

## NU Civil Defense Pace Quickened

By Nancy Whitford

The increase in world tensions will indirectly affect the University campus this year in the form of a stepped-up program for civil defense.

In keeping with the national emphasis, campus civil defense preparation will be concentrated on two areas—giving warning and providing shelter from fallout, said Roy Loudon, civil defense coordinator.

An adequate warning system has already been installed, he said, but the inspection of buildings to determine which are adequate shelter sites will begin sometime in October.

A student Red Cross group, under the direction of Dr. Samuel Fuenning, is also preparing for a civil defense emergency by training health chairmen in the individual houses and by maintaining a walking blood bank through the facilities of Student Health.

The warning system includes periodic drills announced by a siren on top of Bancroft for the city campus and a siren on the Biochemical building on Ag campus. Both were purchased by matching University and federal funds.

"Together, the two sirens fairly well blanket the campus," Loudon said.

Designation of shelter areas for protection from radioactive fallout will supercede any plan of evacuation.

"There just will not be time for evacuation," Loudon said. "Maximum warning time in case of attack will be only about 30 minutes."

"The first 24 hours will be extremely critical with an estimated 3,000 roentgens, or units of radioactive fallout, per hour. A lethal dose would be 600 roentgens, so the immediate problem will be to find shelter."

"The original dosage dissipates by 50 percent each 49 hours so it will be safe to leave the shelter in about two weeks although it may be possible to go out for limited times before then."

To provide adequate shelter, an area must have a water supply, an air exchange and toilet facilities, Loudon said. Food will be secondary as it is possible to live for two weeks on air and water.

## IWA Plans Big-Little Sister Party

A big-little sister party will be held by the Independent Womens Association (IWA) Oct. 5 at 7 p.m. in the Student Union.

A demonstration on applying make-up and accessorizing a wardrobe has been tentatively scheduled. School clothes may be worn to the party.

IWA has also planned for the coming school year: a car wash Oct. 7; helping with a casino party Oct. 13 as part of the Women's Residence Halls convention (this will replace the fall fling);

An etiquette study Nov. 6; the AUF shoeshine, Nov. 8; a pancake feed, Nov. 12; Christmas card sale beginning Nov. 15; board fillings, Feb. 16-23; board interviews, Feb. 24;

A dance for independent students, March 2; all-womens-elections, March 11; recognition dessert, May 7 and the Spring Fling, May 17.

## Educators Study Machine Methods

"Mechanical" school administration will be demonstrated October 4-5 at the Nebraska Center during a conference sponsored by the University education departments and the International Business Machines Co.

Administrators will learn how to prepare report cards, make high school schedules, keep attendance and control the budget through machine methods.

School and college administrators and their boards of education from Nebraska, Kansas, Iowa, South Dakota, Colorado, and Missouri have been invited to attend the conference.

## 'Measure' Opens '61 Show Year

Shakespeare's Satire Will Run Oct. 25-28

"Measure for Measure," a Shakespearean comedy, will be the opening production of the University Theater in the 1961-62 season of plays and opera.

Directed by Dr. William R. Morgan, director of University Theater, the play will run Oct. 25-28.

"Measure for Measure" shows Shakespeare as a "brilliant and bitter satirist." It shows the downfall of a tyrant imposing Puritanical rules up on others when he is taught mercy.

The principle characters in the cast are as follows: the Duke, Gordon Trousdale; Angelo, Herb Irvin; Escalus, Zeff Bernstein; Claudio, Fred Gaines; Lucio, Jerry Mayer; Isabella, Leta Powell; Mariana, Nancy Wilson; Juliet, Jane Cumming; Mistress Overdone, Bev Ruck; Pompey, Curtiss Greene; Elbow, Frank Vybiral; and Provost, Richard Watkins.

Other members of the cast include Melvin Grubb, Susan Mall, John Turner, James Gleason, James Roach, Gary Evans, Paul Holzworth, Gary Osantowski, Lee Primm, Pat Keating, Phil Boroff, Robert Ayres, Bonnie Benda, Jenise Burmood, Mary Plaster, Sue DePriest, Providence Teale, Sarmite Tupe, Mary Hughes, Diane Johnson, Linda Mead, Jeanette Barnes and Jeanie Dawson.

The other four productions are "Light up the Sky" by Moss Hart, Dec. 13-16; "Cosi Fan Tutte" by Mozart, Febr. 7-10; "The Three-Penny Opera" by Bertolt Brecht, March 21-24; and "The Sea Gull" by Anton Chekhov, May 16-19.

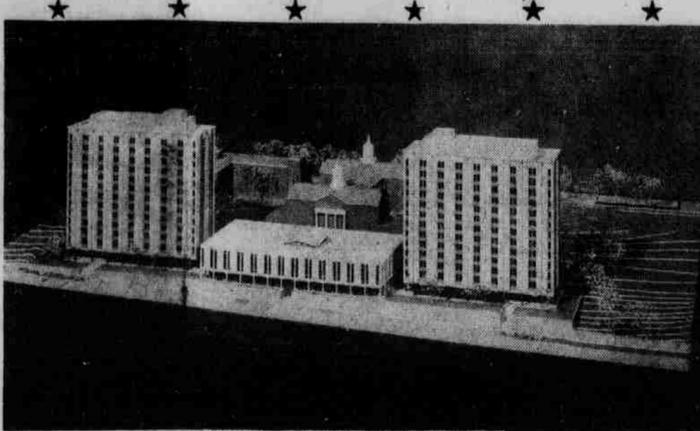

## Dr. Morgan Will Direct NU Theater

Dr. William R. Morgan has been announced as the new director of the University Theater and head of instruction in the theater area, a division of the department of speech and dramatic art.

Dr. Charles Baldwin, previous director of the University Theater in the 1959-60 and 1960-61 seasons, asked to be relieved from the director's duties in order to devote more time to playwriting. Dr. Baldwin is the theater specialist in its history and playwriting, while Dr. Morgan is a specialist in the instruction of acting.

Clifford Ashby has been appointed as the new designer and technical director of University Theatre. Ashby, formerly from Stanford, will replace Bernard Skalka, who left the position to become technical director at River Falls State Teachers College in Wisconsin.

## Hardin Releases Proposed Plans For \$4 Million, 13-Story Dorm

NEW TWIN TOWERS

A scale model of the proposed \$4 million dormitory is shown above. Preliminary plans were released by Chancellor Clifford M. Hardin today.

Today preliminary plans for a \$4 million dormitory building which will house 960 students on the University's City campus were announced by Chancellor Clifford M. Hardin.

Current project plans include two 13-story residence halls with a basement and a two-story food-service building. They will be constructed on the west side of 17th Street, directly east of the present Women's Residence Halls on 16th.

Comptroller Joseph Soshnik was authorized by the Board of Regents to explore financial details. The residence halls will be financed by revenue bonds and not tax monies.

Chancellor Hardin said it is hoped that financing plans can be completed so that bids may be let sometime this winter with the completion date scheduled for the fall of 1963.

### Twin Towers

The twin dormitory towers will be the first "skyscraper" type building to be constructed on the downtown campus.

The twin towers will be separated by the food-service building which will feed 1,500 students—the 960 residents living in the new dorm plus the 530 women students in the present women's dorm.

Davis and Wilson of Lincoln are the architects for the project. Ultimately the project will be entirely for women, Chancellor Hardin said, but for the first few years until the coed enrollment increases to fill both dormitories, one tower will be used to house men students and the other for women.

Each floor will have 20 rooms with two beds in each room. On the first floor of each tower building there will be two large lounge areas, living space for a proctor and complete mailing facilities. The top 12 floors will be used entirely for student housing and the basement will be used to keep the mechanical equipment.

### Kitchen, Cafeteria

Two large dining rooms separated by a kitchen and cafeteria area will comprise the food-service building. This building will be connected by enclosed passageways to both tower dormitories and the Women's Residence Halls.

Exterior walls of the proposed buildings will be of marble or quartz material embedded in the face of pre-cast wall panels.

Three mockup rooms, described in yesterday's Daily Nebraskan, have been built in Nebraska Hall with each room varying in size and location of closets.

The chancellor said the need for additional housing at the University was pointed out this year when all University facilities were reserved by July for the fall term.

Present on-campus housing will take care of approximately 4,000 students, but about 8,600 students are enrolled in the University.

## Wildlife Film To Highlight 'Horizons'

William Ferguson tours the Rockies from Colorado to northern Canada in the film "High Horizons" on Monday. This is the first film in a series of Audubon Wildlife Films.

Love Memorial Library auditorium will host the performances which begin at 4 p.m. and 8 p.m.

Matinee prices are \$3 for adult season tickets, \$1.50 for student season tickets, single admission, 75c and children under 12, 35c. Evening prices are \$4 for adult season tickets, \$2.50 for student season tickets and single admission, \$1.

Tickets are available from 19 Architecture Hall, 101 Morrill Hall and service desk of Miller and Paine.

## Dr. Treves Returns to Antarctica, Leads Mountain-Mapping Group

By Bob Nye

Dr. Samuel B. Treves, assistant professor of geology at the University was given a two-month leave of absence

Saturday to lead a six-man mapping expedition to the Horlick mountains in Antarctica.

The Central Horlick's, named by Admiral Byrd on one of his first expeditions, are located about 250 miles from the South Pole and is one of the oldest and most severe points on the face of the earth.

Dr. Treves will leave the United States Nov. 20 with a party made up of members of the Institute of Polar Studies, and, with weather conditions permitting, will return Jan. 29.

The work in mapping the mountains is being financed by the National Science Foundation. Dr. Treves said that very little is known about the geology of the Antarctica even though the International Geophysical Year (IGY) contributed more to the knowledge of the continent than had ever been collected before.

Dr. Treves spent part of last year on Ross Island mapping the volcanoes and then worked along Marble Point on the mainland. He presented the results of this work in a paper given to the 10th Pacific Science Congress in Hawaii this summer.

The Horlick mountains extend nearly the length of the continent and range from about 6,000 to 10,000 feet above sea level.

The mountain range is the only rock exposure in the central area of Antarctica and is composed of coal stratifications and sedimentation from the Devonian age resting on a granite base.

Dr. Treves said that the mountains contain the oldest fossiliferous rocks in Antarctica.

The party will be flown to their destination from Byrd Island and will live in small reinforced canvas huts, called Jamesways, on the lowest slopes of the mountains.

## Kosmet Klub Traveler Act Tryouts Set

Kosmet Klub traveler act tryouts will be held Oct. 4 in the Student Union, according to Ed Connerly, Kosmet Klub publicity chairman.

Groups or individuals interested in performing acts for the fall show are asked to contact Ray Stevens at IN 6-2436

Kosmet Klub workers are now selling tickets to the fall show at \$1 apiece. No reserve seats are being sold this year.

Skit tryouts will be held Sunday in the Union ballroom beginning at 2 p.m. Judges will be Dick Barnsberger, adviser to Kosmet Klub; Miss Mary Jane Mulvaney, adviser to Mortar Board; Jeanne Garner, president of Associated Women Students (AWS); Neil Ferguson, president of Kosmet Klub; and Marsh Kuhr, fall show chairman.

## Poetry Contest Seeks Verses

The National Poetry Association has announced its annual poetry competition.

Any student attending a junior or senior college is eligible to compete and there is no limit to form or theme. Closing date for the competition is Nov. 5.

Teachers and librarians are also invited to submit poetry for consideration for possible inclusion in the annual national teachers anthology. Closing date for submission of verse is Jan. 1.

Manuscripts should be sent to the offices of the National Poetry Association, 3210 Selby Ave., Los Angeles 34, Calif.

## Undergraduate Scholarships Offered For European Study

Scholarships for undergraduate study in Europe during the academic year 1962-1963 were announced today by the Institute of European Studies, a Chicago-headquartered, non-profit educational organization.

The scholarships are valued from \$1,950 to \$2,350, and provide a full year of study at one of the Institute's three study centers, Vienna, Freiburg (West Germany), and Paris.

Roundtrip ocean transportation from New York, tuition, room, most meals, language instruction, special courses and field study are included.

The scholarship application period for the 1962-1963 academic year begins in October and closes February 1, 1962.

Students who will be sophomore or juniors, and who pass the minimum qualifications required by each program, may apply.

Institute students sail as a group from New York. Aboard ship they receive special orientation.

They live in private European homes during their stay on the continent.

Robert T. Bosshart, president of the Institute of European Studies, said the scholarship program is aimed at placing the best in American and European education within the reach of all qualified U.S. college students.

Bosshart said that full information about programs can be obtained by writing the Institute of European Studies, 35 East Wacker Drive, Chicago 1, Illinois.

## Nebraska Center Rooms Bear State Town Names

LINCOLN NAMESAKE

The Lincoln Room, a spacious dining room which will seat 140 persons, is named for the capital city for its part in making the Nebraska Center become a realization.

The number system has gone out of style in designating conference rooms in the recently completed Nebraska Center.

Cities throughout the state which contributed most to bring the Center from a dream to reality were rewarded by having the rooms carry their name. So remember it's Beatrice Room or Lincoln Room.

The 10 major conference rooms located on the second floor of the conference building bear these names—Hastings, Scottsbluff, Kearney, Beatrice, Fremont, North Platte, Norfolk, Alliance, York and Minden.

The Lincoln Room, a 140-person restaurant, and the Grand Island and Columbus Rooms which will serve a maximum of 100 diners are located on the floor below in the conference building.

The Pioneer Room, located on the main floor, is now an executive facility and used as

a dining room.

The giant Omaha Room in the basement of the building is a banquet hall designed to accommodate 800.

In the Hall of Youth, the Wayne, Holdrege, Imperial and Kimball communities are the names of meetings rooms. Three other meeting rooms wear titles of Ak-Sar-Ben I, II, III. The Nebraska City and David City Rooms are recreational and lounge areas.

## Ag Union Plans State Pen Tour

The annual Ag Union sponsored tour of the Nebraska State Penitentiary is scheduled for Oct. 3.

The tour which will leave the Ag Union by bus at 5:30 p.m. will tour the entire grounds and dine with the inmates.

Those wishing to go should register at the Ag Union before Friday.
