

# Onslaught of Homework Fails to Discourage Cupid

Classes have commenced and with them a fresh onslaught of homework. However, seventeen coeds seem to have found time to receive fraternity pins or engagement rings.

### Pinnings

Nancy Watton, Zeta Tau Alpha senior in Teachers from Lincoln, to Russ Jorgensen, NU graduate in Engineering from Lincoln.

Jan Smith, Zeta Tau Alpha junior in Teachers from Omaha, to Fred Wilke, junior in Architecture and Engineering.

Tommilee Hughes, Zeta Tau Alpha, sophomore in journalism from Norfolk, to Roger Hahn, Kappa Sigma senior in Civil Engineering from Battle Creek, Mich.

Janet Janssen, Alpha Chi Omega sophomore in Teach-

ers from Omaha, to Gary Lorentzen, Theta Xi senior in Teachers from Hartington.

Jenny Gillespie, Delta Delta Delta, sophomore in Teachers from Gothenburg, to Dave Armstrong, FarmHouse alum attending graduate school at the University of Wisconsin, from Neligh.

Sally Rist, Pi Beta Phi, sophomore in Arts and Sciences from Humboldt, to John Stansbury, Beta Theta Pi senior in Arts and Sciences from Humboldt.

Patty Barrett, Gamma Phi Beta, senior in Teachers from York, to Gary Anderson, Sigma Chi senior in Arts and Sciences from Grand Island.

Phyllis Mills, Alpha Xi Delta, junior in Arts and Sciences from Lincoln, to Larry Mitchell, Zeta Psi at Wesleyan University, a senior in Business Administration from Lincoln.

Jeanine Campbell, Alpha Xi Delta, junior in Business Administration from Beaver City, to Burt Merrick, Sigma Alpha Epsilon junior in Arts and Sciences from Lincoln.

Linda Hellig, Kappa Kappa Gamma, sophomore in Teachers from Lincoln, to Al Nielsen, Sigma Phi Epsilon junior in Arts and Sciences from Lincoln.

Barbara Jahn, senior in Teachers from Falls City, to Dave Godbey, Theta Xi alum from Elmwood.

Betty Callahan, freshman in Arts and Sciences from Gibbon, to Jerry Gehre, Tau Kappa Epsilon senior in Business Administration from Gibbon.

### Engagements

Louise Holbert, Delta Gamma junior in Arts and Sciences from Lincoln, to Don Casey, Sigma Phi Epsilon freshman in Law College from Johnson.

Lana Clough, Alpha Xi Delta, junior in Teachers from Lincoln, to Gayle Burr, senior in Business Administration from Scottsbluff.

Sharon Swanson, junior in Arts and Sciences from Burwell, to Ron Crispin, junior in Teachers from Juniata.

Sharon Russell, senior in Home Economics from Mitchell, to Dale Kunz from Elmwood.

Lynn Wright, Kappa Alpha Theta, senior in Teachers to Jim Brown, Sigma Alpha Epsilon alum in Northwestern Medical School, from Sioux Falls, South Dakota.

Martha Shaffer, Kappa Alpha Theta, junior in Arts and Sciences from Omaha, to Dick Chamberlain, Phi Delta Theta alum from Omaha.

## Meetings

Campus house mothers will be entertained at a tea and bridge party sponsored by the general entertainment committee of the Ag Union tonight at 7:30.

The annual fall watermelon feed for all vocational education students and others interested in Ag and Home Economics will be held at Peter Pan Park, 33 and W St., at 6:30 p.m. today.

Governor Frank Morrison and state executive secretary Charles Hein will speak at the Young Democrats meeting Thursday at 7:15 in 232 Student Union.

Three items to be discussed include the program for the year, participation in the national Democratic convention at Miami Beach in December and the possibility of obtaining Harry Truman and Ted Sorensen as speakers.

The Rodeo Club will meet tonight at 7:30 p.m. in the Ag Union TV Lounge. Any student enrolled in the University may join the club.

Student Council will meet this afternoon in the Indian Suite of the Student Union.

Applicants for the Teachers College vacancy will be interviewed at the meeting.

The Spanish Club will hold its first meeting of the season Thursday at 7:30 p.m. in 235 Student Union. The organizational meeting is open to all students of Spanish and Spanish American literature and all others interested in the language and culture of Spain and Spanish America.

The Phi Chi medical fraternity will hold a jam session Sunday at 2:30 p.m. at 3708 Dewey in Omaha. The session will include a live combo and refreshments.

All Lincoln independents are invited to attend a meeting to discuss Lincoln student participation in campus activities and representation in campus government and organization. The meeting will be Sunday at 3 p.m. in 345 Union with Tom Eason, Connie Hilburn and a Student Council representative leading the discussion.

### KNUS Announces Weekday Schedule

The campus radio station, KNUS, has announced its weekday schedule.

KNUS comes on the air at 4:30 p.m. and broadcasts popular music until 10:30 p.m. National and campus news is broadcast every hour on the hour.

## Education Center Hosts Nebraskans, Formally Opens Its Doors Friday

By Cloyd Clark

The doors of the Nebraska Center for Continuing Education will be thrown open to this state and all the Midwest in the formal opening of the \$3,000,000 educational plant at 33rd and Holdrege, this weekend.

Although the formal dedication ceremonies Friday night will be by invitation only and will include members of the special statewide committee responsible for the raising of funds to finance the building, the new Center welcomes all comers from 9 a.m. to 9 p.m. Saturday.

The chosen Nebraskans who attend the dedication banquet Friday night will hear speaker Dr. Emory Morris of Battle Creek, Mich., president and general director of the W. K. Kellogg Foundation. The Foundation contributed \$1,856,000 toward construction and operation of the Center.

Contributions of Nebraskans added another \$1.1 million to the advanced education project and the Board of Regents approved a \$350,000 revenue bond issue to fulfill the state's obligation to the Kellogg grant.

The Center is one part of a national movement to further adult education. Nebraska received approval for the Kellogg grant along with the University of Chicago and the University of Oklahoma in 1957.

The Center, although still under construction, unofficially opened last June. Since then over 3,000 Nebraskans have utilized the Nebraska Center facilities.

Thirty thousand people are expected to visit the Center

and attend courses and lectures by faculty before the first anniversary. Already 20,000 lawyers, doctors, University officials, professors, professors, young people and others from all walks of life have scheduled the Center into their year's program. Each one of these expected visitors will be able to use the auditorium, the conference rooms, the hotel, the Hall of Youth and any of the other facilities of Nebraska's \$3 million education Center.

## Flowerpot

(Continued from page 2). This is why we planned the trip.

How many of us ever read about Japan, let alone plan visits there?

They wanted to learn about us. They will take home seeds from our flowerbed to their native flowerbed, as will all the other foreign students attending this University. And they will someday have many new species and varieties in their homelands. Hajime, himself, said "We (Japanese) imitate everything you (Americans) do" including baseball and jazz.

They add our culture to theirs. But do we add to our culture? No. We fail to support the NIA; we allow the Nebraska University Council on World Affairs (NU-CWA) to become defunct. We sit around and let the rest of the world absorb our culture and supplement their own.

Meanwhile, back at the flowerbed (at NU and in America) we laugh and point fingers at the funny foreign flowers because they are of a different color or size or shape. And because we will not accept them, our varieties, our ideas our philosophies are not supplemented with new characteristics. And someday, because they have not been modified or strengthened, a big storm will come along leveling them to the ground and they will wilt and die.

what comes after the wheel? ford motor company's educated guess

Frankly, there is no practical substitute for the wheel today. But at Ford Motor Company, our scientists and engineers refuse to give "no" for an answer. They are tackling, among others, the problem of wheelless vehicles for tomorrow.

Is "tomorrow" really far off? Not according to the men at Ford. Already they've developed the Levacar as one possibility. It replaces the wheel with levapads, perforated discs which emit powerful air jets to support the vehicle. Air suspension—if you will—of an advanced degree. Imagine traveling swiftly, safely at up to 500 mph, riding on a tissue-thin film of air. Guided unerringly by a system of tails. Propelled by powerful turboprops. This is the Levacar.

Meanwhile we've still got the wheel. And the job of building better cars for today. So we hope you won't mind riding on wheels just a little longer while we concentrate on both tasks.
