer Playground, 11 acres, 27th and Potter.

Peter Pan, 11 acres, 33rd and W St.

University Place, 13 1/2 acres, 48th and Francis.

Bethany, 10 1/2 acres, Cotner and Vine.

Northeast, 17 acres, 67th and Baldwin.

Havelock, 5 acres, 63rd and Ballard.

Piedmont, 10 acres, 50th and C St.

Roberts Park, 17 acres, 58th and Sumner.

College View, 7 acres, 44th and Prescott.

Ballard, 7 acres, 64th and Kearney.

American Legion Play-ground, 1 1/2 acres, 26th and Randolph.

Eden, 4 1/2 acres, 46th and Antelope.

Rudge Memorial, 4 1/2 acres, 17th and Lake.

Swimming Pools

Irvingdale, 19th and Van Dorn.

Muny Pool, 22nd and M St.

University Pool, 49th and Francis.

Golf Courses

Pioneer Course, 5 miles west on Van Dorn.

Tennis Courts

Lincoln High School courts.

Lincoln Southeast High courts.

Lincoln Northeast High courts.

Peter Pan courts.

Cooper courts.

Roberts courts.

College View courts.

Ice-Skating

Pershing Auditorium, 15th and M St.

Post Session Will Offer 3 Courses

Three courses, each carrying three hours of credit, will be offered 8-12 a.m. in the Summer Sessions Post Session, August 7-25.

The courses being offered include School Administration (Education 159), Audio-Visual Materials for Teachers. The prerequisite is sophomore standing. The course includes devices and techniques for classroom teachers: exhibits, charts, maps, slides, films, models; how to prepare, use and integrate the materials with curriculum units taught in elementary, junior high and senior high schools. Instructors are Mr. Harvey and Mr. Clement.

A second course is Secondary Education (Education 143), Teaching Driver Education in Secondary Schools. The prerequisite is Ed 141. The course includes aims, purposes, organization, content, teaching materials and methods for a course in driver education in high schools. The instructor is Mr. Beckmann.

The third course offered is Physiology (Public Health 11), Personal and Community Health. There is no prerequisite. The course includes an introduction to the basic functions of the body and to the fundamental principles of the more common health problems, alcohol and narcotics education. Instructor is Mr. Pace.

Persons interested in taking these courses are asked to notify Dr. Sorenson, director of Summer Sessions, room 103 Teachers College as soon as possible.

Summer Calendar

Today through July 29

Latin American Contemporary Art Exhibition, University Art Galleries, Morrill Hall, 8 a.m.-5 p.m. daily, 2-5 p.m. Sundays.

Tuesday, July 18

1 p.m., World Affairs Preview, "Dawn in Darkest Africa," Dr. John Furbay, Love Library auditorium.

Wednesday, July 19

12 noon, Phi Delta Kappa luncheon, Student Union.

12 noon, Pi Lambda Theta luncheon, Student Union.

1 p.m., Far Eastern Institute film on Indonesia, "Three Brothers," Love Library auditorium.

8 p.m., Union Artists Series, Summer Symphony Orchestra Concert conducted by Arnold Schatz, Student Union ballroom.

Thursday, July 20

12 noon, Superintendents' Round Table Luncheon, address by Dr. C. O. Jackson, Student Union.

3 p.m., Student Union tour of Journal-Star printing company, Union S Street Entrance.

7:30 p.m., Union Films Classic, Love Library auditorium.

Friday, July 21

1 p.m., public address by Dr. C. O. Jackson, head of Department of Physical Education for Men at University of Illinois, room 108 Burnett.

Monday, July 24

2 p.m., Clinic for parents and teachers, "Time Out for Action," Love Library auditorium.

Summer Bookshelf

The Love Memorial Library staff has prepared the following list of books available for summer reading. These volumes are on display at the table inside the door of the Humanities Reading Room.

Male, Emile. Early Church of Rome. Emile Male, who died in 1954, was an eminent French scholar. This book, originally published in 1942, is now translated by David Buxton. Mr. Buxton has also edited the essays and supplied most of the 118 beautiful photographs.

Rogers, Francis. Painted Rock to Printed Page. A very simply told history of writing. It starts with a discussion on cave pictures and

the last chapter summarizes today's printing methods. The book includes many interesting illustrations.

LeBar, Frank M. Laos. A compendium on Laos with chapters ranging from "Geography and Population" to "Political Dynamics" and "National Attitudes." The editors have drawn on authoritative materials, published and unpublished, and these, supplemented with original research, shed some light on the dimensions of the critical and often confused location problem.

Bowles, Frank H. How to Get into College. 1960 revision. In question and answer for this book tries to touch upon all the problems of the high school student wanting to go to college. The questions of the parents are also answered.

The selection of a college, the process of applications, College Boards, financing college, and staying in college are the major categories covered. Samples of the Personal and Scholastic Record form and the Parents' Confidential Statement required by the College Scholarship Service are included.

Singer, Charles. A History of Biology. The first edition of this work appeared thirty years ago. The recent appearance of the third edition represents a thoroughly revised text written in simple language and gives a survey of the historical development of biological problems.

Stirton, R. A. Time, Life, and Man. This introductory text in paleontology deals with a chronologic presentation of the sequence of plant and animal life from the Precambrian to the Pleistocene. The style of writing will arrest the attention of students with little or no training in the biological and earth sciences, and at the same time it brings into focus the over-all picture of paleontology for the more advanced student.

Dunbar, Carl O. Geology. With the growing knowledge in geochemistry and astronomy have come revolutionary changes in conceptions of the origin and cosmic history of the earth. The impact of epoch-making discoveries in atomic physics has also influenced the revision of this second edition. Students without previous experience in geology should not find the book too difficult.

New Bison Texts...

ing, the impressive and devout patterns of their ceremonies... (Atlantic Monthly). Bison Book 110. \$1.60.

THE VOICE OF THE COYOTE by J. Frank Dobie. Illustrated by Plaus J. Murie. This is a new kind of natural history. The author... has taken notes, talked to all sorts of people, read all the literature there is on the coyote including folklore of which there is a surprising amount; and then put the whole business together in this personal, intimately written, and enormously fascinating volume. (San Francisco Chronicle). Bison Book 109. \$1.40.

BLACK ELK SPEAKS: Being the Life Story of a Holy Man of the Ogala Sioux by John G. Neihardt. "A unique, realistic, and poetic understanding of a vanished time and people." (Oliver LaFarge). "Seems as close as we can get to the authentic mind and life of the plains tribes." (Paul Engle). Bison Book 119. \$1.50.

LETTERS OF A WOMAN HOMESTEADER by Elinor Pruitt Stewart. Foreword by Jessamyn West. "We are the beneficiaries of this busy woman's responsiveness to life and of her generous desire to share her experiences. She 'proved up' on a good deal more than one hundred and sixty acres and has passed

KUON-TV Summer Programming

"Adventures in Number and Space," an unusual program that attempts to make mathematics exciting and entertaining to American youngsters, will return to KUON-TV Wednesday at 6:30 p.m.

Bill Baird and two of his puppet characters explain basic principles of mathematics and deal not only with the traditional "R" of arithmetic, but also with more advanced subjects including algebra, trigonometry and geometry.

On Thursday night at 8 "Baghdad by the Bay" will present an informal discussion hosted by Herb Caen, columnist for the San Francisco Chronicle, and Bill Winter, news analyst for KGO-TV in San Francisco.

The topic of the program

will be nuclear warfare: Can the American public survive atomic war, or is the only way to survive to make atomic war impossible?

A complete listing of KUON-TV, Channel 12 programs for the week follows:

Tuesday, July 18

5:30 p.m. Evening Prelude: One full hour of classical dinner music.

6:30 p.m. Music as a Language: In "Nature's Sound," the "Chord of Nature," perfect, fifth, and

"Dance with Me, Be" is an interesting variety of musical techniques used to deal with and

to Dr. John W. Dods. A selection from Thoreau's "Walden" forms the main portion of this half hour.

7:00 p.m. Great Plains Trilogy: "The Red-White Struggle," "The problems of the Indian barrier to settlement, and the various methods used to deal with and

and the Indians are just two of the many problems covered in this continuation of the third series, "The White Man Ar-

ives." Food for Life: In these days of crash diets, Metreol and the multitude of other sub-

stances to either put on or take off weight, "The Meaning of an Adequate Diet" is often discussed. Dr. Codevost explains that an adequate diet should contain the essential nutrients—of which there are forty-one. A discussion of the nutrients and of meal planning in general follows.

8:00 p.m. Shelter for Man: "Education: The University." According to present calculations there should be an estimated six million students in college throughout the nation by 1970. One of the most pressing problems facing these institutions is "Where can we put all the students?" The various forces that go into and direct the planning of university buildings and the varied styles of buildings used are discussed at length.

8:30 p.m. Philosophies of Education: Florence Stratemeyer, professor of Education at the Teachers College of Columbia University, discusses what she considers the two essential elements of the adjustment education: development of skills to handle immediate problems of everyday living, and in turn to develop the skills to help one understand the situations that will recur continuously through this life. She answers questions and comments on a filmed illustration.

9:00 p.m. Anatomy of a Revolution: See Monday, July 17, Channel 12 at 7:30 p.m. for details.

9:30 p.m. Music as a Language: "Music as a Sound." The "Chord of Nature," perfect, fifth, and

"Dance with Me, Be" is an interesting variety of musical techniques used to deal with and

to Dr. John W. Dods. A selection from Thoreau's "Walden" forms the main portion of this half hour.
